Herman Melville's Moby-Dick

Overnight, Reverend Hooper has taken to wearing a translucent, but dark veil. Believing the veil to be symbolic of his sin, Hooper refuses to remove it, and wears it throughout the rest of his life. Like the majority of Hawthorne's stories, "The Minister's Black Veil" is an allegorical criticism of Puritan beliefs. Hawthorne may have been inspired by clergyman Joseph Moody, who accidentally killed his friend and, in response, wore a black veil until his own death. Animal Farm

The Word is Murder

"According to Greek mythology mankind's first benefactor was the Titan, Prometheus, who gave fire, previously the exclusive possession of the gods, to mortal man." With these words the esteemed scholar Robert Bremner presents the first full-fledged history of attitudes toward charity and philanthropy. "Giving "is a perfect complement to his earlier work "The Discovery of Poverty in the United States. "The word "philanthropy "has been translated in a variety of ways: as a loving human disposition, loving kindness, love of mankind, charity, fostering mortal man, championing mankind, and helping people. Bremner's book covers all of these meanings in rich detail. Bremner describes the ancient world and classical attitudes toward giving and begging; Middle Ages and early modern times, emphasizing hospitals and patients and donors and attributes of charity; the eighteenth century and the age of benevolence; the nineteenth century and the growth of the concept of public relief and social policy; and a careful multiple chapter review of the twentieth century. Bremner reviews the act of giving in such comparative contexts as London, England and Kasrilevke, Russia with such figures as Thomas Carlyle, Charles Dickens, and Sholem Aleichem, as well as the more familiar wealthy industrialist/philanthropists, forming part of the narrative. The final chapters bring the story up to date, discussing the relationships of modern philanthropy and organized charity, and the uses of philanthropy in education and the arts. Bremner has an astonishing knowledge of the cultural context and the economic contents of philanthropy. As a result, this volume is intriguing as well as important history, written with lively style and wit. Whether the reader is a professional in the so-called "third stream" or "independent sector," or simply a citizen wondering just what the act of giving and the spirit of receiving is all about, "Giving "will be compelling reading.

****A Guardian 'Best Thriller of the Year!'** ****** The New York Times bestselling author of *Magpie Murders* and *Moriarty* brilliantly reinvents the classic crime novel once again with this clever and inventive mystery starring a fictional version of the author himself as the Watson to a modern-day Holmes, investigating a case involving buried secrets, murder, and a trail of bloody clues. A woman crosses a London street. It is just after 11am on a bright spring morning, and she is going into a funeral parlor to plan her own service. Six hours later the woman is dead, strangled with a crimson curtain cord in her own home. Enter disgraced police detective Daniel Hawthorne, a brilliant, eccentric man as quick with an insult as he is to crack a case. And Hawthorne has a partner, the celebrated novelist Anthony Horowitz, curious about the case and looking for new material. As brusque, impatient, and annoying as Hawthorne can be, Horowitz—a seasoned hand when it comes to crime stories—suspects the detective may be on to something, and is irresistibly drawn into the mystery. But as the case unfolds, Horowitz realizes he's at the center of a story he can't control . . . and that his brilliant partner may be hiding dark and mysterious secrets of his own. A masterful and tricky mystery which plays games at many levels, *The Word Is Murder* is Anthony Horowitz at his very best.

There is a certain church, in the city of New York which I have always regarded with peculiar interest on account of a marriage there solemnized under very singular circumstances in my grandmother's girlhood. That venerable lady chanced to be a spectator of the scene, and ever after made it her favorite narrative. Whether the edifice now standing on the same site be the identical one to which she referred I am not antiquarian enough to know, nor would it be worth while to correct myself, perhaps, of an agreeable error by reading the date of its erection on the tablet over the door. It is a stately church surrounded by an enclosure of the loveliest green, within which appear urns, pillars, obelisks, and other forms of monumental marble, the tributes of private affection or more splendid memorials of historic dust. With such a place, though the tumult of the city rolls beneath its tower, one would be willing to connect some legendary interest.

This book serves to feed human nature with both a religious and literary mood. It may bring the reader a little closer to an understanding of life's complexities, or it may challenge the reader's own philosophical self, as he or she discovers the unraveling of Hawthorne's. The editor of the book, which has been composed from his memory of an unknown student's work, claims to have unearthed a rare discovery that may unveil a mystery that has puzzled the best of minds in the literary field for many years. In the words of its author, his purpose is clear: "I have thought to publish my interpretations of Hawthorne's novel so that those critics in the field of literature, who will, may have additional cause for which to expound their intelligence, either in trying to better understand this mystery, or to salvage the old cherished ambiguities by which the public brain is presently intoxicated. If I am correct in only a few of my impressions, hopefully the main ones, we shall have to reappraise Hawthorne as a literary prophet who hoped for and predicted a future time when mankind would look more favorable upon the creation, man." Both the author and editor send the reader on a journey into the mind and heart of an American icon which have too long been misunderstood and underappreciated. He asks the reader to drink deep from the depths of his or her own intuitive awakenings, and encourages each to rediscover the man who created *The Scarlet Letter*. In so doing, one may see the vexations and conflicts in his own life as a "dark necessity" to be endured, as in the character of his beloved Hester, who

speaks to the heart of every human, and in behalf of our own human nature.

Classic novel set in 19th-century New England, and drawing on the author's own earlier experiences at the Utopian community Brook Farm. *The Blithedale Romance* is the third of the major novels of Nathaniel Hawthorne. Much of the action of the novel is set at Blithedale, a utopian socialist community that is founded upon anti-capitalist ideals, yet is destroyed by the self-interested behavior of its members.
