21 ALDGATE by Patricia Friedberg is character-driven historical fiction set in pre-WWII London's Jewish East End and fashionable Chelsea, as well as in Germany and France . It is a fictionalized story of the relationship between the artist, Paul Maze, and his young married assistant, Clara, during and after the writing of his memoir of the Great War. A feature film based on the author's screenplay of 21 Aldgate, titled "The One I Love," is presently in development by Progress Pictures, Ltd., U.K. and The Future Film Group, U.K. The target audience includes WWI and WWII history buffs, Jewish history enthusiasts, Anglophiles across the globe, and readers who enjoy a great love story. Similar to The Postmistress in tenor, 21 ALDGATE is a story of love and war that

The Essentials

Winner of the National Jewish Book Award of 1979, this classic novel of love and war is now available in ebook format for the first time! Violence shattered her golden world, and Leah's journey began. It swept her from the burning villages of old Russia to the tenements of New York, from the glittering showrooms of Paris to the settlements of war-torn Israel. It brought her marriage to a man who yearned for her sweet, denied love - and passion for a man who yearned only for danger. It gave her a son born of shame, and a daughter born to destiny. It tested her love in the shadow of the Depression and the hell of the Nazi fury. And then Leah's journey brought her home.

of age, vital functions, posture and balance, locomotion, prehension, and health and illness. This

edition includes more clinical examples and applications, and updates data relating to typical performance on standardized tests of balance. Written by physical therapy experts Donna J. Cech and Suzanne "Tink" Martin, this book provides evidence-based information and tools you need to understand functional movement and manage patients' functional skills throughout the life span. Over 200 illustrations, tables, and special features clarify developmental concepts, address clinical implications, and summarize key points relating to clinical practice. A focus on evidence-based information covers development changes across the life span and how they impact function. A logical, easy-to-read format includes 15 chapters organized into three units covering basics, body systems, and age-related functional outcomes respectively. Expanded integration of ICF (International Classification of Function) aligns learning and critical thinking with current health care models. Additional clinical examples help you apply developmental information to clinical practice. Expanded content on assessment of function now includes discussion of participation level standardized assessments and assessments of quality-of-life scales. More concise information on the normal anatomy and physiology of each body system allows a sharper focus on development changes across the lifespan and how they impact function.

Do you believe in re-births? If not, read--A Woman In Time Transit--where the same spirit of a woman is born time and again in different time and geographical zones of human history. These births had taken place among different societies. Thus the book comprises of three separate stories, each having different characters, cultures and circumstances; hence a 'trilogy'. The first birth had taken place in antiquity, when humans lived in individual groups. They were food gatherers and hunters but their lingual apparatuses were not developed, therefore there was no language. The reader would find the answer to the question; how women used to head such groups, where only brute force ruled. People could hardly pronounce 'Shuh', as they called their leader. In the second birth, the heroine was born in household of an Egyptian priest and was named Nekhebi, and whose forefathers were the initiators of moralistic laws, and she was fully trained in every discipline of priesthood by her father. Despite that, only one instance changed her all perceptions of faith. She seduces a male of her own tribe in the first instance and from there her libido drives, controlled by her Physis did not let her stop from indulging in every act there was to indulge. Nekhebi, in her mastery of manipulations forged a plan which was later on used by Pharaohs to claim themselves as spiritual leaders. In the third birth the lax spirit was born in the City State of Sparta, and continued in the similar promiscuous manner as that of her two counter-parts. In each episode characters have been developed, who would be found antithesis to the debauch spirit and those contradiction and conflicts would be enjoyable to read.

If you remember how you felt when Linus told Charlie Brown the meaning of Christmas then this book is for you. You know the story but do you really? What happened after Mary said "Yes"? How long did it take Mary and Joseph to travel from Nazareth to Bethlehem? Imagine how devastated Joseph must have felt when he was unable to find a room at the inn for the Son of God to be born? How

would you have felt? Be captivated as you travel back in time. Be inspired by the extraordinary faith of the ordinary people whom God chose to bring His most precious gift to mankind. These were real people with real lives, with real emotions. They were no different than you and me.

MRI of the Male Pelvis, An Issue of Magnetic Resonance Imaging Clinics of North America,

From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist “missed connection” post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn’t stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn’t see you again until a month ago. It was a Wednesday. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

Before We are Born

From its early days, one of the most influential forces in America has been Rock & Roll. Born in the late 1940's, Rock and Roll's popularity rapidly grew among the younger generation. In the 1950's, Elvis Presley exploded on the national scene. At the same time, Black singers like Ray Charles, Little Richard and Chuck Berry were gaining in popularity. Rock and Roll was on the way to changing America's culture. In the early 1960's The Beatles led the British Invasion and changed the world. Music merged with politics and nothing's been the same.

A Woman in Time Transit

This is the story of three women that I was privileged to know and love and will continue to love, probably till I die. I couldn't write "Dear Diary," men don't keep diaries. And "Dear Journal" sounds stupid, so I'll just tell you the story from the notes and scraps of paper I scribbled during the most interesting times. Reading it now, I don't even believe that we did some of these more ridiculous things, and I was there. My one regret, is that I had to lose one beautiful, wonderful

woman to find another, but the blessing of the children lives on. I smile every day about some strange or funny incident long past. Until I wrote this, I'm sure the kids all thought I was crazy. As they would walk by, I could hear them say, "Look at him, he's doing it again." Most men are lucky to find, and love, and be loved by one jewel of a woman in their life, and rightly so. I found three. All three knew me better than I knew myself. They all knew what I thought before I thought it, what I wanted before I wanted it, and fortunately for me they acted on their thoughts. Woman is the most wonderful gift man has ever received, including life. Life without a woman is a drab, colorless existence. Man can plod through life and achieve many things, but why, if not to share it with that most wonderful of all creatures, woman. With the right woman in your life, the birds sing for you, roses bloom and their fragrance lifts your thoughts of love and carries them to that one special woman who gently receives and nourishes them, only to give them back to you tenfold. What is the perfect woman? Her presence lights up the room you are in when she enters, her voice turns on your brain with a pleasant pat, her figure stirs the lion within you every time you gaze upon her. Her smile tells you that everything's alright and assures you that her love for you is still burning bright. Her love envelopes you and warms you like a giant hand-made quilt wrapped around you. This, then, describes these women in the story I am about to tell you. I hope you can be as fortunate.
