How To Win Friends And Influence People

New York Times Bestseller A story of patients and staff, family, and friends who are part of a heart clinic in a community caught between the old Ireland and the new. Dr. Clara Casey has been offered the thankless job of establishing the underfunded clinic and agrees to take it on for a year. She has plenty on her plate already—two difficult adult daughters and the unwanted attentions of her ex-husband—but she assembles a wonderfully diverse staff devoted to helping their demanding, often difficult patients. Before long the clinic is established as an essential part of the community, and Clara must decide whether or not to leave a place where lives are saved, courage is rewarded, and humor and optimism triumph over greed and self-pity. "Good-hearted and entertaining. Offers many honest pleasures." —The Washington Post

Life of Jesus

The Fortress is one of the most significant and fascinating novels to come out of the former Yugoslavia. Ahmet Shabo returns home to eighteenth-century Sarajevo from the war in Russia, numbed by the death in battle or suicide of nearly his entire military unit. In time he overcomes the anguish of war, only to find that he has emerged a reflective and contemplative man in a society that does not value, and will not tolerate, the subversive implications of these qualities.

The Brain and the Meaning of Life

Heart and Soul

Describes how guardian angels are present, supporting and protecting everyone, and how they can be called upon for their help in making life happier and more fulfilling.

The Legion of the Damned

Since earliest times, humanity has pondered the incomprehensible mysteries of the universe, life and the afterlife. In *The Stairway to Heaven*, the second book of Zecharia Sitchin's *Earth Chronicles* series, the author answers these fundamental questions: Was there somewhere on Earth where, after death, mortal man could join the immortal Gods? Where was this place? By whom was it established? And does it still exist today? After years of painstaking research--combining recent archaeological discoveries with ancient texts and artifacts--Sitchin has identified the legendary Land of the Gods, and provided astounding new revelations about the Great Pyramids, the Sphinx, and other mysterious monuments whose true meanings and purposes have been lost for eons. The *Earth Chronicles* deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire *Earth Chronicles* series is now available in a hardcover collector's edition.

The Fortress

Jeremy Clarkson, shares his opinions on just about everything in *The World According to Clarkson*. Jeremy Clarkson has seen rather more of the world than most. He has, as they say, been around a bit. And as a result, he's got one or two things to tell us about how it all works - and being Jeremy Clarkson he's not about to voice them quietly, humbly and without great dollops of humour. In *The World According to Clarkson*, he reveals why it is that:

- Too much science is bad for our health
- '70s rock music is nothing to be ashamed of
- Hunting foxes while drunk and wearing night-sights is neither big nor clever
- We must work harder to get rid of cricket
- He liked the Germans (well, sometimes)

With a strong dose of common sense that is rarely, if ever, found inside the M25, Clarkson hilariously attacks the pompous, the ridiculous, the absurd and the downright idiotic, whilst also celebrating the eccentric, the clever and the sheer bloody brilliant. Less a manifesto for living and more a road map to modern life, *The World According to Clarkson* is the funniest book you'll read this year. Don't leave home without it. *The World According to Clarkson* is a hilarious collection of Jeremy's Sunday Times columns and the first in his *The World According to Clarkson* series which also includes *And Another Thing . . .*, *For Crying Out Loud!* and *How Hard Can It Be?*

Praise for Jeremy Clarkson: 'Brilliant . . . laugh-out-loud' Daily Telegraph
'Outrageously funny . . . will have you in stitches' Time Out Number-one bestseller and presenter of the hugely popular *Top Gear*, Jeremy Clarkson writes on cars, current affairs and anything else that annoys him in his sharp and funny collections. *Born To Be Riled*, *Clarkson On Cars*, *Don't Stop Me Now*, *Driven To Distraction*, *Round the Bend*, *Motorworld*, and *I Know You Got Soul* are also available as Penguin paperbacks; the Penguin App *iClarkson: The Book of Cars* can be downloaded on the App Store.

The Ringmaster's Daughter

Pure comedy, this delightful novel follows an engaging reprobate who makes good, despite himself. Ove Rolandsen, a telegraph operator in an isolated fishing village in northern Norway, is a man of sudden passion, a cheerful rogue fond of girls and alcohol. He constantly hatches ambitious schemes to the despair of his fiancée, Marie, housekeeper at the vicarage. When a plan to manufacture glue from fish-

waste lands him in trouble, is his feckless career over or could fortune, for once, be on his side?

