Accompanying Ruby's first US museum survey, this book takes a thematic approach to the artist's work, focusing on his critical invocation of imagery related to American identity. Beginning with his earliest collages, this book demonstrates his distinctive approach to psychological, cultural, and topical concerns. It includes his recent mobiles and polyurethanes, demonstrating his continuous engagement with themes such as prison reform, labor conditions, and vernacular cultures. Readers can compare smaller works on canvas and in clay to monumental sculptures made from submarine parts or giant skyscrapers rendered in toxically bright colors.
