When someone died, someone that I loved, I couldn't keep pretending everything was fine. It wasn't. This privileged world he gave me wasn't privileged. There were problems. He just never told me that he created them, that he had sent me into a world he set up for me. It was all a lie, but it was lie that I was going to expose. Or I would die trying. **This is a standalone.

She provides eight sets of 'keys' that will unlock your best attention and help you balance adrenaline levels, even when you are under pressure or facing dull tasks. Rooted in sports performance psychology, yet practical and user-friendly, Palladino's cutting-edge methods will help you stay focused and enhance your performance in all areas of daily life where concentration is required.