Psalm 44

Stories on a Yugoslav boy during World War II whose father is a Jew and whose mother is Christian. The stories portray his games--one of them is playing at Jew--and the day he sees his father deported to a death camp. By the author of Hourglass.

The Meaning of Masonry

An electric novel of the extraordinary life of one of the twentieth century's most prodigious and colorful inventors Nikola Tesla was a man forever misunderstood. From his boyhood in what is present-day Croatia, where his father, a Serbian Orthodox priest, dismissed his talents, to his tumultuous years in New York City, where his heated rivalry with Thomas Edison yielded triumphs and failures, Tesla was both demonized and lionized. Tesla captures the whirlwind years of the dawn of the electrical age, when his flair for showmanship kept him in the public eye. For every successful invention—the alternating current electrical system and wireless communication among them—there were hundreds of others. But what of the man behind the image? Vladimir Pistalo reveals the inner life of a man haunted by the loss of his older brother, a man who struggled with flashes of madness and brilliance whose mistrust of institutional support led him to financial ruin. *Tesla: A Portrait with Masks* is an impassioned account of a visionary whose influence is still felt today.

The Ice Princess

The Life and Adventures of Dimitrije Obradovic

Why is life worth living? What makes actions right or wrong? What is reality and how do we know it? *The Brain and the Meaning of Life* draws on research in philosophy, psychology, and neuroscience to answer some of the most pressing questions about life's nature and value. Paul Thagard argues that evidence requires the abandonment of many traditional ideas about the soul, free will, and immortality, and shows how brain science matters for fundamental issues about reality, morality, and the meaning of life. The ongoing Brain Revolution reveals how love, work, and play provide good reasons for living. Defending the superiority of evidence-based reasoning over religious faith and philosophical thought experiments, Thagard argues that minds are brains and that reality is what science can discover. Brains come to know reality through a combination of perception and reasoning. Just as important, our brains evaluate aspects of reality through emotions that can produce both good and bad decisions. Our cognitive and emotional abilities allow us to understand reality, decide effectively, act morally, and pursue the vital needs of love, work, and play. Wisdom consists of knowing what matters, why it matters, and how to achieve it. *The Brain and the Meaning of Life* shows how brain science helps to answer questions about the nature of mind and reality, while alleviating anxiety about the difficulty of life in a vast universe. The book integrates decades of multidisciplinary research, but its clear explanations and humor make it accessible to the general reader.

Of all Danilo Kis's books, HOURGLASS, the account of the final months in one man's life before he is sent to a concentration camp, is generally considered his masterpiece. "A finely sustained, complex fictional performance. It is full of pain and rage and gusto and joy of living, at once side-splitting and a heartbreaker".--WASHINGTON POST BOOK WORLD.

The five essays contained in this book are offered in the best spirit of fraternity and goodwill and with the wish to render to the Order some small return for the profit the author has received from his association with it extending over thirty-two years. They have been written with a view to promoting the deeper understanding of the meaning of Masonry; to providing the explanation of it that one constantly hears called for and that becomes all the more necessary in view of the unprecedented increase of interest in, and membership of, the Order at the present day.

Dreamers

"A top-notch thriller, one of the best of the genre" (Minneapolis Star Tribune) from international crime-writing sensation Camilla Läckberg tells the story of brutal murders in a small Swedish fishing village, and the shattering, decades-old secrets that precipitated them. In this electrifying tale of suspense from an international crime-writing sensation, a grisly death exposes the dark heart of a Scandinavian seaside village. Erica Falck returns to her tiny, remote hometown of Fjällbacka, Sweden, after her parents' deaths only to encounter another tragedy: the suicide of her childhood best friend, Alex. It's Erica herself who finds Alex's body—suspended in a bathtub of frozen water, her wrists slashed. Erica is bewildered: Why would a beautiful woman who had it all take her own life? Teaming up with police detective Patrik Hedström, Erica begins to uncover shocking events from Alex's childhood. As one horrifying fact after another comes to light, Erica and Patrik's curiosity gives way to obsession—and their flirtation grows into uncontrollable attraction. But it's not long before one thing becomes very clear: a deadly secret is at stake, and there's someone out there who will do anything—even commit murder—to protect it. Fans of Scandinavian greats Stieg Larsson and Henning Mankell will devour Camilla Läckberg's penetrating portrait of human nature at its darkest.

