Kathy is a writer. Kathy is getting married. It's the summer of 2017 and the whole world is falling apart. From a Tuscan hotel for the super-rich to a Brexit-paralysed UK, Kathy spends the first summer of her 40s trying to adjust to making a lifelong commitment just as Trump is tweeting the world into nuclear war. But it's not only Kathy who's changing. Political, social and natural landscapes are all in peril. Fascism is on the rise, truth is dead, the planet is hotting up. Is it really worth learning to love when the end of the world is nigh? And how do you make art, let alone a life, when one rogue tweet could end it all. Olivia Laing radically rewires the novel in a brilliant, funny and emphatically raw account of love in the apocalypse. A Goodbye to Berlin for the 21st century, Crudo charts in real time what it was like to live and love in the horrifying summer of 2017, from the perspective of a commitment-phobic peripatetic artist who may or may not be Kathy Acker . . .

Spices are the fastest, easiest way to transform a dish from good to spectacular. In his new book, Lior Lev Sercarz, the country's most sought-after spice expert, shows you how to master flavor in 250 inspiring recipes, each counting on spices to elevate this collection of everyday and new favorites. NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW Spices are the magic ingredient in Lior Lev Sercarz's newest book, Mastering Spice, and all it takes is a pinch to bring your meatballs, roast chicken, or brownies to the next level. Owner of New York City spice shop La Boîte, and a professionally trained chef who has cooked at some of the world's most renown restaurants, Lior's simple and straightforward approach showcases how spices and spice blends can take a recipe for chicken soup, meatballs, or brownies into a whole new and exciting direction. Every section begins with a master recipe and technique--then Lior teaches readers how to change the spices or some of the ingredients to get a profoundly different dish than what you began with. By mastering the techniques and playing with the variations, you'll learn how to use spices to become a more creative and intuitive cook, and how spices can endlessly heighten your eating experience.

Funny Weather: Art in an Emergency

A New York Times Notable, Washington Post, NPR, Guardian, and Bustle Best Book of 2018 A brilliant, funny, and emphatically raw novel of love on the brink of the apocalypse, from the acclaimed author of The Lonely City. "She had no idea what to do with love, she experienced it as invasion, as the prelude to loss and pain, she really didn't have a clue." Kathy is a writer. Kathy is getting married. It's the summer of 2017 and the whole world is falling apart. Fast-paced and frantic, Crudo unfolds in real time from the full-throttle perspective of a commitment-phobic artist who may or may not be Kathy Acker. From a Tuscan hotel for the superrich to a Brexit-paralyzed United Kingdom, Kathy spends the first summer of her forties

adjusting to the idea of a lifelong commitment. But it's not only Kathy who's changing. Fascism is on the rise, truth is dead, the planet is heating up, and Trump is tweeting the world ever-closer to nuclear war. How do you make art, let alone a life, when one rogue tweet could end it all? In *Crudo*, her first work of fiction, Olivia Laing radically rewires the novel with a fierce, compassionate account of learning to love when the end of the world seems near.

Producción de biodiésel a partir de aceite crudo de palma

The Black Death. Cholera. Spanish flu. Swine flu. HIV/AIDS. COVID-19/SARS-CoV-2. Each of these pandemics has made (or, is making) a lasting impact on humanity. From the immediate mental image of the beaked masks worn in the Middle Ages (bubonic plague) and the birth of epidemiology (cholera) to recognizing the benefits of social distancing (1918 flu) and the harm of prejudice and misinformation (HIV/AIDS), pandemics have shown us how to survive infectious disease, as long as we heed their lessons. *Preparing for Pandemics in the Modern World*, edited by Christine Crudo Blackburn, brings together experts on pandemic preparedness and biosecurity to explore areas of weakness in pandemic prevention, preparedness, detection, and response. Even as COVID-19 makes its way around the world, leaders and policymakers are tasked with thinking ahead and preparing to effectively respond to the next such event—which experience shows us to be a matter of “when,” not “if.” Inside, chapters are divided into sections on the lessons learned from the 1918 influenza pandemic, the application of the One Health concept, and the role of the private sector in responding to potentially devastating disease outbreaks. A chapter on the impacts of supply chain disruption—in light of COVID-19—and an epilogue that discusses the current outbreak make *Preparing for Pandemics in the Modern World* a timely and accessibly written compilation on pandemic prevention, preparedness, detection, and response.

PARASITES AND PARASITIC DISEASES OF SWINE IN PUERTO RICO

It can be intimidating to shop for seafood. You wonder if it's healthy for you, you worry about whether it's overfished and whether it's caught in ways that harm other species or the environment. Making smart seafood choices has never been more confusing or more important for the planet and our health. Chef and seafood advocate Becky Selengut knows from good fish, and in a voice that's informed but down-to-earth, she untangles the morass surrounding seafood today. From shellfish to finfish to littlefish, fifteen good fish are featured, and the accompanying seventy-five recipes will appeal to a wide range of home cooks: from beginners, to busy parents trying to put a healthy weeknight meal on the table, to the more adventurous who want to create special-occasion dishes. *Sommelier* April Pogue

provides wine pairings for each recipe. Good Fish is an invaluable resource for anyone living on the Pacific Coast. Chef Becky Selengut is an advocate for seafood sustainability and seasonal, regional cuisine. Her writing has been featured in Seattle Homes and Lifestyles and Edible Seattle magazines. She lives in Seattle.

