Wenn du Gedanken kontrollierst, kann nur dein Herz dir zum Verhängnis werden. Vor acht Monaten hat Kira Moore einer Welt von Gedankenlesern offenbart, dass es mitten unter ihnen auch Mindjacker wie sie gibt, die die Gedanken anderer Menschen kontrollieren können. Jetzt fragt sie sich, ob es wirklich die richtige Entscheidung war, die Wahrheit öffentlich zu machen. Während sich wilde Gerüchte verbreiten, nutzt ein mächtiger Anti-Jacker Politiker die Angst der Gedankenleser aus, um die Rechte der Jacker zu beschneiden. Während manche von ihnen nach Jackertown fliehen - einem Slum voller Jacker, die ihre Fähigkeiten gegen Bares eintauschen - verstecken sich Kira und ihre Familie vor den Lesern, die sie fürchten, und den Jackern, die sie hassen. Doch nachdem das Mitglied eines Jacker-Clans Kiras Freund Raf in ihren Armen zusammenbrechen lässt, hat Kira keine Wahl mehr. Sie ist gezwungen, die Menschen, die sie am meisten liebt, zu retten, indem sie sich dem stellt, das sie am meisten fürchtet: FBI Agent Kestrel und seiner experimentellen Folterkammer für Jacker. Ihre Lehrer gaben meistens vor, nichts davon mitzubekommen und beschlagnahmten ihre Arbeiten nur ein paar Mal. Sie ging einer Reihe von Ingenieursstudiengängen nach (Luft- und Raumfahrt, Maschinenbau, Umwelttechnik) und arbeitete in einer Menge von Streber-Jobs, unter anderem bei GE Aircraft Engines, der NASA und NCAR. Jetzt wo sie Bücher schreibt, steht auf ihrer Visitenkarte "Autorin und Raketenwissenschaftlerin" und sie muss ihre Arbeiten nicht länger heimlich weiterschmuggeln. Was wirklich schade ist. All diese Ingenieurwissenschaften sind von Nutzen, wenn man sich paranormale Fähigkeiten in futuristischen Welten ausdenkt, oder Wissenschaft mit Fantasie mischt, um einigermaßen glaubwürdige Erfindungen zu erschaffen. Nur für ihre Geschichten natürlich. Ignoriert den Kram in ihrem Keller. Susan schreibt in einem Vorort von Chicago, wo sie mit ihren drei Jungs, zwei Katzen und einem Ehemann lebt. Was, wie sich

A Man in Full

****UPDATED SECOND EDITION**** This book is for every author who's thinking about indie publishing, or has already taken the leap, and wonders why no one told them about the sharks, the life-sucking social media quicksand, or the best way to avoid sales-checking, yellow-spotted fever. This is a guide for the heart as much as the head. And because I promised myself that I wouldn't write a book about how I made a gazillion dollars publishing ebooks, I would write about the fear: owning it, overcoming it, facing it. From a person who didn't pursue a creative life for a long time, and then discovered creativity can set you free. Note: gazillion is a technical term, which in this case means something less than a million and more than the average income in my state. The Guide is intended to take a first-time-publishing author from those first tentative steps, through the leap, and into the great adventure of indie publishing. Already-published authors who want to jump-start lagging sales or launch a new series will also benefit from nuts-and-bolts marketing advice as well as inspiration for the long-haul of their publishing journey. Susan Kaye Quinn is the author of the Singularity Series, the Mindjack Trilogy and the Debt Collector serial (as well as other speculative fiction works) and has been indie publishing since 2011. She's not an indie rockstar or a breakout success: she's one of thousands of solidly midlist indie authors making a living with their works. This book is based on her experience in self-publishing fiction-the First Edition was published in 2013, the Second Edition in 2015, updated to account for changes in the industry. It's a guide to help her fellow writer-friends take their own leaps into the wild (and wonderful) world of indie publishing and not only survive, but thrive. Coming Soon: For Love or Money: Crafting An Indie Author Career The Indie Author Survival Guide is designed to take a first-time-publishing author through the publication of their first indie book. For Love or Money looks at parlaying that first book into a career. TESTIMONIALS FOR THE GUIDE "I recently became an indie author. I was lucky enough to find this book at just the right time, and it became my bible. It's still the most useful how-to book on my writing shelf!" - Garrett Davis,

author of Port Starbird "Indie publishing can be a jungle. Susan provides you with a map, a compass, and best of all, a machete to get through the tangles. Not only educational, it's inspirational and my go-to book whenever I feel lost." - Annetta Ribken, author of Still Not Nice or the Strange Planet Inside My Head "I regularly recommend this book to people who want to break into indie. Great advice, great community." - Kim Wells, author of Mariposa "I recommend The Indie Author Survival Guide to anyone who wants to enter self-publishing with a solid foundation. I discovered it a few years after I began my series and still learned a lot from it." - Patricia Gilliam, author of The Hannaria Series

