Here is the new, completely updated and expanded edition of the indispensable handbook used throughout the hospitality industry since *The Laws of Innkeepers* first appeared in 1972. Containing all the legal information essential to the successful operation of modern hotels, motels, inns, bed-and-breakfasts, clubs, restaurants, and resorts, the book has been extensively revised by John E. H. Sherry to accommodate the far-reaching changes that have occurred since the publication of the revised edition in 1981. Sherry, a practicing lawyer and professor of hotel administration, carries over from the highly praised earlier editions detailed information on the rights and responsibilities of host and guest alike. He cites actual cases—ranging from the amusing and the bizarre to the tragic—as examples, and spells out in precise and readily understandable terms exactly what state and federal law says. Broadening the scope of the book to keep up with recent legal developments, the author includes many new case decisions and summaries from various jurisdictions. Three chapters devoted to employment law, environmental law and land use, and catastrophic risk liability are among the highlights of the new material. These new sections present recent rulings and case law on such timely topics as age, disability, and AIDS discrimination, as well as sexual harassment; government regulation of toxic and hazardous substances and hotel and resort development; and acts of God and the Public Enemy and terrorism.

Suffrage and the Arts re-establishes the central role that artistic women and men-from jewellers, portrait painters, embroiderers, through to retailers of 'artistic' products-played in the suffrage campaign in the British Isles. As political individuals, they were

foot soldiers who helped sustain the momentum of the movement and as designers, makers and sellers they spread the message of the campaign to new local, national and international audiences, mediating how suffrage activism was understood by society at large. Published to coincide with the centenary of the 1918 Representation of the People Act, which granted the vote to women over the age of thirty meeting a property qualification, this edited collection offers a range of new perspectives and readings of the outpouring of creative responses to the campaign. Contributors, who include historians, art historians, curators, museum professionals and suffrage experts, call upon the historiographical developments of the last thirty years, alongside new archival discoveries, to showcase the vibrancy of ongoing research in this area. Throughout, chapters investigate the wider socio-cultural backdrop to suffrage and the women's movement, the difficult choices that were made between professional, artistic aspirations and political commitment, and how institutional and informal networks influenced creative expression and participation in feminist politics. From shining light on the use of portraiture to bolster the cultural cachet of the militant Women's Social and Political Union, uncovering the links between Victorian interior design, enterprise and suffrage, through to questioning the supposed conservatism of women's art institutions during the campaign and in the inter-war era, *Suffrage and the Arts* is a timely and important collection which will contribute to a number of scholarly fields.