Poverty and Neglected Tropical Diseases in the American Rural South

An author's walk "from source to sea along the Ouse in Sussex is a meandering, meditative delight" drawing on history, literature, and the river itself (The Guardian, UK). In *To The River*, author Olivia Laing embarks on a weeklong, midsummer odyssey along the banks of the River Ouse in Sussex, England, from its source near Haywards Heath to the sea, where it empties into the Channel at Newhaven. More than sixty years after Virginia Woolf drowned herself in the River Ouse, Laing still finds inspiration and guidance in the author's abiding presence. Through cow pastures, woods, and neighborhood streets, Laing's meandering walk occasions a profound and haunting reflection on histories both personal and cultural, and on landscapes both physical and emotional. Along the way, she explores the roles that rivers play in human lives, tracing their intricate flow through literature, mythology and folklore. Lyrical and stirring, *To the River* is a passionate investigation into how history resides in a landscape - and how ghosts never quite leave the places they love. "Magical...By turns lyrical, melancholic and exultant, *To the River* just makes you want to follow Olivia Laing all the way to the sea."—Daily Telegraph, UK

"I read *Stubborn Archivist* in a ravenous gulp. It's stunning: so articulate about what it means to live between two languages and countries, tenderly unraveling the knots of unbelonging." —Olivia Laing, author of *The Lonely City* and *Crudo* For fans of *Chemistry* and *Normal People*: A mesmerizing and witty debut novel about a young woman growing up between two disparate cultures, and the singular identity she finds along the way But where are you really from? When your mother considers another country home, it's hard to know where you belong. When the people you live among can't pronounce your name, it's hard to know exactly who you are. And when your body no longer feels like your own, it's hard to understand your place in the world. In *Stubborn Archivist*, a young British Brazilian woman from South London navigates growing up between two cultures and into a fuller understanding of her body, relying on signposts such as history, family

conversation, and the eyes of the women who have shaped her—her mother, grandmother, and aunt. Our stubborn archivist takes us through first love and loss, losing and finding home, trauma and healing, and various awakenings of sexuality and identity. Shot through the novel are the narrator's trips to Brazil, sometimes alone, often with family, where she accesses a different side of herself—one, she begins to realize, that is as much of who she is as anything else. A hypnotic and bold debut, *Stubborn Archivist* is as singular as its narrator; a novel you won't soon forget.

De antimonio crudo ejusque usu interno salutifero; praes. Joanne Friderico Fürstenau

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The *Lonely City* is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, *The Lonely City* is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

It makes things visible. Ali Smith's shapeshifting Winter casts a warm, wise, merry and uncompromising eye over a post-truth era in a story rooted in history and memory and with a taproot deep in the evergreens, art and love.

In Poverty and Neglected Tropical Diseases in the American Rural South, Christine Crudo Blackburn and Macey T. Lively study regions of the United States rarely acknowledged by the average American. These are regions of extreme poverty in the rural American South where a mixture of historical discrimination, structural discrimination, lack of opportunities, and decaying infrastructure conspire to create an environment conducive to chronic, debilitating diseases known as Neglected Tropical Diseases (NTDs). Blackburn and Lively explore the conditions that allow NTDs to thrive in a wealthy nation like the United States when such diseases are typically associated with the poorest communities in Africa, Asia, and South America. Poverty and Neglected Tropical Diseases pulls back the curtain on the reality of poverty and disease in America and tell the story of failing sanitation infrastructure, the lack of clean water, the inability to access healthcare, and the lack of financial security through the eyes of those living it every day.

To the River

The Mexican Review

"One of the finest writers of the new nonfiction" (Harper's Bazaar) explores the role of art in our tumultuous modern era. In this remarkable, inspiring collection of essays, acclaimed writer and critic Olivia Laing makes a brilliant case for why art matters, especially in the turbulent political weather of the twenty-first century. Funny Weather brings together a career's worth of Laing's writing about art and culture, examining their role in our political and emotional lives. She profiles Jean-Michel Basquiat and Georgia O'Keeffe, reads Maggie Nelson and Sally Rooney, writes love letters to David Bowie and Freddie Mercury, and explores loneliness and technology, women and alcohol, sex and the body. With characteristic originality and compassion, she celebrates art as a force of resistance and repair, an antidote to a frightening political time. We're often told that art can't change anything. Laing argues that it can. Art changes how we see the world. It makes plain inequalities and it offers fertile new ways of living.