Open Minds (Mindjack: Kira Book One)

What would you give to live forever? Elijah Brighton wants to become an ascender—a post-Singularity human/machine hybrid—after all, they're smarter, more enlightened, more compassionate, and above all, achingly beautiful. But Eli is a legacy human, preserved and cherished for his unaltered genetic code, just like the rainforest he paints. When a fugue state possesses him and creates great art, Eli miraculously lands a sponsor for the creative Olympics. If he could just master the fugue, he could take the gold and win the right to ascend, bringing everything he's yearned for within reach... including his beautiful ascender patron. But once Eli arrives at the Games, he finds the ascenders are playing games of their own. Everything he knows about the ascenders and the legacies they keep starts to unravel... until he's running for his life and wondering who he truly is. The Legacy Human is the first in a philosophical HopePunk sci-fi series that explores the intersection of mind, body, and soul in a post-Singularity world. First Daughter (The Royals of Dharia, Book Three)

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education, intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking Secrets of the Millionaire Mind, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The

good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

The Erotic Mind

A new vision of knights, dragons, and the fair maiden caught in between . . . Four decades of peace have done little to ease the mistrust between humans and dragons in the kingdom of Goredd. Folding themselves into human shape, dragons attend court as ambassadors, and lend their rational, mathematical minds to universities as scholars and teachers. As the treaty's anniversary draws near, however, tensions are high. Seraphina has reason to fear both sides. An unusually gifted musician, she joins the court just as a member of the royal family is murdered. While a sinister plot to destroy the peace is uncovered, Seraphina struggles to protect the secret behind her musical gift, one so terrible that its discovery could mean her very life. Seraphina's tortuous journey to self-acceptance will make a magical, indelible impression on its readers.

Faery Swap

In *No Beginning, No End*, Zen master Jakusho Kwong-roshi shows us how to treasure the ordinary activities of our daily lives through an understanding of simple Buddhist practices and ideas. The author's spontaneous, poetic, and pragmatic teachings—so reminiscent of his spiritual predecessor Shunryu Suzuki (*Zen Mind, Beginner's Mind*)—transport us on an exciting journey into the very heart of Zen and its meaningful traditions. Because Kwong-roshi can transmit the most intimate thing in the most accessible way, we learn how to ignite our own vitality, wisdom, and compassion and awaken a feeling of intimacy with the world. It is like having a conversation with our deepest and wisest self. Jakusho Kwong-roshi was originally inspired to study Zen because of zenga, the ancient art of Zen calligraphy. Throughout this book he combines examples of his own unique style of calligraphy, with less-known stories from the Zen tradition, personal anecdotes—including moving and humorous stories of his training with Suzuki-roshi—and his own lucid and inspiring teachings. All of this comes together to create an intimate expression of the enlightening world of Zen.

Locked Tight (Mindjack: Zeph Book One)

Jack Freedman's heart gave out on New Year's Eve 2016, when he was in his mid-forties. But he'd had problems long before then. Born with a slightly defective heart valve, Jack was told he might need surgery by the time he was 60 years old. But when he was hospitalized for a severely fractured leg at age 27, a doctor callously informed him that he'd need open heart surgery in just a few years. Terrified of his "heart thing," he began a wild roller coaster ride between denial, fueled by massive amounts of Xanax and alcohol, and fear-filled cardiology appointments and invasive tests. A brilliant mind, Jack's career as an entertainment lawyer suddenly seemed too confining, so he became a flight attendant for American Airlines. Of course. Now he could jet to his beloved Paris for a weekend, or even for a day. He could party across three continents. And wherever he went, he wrote-in his journals, on a restaurant napkin, on any scrap of available paper. He planned to write a book, and had put together a manuscript during the last years of his life. His delight in words, his fantastic sense of humor, and his gay "fabulousness" permeate the book, as does his love of family, friends, and lovers. A heart can break in so many ways. Cry, and laugh, with Jack on his journey through his "heart thing."

