“Bill Foege takes us inside the world's greatest public health triumph: the eradication of smallpox. It's a story of true determination, passion and courage. The story of smallpox should encourage all of us to continue the critical work of worldwide disease eradication.”--Bill Gates, Co-Chair of the Bill & Melinda Gates Foundation “Bill Foege is one of the public health giants of our times. He was responsible for the design of the campaign that eradicated smallpox—the most important global health achievement in history and possibly the greatest feat in any field of international cooperation. His insights into the nature of this major event will undoubtedly help to meet the global health challenges of the 21st century.”—Julio Frenk, M.D, PhD, Dean, Harvard School of Public Health “The eradication of a disease has long been the holy grail of global health and Bill Foege found it: more than any other person, he was responsible for the eradication of smallpox from the face of the earth. This is a story told by a remarkably humble man, about the extraordinary coalition that he helped to build, and the most impressive global health accomplishment the world has ever seen.”—Mark Rosenberg, author of *Real Collaboration: What It Takes for Global Health to Succeed* “I am thrilled that Bill Foege, one of the great heroes of the smallpox eradication campaign, has written this important book. It tells a beautiful human story of an incredible public health triumph, and is full of lessons that could be applied to many of the global challenges we face today.”—Helene D. Gayle MD, President and CEO, CARE USA “Bill Foege’s *House on Fire* is the first-hand account

of how a revised strategy to eradicate smallpox was tested, validated, and applied. Without the global adoption of this new surveillance strategy, the final deathblow to this longtime global menace might never have been dealt.”—Adetokunbo O. Lucas, MD, DSc, author of *It Was The Best of Times: From Local to Global Health* “Smallpox is the most devastating disease the world has known, as it destroyed lives and shaped history over the centuries. *House on Fire* provides a day-to-day account by my friend Dr. Bill Foege of the battle required to defeat this wily and diabolic virus.”--President Jimmy Carter

Boy Scouts Handbook The First Edition 1911

Original Boy Scout Handbook is the official handbook of the Boy Scouts of America. It is a descendant of Baden-Powell's original handbook, Scouting for Boys, which has been the basis for Scout handbooks in many countries, with some variations to the text of the book depending on each country's codes and customs. The original edition of the handbook was based on Baden-Powell's work. Ernest Thompson Seton combined his Woodcraft manual, the Birch Bark Rolls, with Baden-Powell's

Scouting for Boys. Subsequent works were done by other authors. William "Green Bar Bill" Hillcourt wrote the 6th, 7th, and 9th editions. Frederick L. Hines wrote the 8th, and Robert Birkby the 10th, 11th and 12th editions. The first Official Handbook, subtitled A Handbook of Woodcraft, Scouting, and Life-craft was published from July 1910 until March 1911 and appeared in eight distinct variations. It was written by Ernest Seton and drew greatly on Baden-Powell's Scouting for Boys, it included information on the organization of Scouting, signs and signaling, and camping, as well as Scouting games and a description of several Scouting honours. Notably, this book did not place emphasis on first aid, knife and axe use, or map and compass work, as later editions would. Because this edition was intended solely as a temporary guide until an authoritative handbook could be made, it is now known as the 1910 Original Edition Handbook. At the turn of the twentieth century, smallpox claimed the lives of two million people per year. By 1979, the disease had been eradicated and victory was declared across the globe. Yet the story of smallpox remains the exception, as today a host of deadly contagions, from polio to AIDS, continue to threaten human health around the world. Spanning three centuries, *The End of Plagues* weaves together the discovery of vaccination, the birth and growth of immunology, and the fight to eradicate the world's most feared diseases. From Edward Jenner's discovery of vaccination in 1796, to the early nineteenth-century foundling voyages in which chains of orphans, vaccinated one by one, were sent to colonies around the globe, to the development of polio vaccines and the stockpiling of smallpox as a biological weapon in the Cold War, world-renown immunologist John Rhodes charts our fight against these plagues, and shows how vaccinations gave

One of the authors is a physician, one is going to become a physician, and one is a chartered accountant and CEO of a very well established medical research facility. Scout Pioneering, Good Ol' Fashioned Outdoor Fun, is filled with all the information, illustrations, and instructions a unit needs to get an effective pioneering program off the ground and flourishing. Along with the author's first-hand experience as a Scout leader who has run successful pioneering programs in his own troop and at the Philmont Training Center, it draws upon the expertise of Scouting's most revered pioneering legends. Icing on the cake are over 250 pioneering-related photos bringing the text to life and capturing real Scouts in action, along with links to over 40 BSA-recognized how-to skill videos and Scout meeting activity videos. The Scout meeting activities are one of the book's highlights. Knowing how to present these involving pioneering challenges during troop meetings produces positive outcomes that are unparalleled in their capacity to engage Scouts while making fun happen! Another highlight of the book is the colorful section on camp gadgets. An array of these impressive campsite improvements was presented in the pioneering village at the national jamboree. It was fun to observe the jamboree participants' mouths open and sense their wheels turning, as youth and adult alike inspected them closely, asked questions, and took pictures in order to share the

ideas with their troops back home. When John Thurman, camp chief at Gilwell for over twenty-five years, was asked, "Why pioneering?" His simple reply was, "To me the over-riding reason for presenting pioneering is that boys like it." Lord Baden-Powell, Scouting's founder wrote, "But there are reasons for pioneering other than the fact that boys like doing it. I am inclined to suggest to Scouters that in addition to the technical details of knotting, lashing, and anchorages, there is an educative value in pioneering since it gives elementary training in stresses, mensuration, etc., and it also develops initiative and resourcefulness. Additionally, it gives practice in team work and discipline. In other words, pioneering is practical and character building: the two essential ingredients of any program material for Scouts." A Scouting program consists of what Scouts DO! Providing a wide range of opportunities for fun, challenges, and personal growth, pioneering has all the qualities that keep Scouts involved and coming back for more. Amidst the wide spectrum of unique adventures available in Scouting, there's always an attraction to and fascination with what's termed, "old school." Pioneering is all about using timeless skills to get things done and have a great time.
