From the author of the award-winning *Moth Smoke* comes a perspective on love, prejudice, and the war on terror that has never been seen in North American literature. At a café table in Lahore, a bearded Pakistani man converses with a suspicious, and possibly armed, American stranger. As dusk deepens to night, he begins the tale that has brought them to this fateful meeting. . . Changez is living an immigrant's dream of America. At the top of his class at Princeton, he is snapped up by Underwood Samson, an elite firm that specializes in the "valuation" of companies ripe for acquisition. He thrives on the energy of New York and the intensity of his work, and his infatuation with regal Erica promises entrée into Manhattan society at the same exalted level once occupied by his own family back in Lahore. For a time, it seems as though nothing will stand in the way of Changez's meteoric rise to personal and professional success. But in the wake of September 11, he finds his position in his adopted city suddenly overturned, and his budding relationship with Erica eclipsed by the reawakened ghosts of her past. And Changez's own identity is in seismic shift as well, unearthing allegiances more

"Excuse me, sir, but may I be of assistance? Ah, I see I have alarmed you. Do not be frightened by my beard: I am a lover of America. I noticed that you were looking for something; more than looking, in fact you seemed to be on a mission, and since I am both a native of this city and a speaker of your language, I thought I might offer you my services as a bridge." —from *The Reluctant Fundamentalist*

According to the Department of Labor, the average woman in 1998 was bringing home less than \$25,000 a year. For every dollar that a man makes, a woman makes between 50 and 75 cents, and that is hardly news. But what you may not know is that, quietly and steadily, the number of women making six figures or more is rapidly increasing. Currently, over fifteen million women make \$100,000 or more, and the number continues to rise at a rate faster than for men. And these women come from every industry - psychologists, dot com founders, consultants, freelance writers, and even part-timers. What makes these particular women able

to do so well in the workplace? Fueled by curiosity, Barbara Stanny, author of *Price Charming Isn't Coming: How Women Get Smart About Money* (Viking Penguin), set out to research this phenomenon. What she discovered was that, though the high-earning women she interviewed came from different backgrounds and had had greatly different work experiences, they all had certain characteristics in common. *Secrets of Six Figure Woman: Surprising Strategies of the Successful High Earners* will be a ground breaking book for high earners who want to ensure their wealth, enhance their success, and learn from others who are in the same boat. It will also offer inspiration, guidance, and motivation to those who aspire to make more.

An urgent call to free those buried alive by America's legal system, and an inspiring true story about unwavering belief in humanity—from a gifted young lawyer and important new voice in the movement to transform the system. NAMED ONE OF THE BEST BOOKS OF THE SUMMER BY USA TODAY AND NEWSWEEK • “An essential book for our time . . . Brittany K. Barnett is a star.”—Van Jones, CEO of REFORM Alliance, CNN Host, and New York Times bestselling author

Brittany K. Barnett was only a law student when she came across the case that would change her life forever—that of Sharanda Jones, single mother, business owner, and, like Brittany, Black daughter of the rural South. A victim of America's devastating war on drugs, Sharanda had been torn away from her young daughter and was serving a life sentence without parole—for a first-time drug offense. In Sharanda, Brittany saw haunting echoes of her own life, both as the daughter of a formerly incarcerated mother and as the once-girlfriend of an abusive drug dealer. As she studied this case, a system came into focus: one where widespread racial injustice forms the core of America's addiction to incarceration. Moved by Sharanda's plight, Brittany set to work to gain her freedom. This had never been the plan. Bright and ambitious, Brittany was a successful accountant on her way to a high-powered future in corporate law. But Sharanda's case opened the door to a harrowing journey through the criminal justice system. By day she moved billion-dollar deals, and by night she worked pro bono to free clients in near-hopeless legal battles. Ultimately, her path transformed her understanding of injustice in the courts, of genius languishing behind bars, and the very definition of freedom itself. Brittany's

riveting memoir is at once a coming-of-age story and a powerful evocation of what it takes to bring hope and justice to a system built to resist them both.

Taking Life Head On!

In *Teaching with Poverty in Mind: What Being Poor Does to Kids' Brains and What Schools Can Do About It*, veteran educator and brain expert Eric Jensen takes an unflinching look at how poverty hurts children, families, and communities across the United States and demonstrates how schools can improve the academic achievement and life readiness of economically disadvantaged students. Jensen argues that although chronic exposure to poverty can result in detrimental changes to the brain, the brain's very ability to adapt from experience means that poor children can also experience emotional, social, and academic success. A brain that is susceptible to adverse environmental effects is equally susceptible to the positive effects of rich, balanced learning environments and caring relationships that build students' resilience, self-esteem, and character. Drawing from research, experience, and real school success stories, *Teaching with Poverty in Mind* reveals

- * What poverty is and how it affects students in school;
- * What drives change both at the macro level (within schools and districts) and at the micro level (inside a student's brain);
- * Effective strategies from those who have succeeded and ways to replicate those best practices at your own school; and
- * How to engage the resources necessary to make change happen.

Too often, we talk about change

Our schools and parents teach us only a small fraction of what we need to learn in order to reach our true potential and achieve success. The rest we must learn through our own trials and tribulations. 'Street kid' John Assaraf broke free from a troubled past to create a multi-million dollar empire. In *Having it All*, Assaraf tells of his discovery that, no matter what kind of difficult circumstances someone happens to be in at any one time, he or she can achieve whatever they want in life. By combining old-world wisdom and street-smart tactics, Assaraf created the life of his dreams. He shares his method here.

The Art of Thinking Clearly

Many young people today yearn to make a positive difference in the world—and not just when they're grown up. Presented with an opportunity and support, they have the ability to do that. Alexander the Great, Joan of Arc, Mary Shelley, (author of *Frankenstein*) and Louis Braille (who created the Braille system), all made a major contribution to society before they were out of their teens. Although young people are idealistic, they have a sincere desire to help those less fortunate than

Online Library Dream Achievers 50 Powerful Stories Of People Just Like You Who Became Leaders In Network Marketing Personal Development Series

they are in the world. However, the disheartening message that society sends them is, “Not yet; you’re too young to do anything important right now.” The 15 stories of young people from around the world described in *Young Enough to Change the World* are proof that this message is wrong. Each of these kids and teenagers has made a positive difference in the lives of others. Moreover, most of the projects are still going strong. As you will see, many of the heroes and heroines in this book began with a dream that grew and gained momentum and support in spite of a small beginning. It is remarkable what inspired youngsters and adolescents are capable of accomplishing. The key to their success has been their heartfelt passion and determination. There are genuine heroes of substance in every society often flying under the radar of media exposure, and not a few of them, as the stories in this book demonstrate, are young people whose commitment to helping others is awe inspiring. Fortunately, that commitment bodes well for the future of humanity. The young people whose philanthropic work is recorded here certainly possess the qualities of heroes—empathy, self-sacrifice, service, persistence, perseverance and commitment. These young heroes are not content to battle singlehandedly the misfortune and sorrow they see around them. They want an army of courageous young people, as determined as they are, to join them in the work of eliminating human suffering and hardship. They want many others, the young as well as the old, to work with them to make the effort required to bring about a healthier, more peaceful, more equitable world for all of us. Are you ready to join them?
