In this ingenious and delectable cookbook, accomplished and innovative chef Kille Enna shows readers how to use simple aromatic blends of herbs, spices, fruits, and vegetables to create unforgettable meals. With nine cook and lifestyle books to her name, Kille Enna has become an icon of simple organic elegance. In this cookbook she distills the lessons she's learned from a life devoted to spices and herbs into timeless recipes that anyone can make. Enna's message is straightforward: the tastiest most flavor-packed meals include fresh, high-quality ingredients, prepared simply by adding aromatic blends. Here she offers fifty recipes, each featuring a key ingredient combined with an aromatic blend of spices, herbs, fruits, and vegetables. Inspired by the harvest from her own organic garden in southern Sweden, this book's recipes range from the crisp, cool offerings of winter to the sultry, sensuous heat of summer. Using ingredients that are in season and widely available, Enna shows how combinations of spices and herbs can transform everyday foods into refined meals. In between recipes, Enna offers in-depth tips on everything from cast iron skillets to edible flowers. Bathed in the colorful radiance of Enna's own photography and infused with her lifelong passion for nature and simple living, this is a cookbook that will appeal to the senses and that will remain an essential reference in kitchens everywhere.

"I Love Regular, Bold, Condensed, Extended and everything in between." shows you a glimpse of the future of typographic design. On the 16th of September 2016, Adobe, Google, Apple and Microsoft announced a new update to the OpenType specification, allowing fonts to be variable. Even though the technology is not yet fully implemented, the idea of variable

typographic design seems to be already an unstoppable force in contemporary graphic design. Variable typography allows to use a wide range of styles. It has extreme condensed, extended, light or heavy weights and interpolates everything in between. The designers modify existing typefaces or create new ones. They experiment with any imaginable combinations of styles. Even though the variable font technology might not even be used, the typography of our time is already variable. The question that remains is, will weights such as regular, bold, condensed and extended continue to exist or will fonts be completely variable. This book wants to explore this question and capture the excitingly eclectic world of typography. The golden age of typography is now.

Green with envy. Feeling blue. White lies. Grey areas. In every language spoken on earth human beings use colors to express themselves. World renowned author, Vladimir Nabokov*, claimed he could hear color and actually assigned a color to each letter of the alphabet based on each letter's particular sound. The Eskimos of the polar regions have countless words that uniquely describe the color white. In the world of graphics some designers have devoted their entire body of work to one color, sometimes showing it off in all of its full-bodied glory, sometimes stripping it back to its barest essentials. Colour Mania brings together an eclectic group of talented designers who have one thing in common: they are artists who simply can't get enough of one particular color be that red, orange, yellow, green, blue, purple, black or white. This book offers a depth of understanding of individual colors that is unprecedented.

Bonjour Paris

A world without plants is a world without life, both literally and figuratively. Besides forming the very basis of human survival on Earth, they are also an important source of creative inspiration, ingenuity, and expression. From scientific explorers like Sir Joseph Banks who travelled across the globe in search of never-seen before species to impressionist painters like Édouard Manet who sought to capture the subtle beauty of everyday objects, many artists and illustrators have used flora as a powerful means to convey the essence of our very existence. Botanical Inspiration is a timeless collection of artwork and illustrations that feature flora and its many facets through a variety of visual concepts, styles, and techniques. It speaks to lovers of both nature and creativity as a universal language in itself, thoughtfully interpreted by some of today's most intriguing and interesting talents.

A visual history of counterculture music T-shirts, spanning the defining era of indie music. Ripped is the first book to document the shirts of the post-punk and indie period, after the submission of 1960s rock 'n' roll to mass popularity and before the onset of ironic consumerism. Carefully selected from the archives of vintage fashion collector Cesar Padilla, the 200 T-shirts in this book are classic examples of rare and extremely limited shirts created by and for the very bands who embodied the true essence of the DIY and indie movements—from The Ramones to Sonic Youth, John Cale, Talking Heads, Madonna, X, Pil, The Germs, and many others. Each shirt has been photographed in all its gritty, sweat-stained glory just as it was found—on the street, in a thrift store, or inherited from a friend. Introduced by Lydia Lunch, the book includes recollections and ruminations from musicians, fashion designers, and pop culture personalities on the enigmatic and enduring appeal of the rock band T-shirt.

The Best-Kept Boy in the World is the first book ever written about Denham (Denny) Fouts (1914-1948), the twentieth century's most famous male prostitute. He was a socialite and muse whose extraordinary life started off humbly in Jacksonville, Florida. But in short order he befriended (and bedded) the rich and celebrated and in the process conquered the world. No less an august figure than the young Gore Vidal was enchanted by Denny's special charms. He twice modeled characters on Denny in his fiction, saying it was a pity that Denny never wrote a memoir. To Vidal he was "un homme fatal." Truman Capote, who devoted a third of *Answered Prayers* to Denny's life story, found that "to watch him walk into a room was an experience. He was beyond being good-looking; he was the single most charming-looking person I've ever seen." Writer Christopher Isherwood, who Denny considered his best friend, was more to the point: he called him "the most expensive male prostitute in the world." He thus served as the source for the character Paul in Isherwood's novel *Down There on a Visit* and appears as himself frequently in his published diaries. But Denny's conquests were not limited to the US alone. Somerset Maugham in England has Denny in his celebrated novel *The Razor's Edge*. To King Paul of Greece he was "my dear Denham" or "Darling Denham," and the King's telegrams to Denny from the Royal Palace always were signed "love, Paul." Peter Watson, the wealthy financial backer of the popular British literary magazine *Horizon*, had an erection whenever he was in the same room with Denny. The artist Michael Wishart met Denny for the first time at a party in Paris and realized instantly he was in love and that "the only place in the world I wanted to be was in Denham's bedroom." And Lord Tredegar, one of the largest landowners in Great Britain, saw Denny being led by the police through the lobby of an expensive hotel in Capri, convinced the police to let him pay the bills Denny owed, and then took Denny to accompany him and his wife as they continued on their tour of the world. It was because of lofty connections such as these that Capote echoed Isherwood's remark by quipping that Denny was the "best-kept boy in the world," thereby coming up with the title of the chapter in *Answered Prayers* about Denny. In his short life, Denny achieved a mythic status, and this book follows him into his rarified world of barons and shipping tycoons, lords, princes, heirs of great fortunes, artists, and authors. Here is the story of an American original, a story with an amazing cast of unforgettable characters and extraordinary settings, the book Gore Vidal wished Denny had written.
