In Vanishing Ireland II, the follow up to the bestselling Vanishing Ireland I, we take another journey down memory lane and, through a unique collection of portrait interviews, we look at the dying ways and traditions of Irish life. Illustrated with over a hundred evocative and stunning photographs, we meet the people and the customs that are fast becoming a distant memory. Through their own words and memories, men and women from every corner of Ireland transport us back to a simpler time when people lived off the land and the sea, and when music and storytelling were essential parts of life. Vanishing Ireland brings together the stories of those who lived through Ireland's formative years. These poignant interviews and photographs will make you laugh and cry but, above all, will provide a valuable chronicle that connects twenty-first century Ireland to a rapidly disappearing world.

Excerpt from The Century Cyclopedia of Names: A Pronouncing and Etymological

Dictionary of Names in Geography, Biography, Mythology, History, Ethnology, Art, Archaeology, Fiction, Etc., Etc., Etc No attempt has been made systematically to etymologize all the names in the list: but etymological notes have been inserted under many of the historical names of prime interest, especially those of ancient English origin, and in many other cases where they seemed to be useful. These have been contributed by Dr. Charles P. G. Scott, with additions by some of the other specialists in their several departments Sanskrit, Semitic, American Indian, etc. Dr. Scott has also aided in the work on the pronunciation, and has criticized the proofs. Discussing a wide range of literary theory in a clear and accessible way, prize-winning author Robert Scholes here continues his ongoing construction of a humane semiotic approach to the problems of reading, writing, and teaching. Taking the view that "all the world's a text," Scholes considers numerous texts from life and literature, including photographs, paintings, and television commercials as well as biographies and novels. "A significant and thoughtful effort to think about the responsibilities of reading in the wake of deconstruction."--Choice Protocols of Reading is a personal, avuncular book, attractive in its common sense and brevity."--Wendy Steiner, Times Literary Supplement "A complex argument developed in delightful plain English, Protocols of Reading sees both textual fundamentalism and deconstructive debunking as needful opposites in an oscillation that Scholes labels nihilistic hermeneutics. Fine-tuning this oscillation is what the humanistic enterprise is all about, he suggests; it is our key to the true connection between reading and ethics."--Richard A. Lanham, University of California, Los Angeles Robert Scholes, Andrew W. Mellon Professor of Humanities at Brown University, is also the author of Textual Power: Literary

Theory and the Teaching of English; Semiotics and Interpretation; and Structuralism in Literature: An Introduction

## **The Sporting Chronicle Annual**

On 20 September 1854 the combined British and French armies confronted the Russians at the river Alma in the critical opening encounter of the Crimean War. This was the first major battle the British had fought on European soil since Waterloo almost 40 years before. In this compelling and meticulously researched study, Ian Fletcher and Natalia Ishchenko reconstruct the battle in vivid detail, using many rare and unpublished eyewitness accounts from all sides—English, French and Russian. Their groundbreaking work promises to be the definitive history of this extraordinary clash of arms for many years to come. It also gives a fascinating insight into military thinking and organization in the 1850s, midway between the end of the Napoleonic era and the outbreak of the Great War.

The Boss, And How He Came To Rule New York This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high

quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!