The Ancient Mysteries and Modern Masonry

The publication of *Life of Jesus*, took Renan to the top of intellectual success while inciting such strong criticism that forced him to resign his chair of Hebrew at the Collège de France. In his *Life of Jesus*, Renan denies the divinity of Jesus, while exalting him as a gifted, exemplary, and spiritual human. Renan's ideas -skepticism, nationalism, colonialism, racism, and positivism- are indispensable for anyone who wants to get the truth of the historical Jesus. Faith, grace, revelation, and miracles are anathema to his brand of positivism; they only exist because "Man makes holy what he believes."

BONUS: This edition contains a *The Blue Notebook* discussion guide and an excerpt from James A. Levine's *Bingo's Run*. An unforgettable, deeply affecting debut novel, *The Blue Notebook* tells the story of Batuk, a precocious fifteen-year-old girl from rural India who is sold into sexual slavery by her father. As she navigates the grim realities of Mumbai's Common Street, Batuk manages to put pen to paper, recording her private thoughts and writing fantastic tales that help her transcend her daily existence. Beautifully crafted, surprisingly hopeful, and filled with both tragedy and humor, *The Blue Notebook* shows how even in the most difficult situations, people use storytelling to make sense of and give meaning to their lives.

The Gem Kingdom

Meetings with Remarkable Men, G. I. Gurdjieff's autobiographical account of his youth and early travels, has become something of a legend since it was first published in 1963. A compulsive "read" in the tradition of adventure narratives, but suffused with Gurdjieff's unique perspective on life, it is organized around portraits of remarkable men and women who aided Gurdjieff's search for hidden knowledge or accompanied him on his journeys in remote parts of the Near East and Central Asia. This is a book of lives, not doctrines, although readers will long value Gurdjieff's accounts of conversations with sages. *Meetings* conveys a haunting sense of what it means to live fully—with conscience, with purpose, and with heart. Among the remarkable individuals whom the reader will come to know are Gurdjieff's father (a traditional bard), a Russian prince dedicated to the search for Truth, a Christian missionary who entered a World Brotherhood deep in Asia, and a woman who escaped white slavery to become a trusted member of Gurdjieff's group of fellow seekers. Gurdjieff's account of their attitudes in the face of external challenges and in the search to understand the mysteries of life is the real substance of this classic work.

Early Sorrows

This is a tale of East and West, of Christianity and Islam and the age-old struggle between them. By focusing on the larger-than-life personalities of two Balkan men who were taken from their Serbian homeland and introduced into the Turkish Sultan's private guard, the author provides us with a harrowing insight into religion and identity. Framed within the contemporary literary landscape of Pamuk, Ginsberg and Prenz, the reader is constantly shuttled between historical fact and modern dilemma, as 'Hamam Balkania' reminds us of lessons already learned.

Hamam Balkania

From the author of SOPHIE'S WORLD, 'A masterful mixture of fantasy and reality a simply wonderful read' SHE. Panina Manina, a trapeze artist, falls and breaks her neck. As the ringmaster bends over her, he notices an amulet of amber around her neck, the same trinket he had given his own lost child, who was swept away in a torrent some sixteen years earlier. This tale is narrated by Petter, a precocious child and fantasist, and perhaps Jostein Gaarder's most intriguing character since Sophie. As an adult, Petter makes his living selling stories and ideas to professionals suffering from writer's block. But as Petter sits spinning his tales, he finds himself in a trap of his own making.

Recent history should remind us that it was events in the Balkans which sparked off the Great War, with the assassination of the Austrian heir Prince Franz Ferdinand in Sarajevo, and the consequent invasion of Serbia by Austro-Hungarian armies on 2 August 1914. Nevertheless, the subsequent four-year war in that theatre is always overshadowed by the simultaneous campaigns on the Western Front. For the first time this book offers a concise account of these complex campaigns, the organisation, orders of battle, and the uniforms and insignia of the armies involved: Austro-Hungarian, German, Ottoman, Serbian, Montenegrin,

Albanian, British, French, Italian, Russian, Bulgarian, Greek and Rumanian.

The Practice of Magical Evocation

A playful and inventive work from the bestselling author of SOPHIE'S WORLD. A box of Latin manuscripts comes to light in an Argentine flea market. An apocryphal invention by some 17th or 18th century scholar, or a transcript of what it appears to be - a hitherto unheard of letter to St Augustine to a woman he renounced for chastity? VITA BREVIS is both an entrancing human document and a fascinating insight into the life and philosophy of St. Augustine. Gaarder's interpretation of Floria's letter is as playful, inventive and questioning as SOPHIE'S WORLD.