Flood Rising

Warrior faery princes can be very stubborn. Especially when they possess your body. Fourteen-year-old Finn just wants to keep his little sister out of Child Protective Services—an epic challenge with their parentally-missing-in-action dad moving them to England, near the famous Stonehenge rocks. Warrior faery Prince Zaneyr just wants to escape his father's reckless plan to repair the Rift—a catastrophe that ripped the faery realm from Earth 4,000 years ago and set it adrift in an alternate, timeless dimension. When Zaneyr tricks Finn into swapping places, Finn becomes a bodiless soul stuck in the Otherworld, fighting spriggans with sharp teeth and rival faery Houses. Back on Earth, Zaneyr uses Finn's body to fight off his father's seekers and keep the king's greatest weapon—himself—out of his hands. Between them, they have two souls and only one body... and both worlds to save before the dimensional window between them slams shut. When your mind is a weapon, freedom comes at a price. Four months have passed since Kira left home to join Julian's Jacker Freedom Alliance, but the hole in her heart still whistles empty where her boyfriend Raf used to be. She fills it with weapons training, JFA patrols, and an obsessive hunt for FBI agent Kestrel, ignoring Julian's worries about her safety and repeated attempts to recruit her for his revolutionary chat-casts. When anti-jacker politician Vellus surrounds Jackertown with the National Guard, Kira discovers there's more to Julian's concerns than she knew, but she's forced to take on a mission that neither want and that might be her last: assassinating Senator Vellus before he can snuff out Julian's revolution and the jackers she's come to love. The Coral Island

The first trade paperback edition of the New York Times best-seller about West Point's Class of 1966, by Pulitzer Prize-winning journalist Rick Atkinson. This is the story of the twenty-five-year adventure of the generation of officers who fought in Vietnam. With novelistic detail, Atkinson tells the story of West Point's Class of 1966 primarily through the experiences of three classmates and the women they loved--from the boisterous cadet years and youthful romances to the fires of Vietnam, where dozens of their classmates died and hundreds more grew disillusioned, to the hard peace and family adjustments that followed. The rich cast of characters includes Douglas MacArthur, William Westmoreland, and a score of other memorable figures. The West Point Class of 1966 straddled a fault line in American history, and Rick Atkinson's masterly book speaks for a generation of American men and women about innocence, patriotism, and the price we pay for our dreams.

Cracked Open (Mindjack: Zeph Book Two)

Big men. Big money. Big games. Big libidos. Big trouble. A decade ago, *The Bonfire of the Vanities* defined an era--and established Tom Wolfe as our prime fictional chronicler of America at its most outrageous and alive. This time the setting is Atlanta, Georgia--a racially mixed late-century boomtown full of fresh wealth, avid speculators, and worldly-wise politicians. The protagonist is Charles Croker, once a college football star, now a late-middle-aged Atlanta real-estate entrepreneur turned conglomerate king, whose expansionist ambitions and outsize ego have at last hit up against reality. Charlie has a 28,000-acre quail-shooting plantation, a young and demanding second wife--and a half-empty office tower with a staggering load of debt. When star running back Fareek Fanon--the pride of one of Atlanta's grimmest slums--is accused of raping an Atlanta blueblood's daughter, the city's delicate racial balance is shattered overnight. Networks of illegal Asian immigrants crisscrossing the continent, daily life behind bars, shady real-estate syndicates, cast-off first wives of the corporate elite, the racially charged politics of college sports--Wolfe shows us the disparate worlds of contemporary America with all the verve, wit, and insight that have made him our most phenomenal, most admired contemporary novelist. *A Man in Full* is a 1998 National Book Award Finalist for Fiction.

Mindjack Short Story Collection

When mindreaders run the world, being a jacker makes you a weapon. Zeph can break open the toughest minds—or lock the weakest—which only means every

Clan leader wants to own him. He did as he was told, kept his head down, and tried to shut out the screams. But when they came after his family, he hugged his kid sister goodbye and ran away to keep them safe. For two years, he's passed as a reader. Then his family disappears, readers start changing into super jackers, and Zeph is forced to return to a city filled with jackers who hate him. To find his family, he must trick a mindware CEO into helping him, avoid a girl who knows him too well, and spy on the most powerful jacker in the state. All without dying or revealing his abilities—or being caught in the firestorm of hate between jackers and readers that's threatening to pull the world apart. The bestselling Mindjack Series continues with an all new character and a world of mindreaders and mindjackers as you've never seen it before.
