### **Claiming Jade**

### **The Rake**

### **Forbidden Temptation**

This book examines how sexual politics, specifically those surrounding the modernization of a consumer economy, are key to understanding the transformation of Spain from isolated dictatorship to modern state. It focuses on issues concerning modernity and the commodification of the female body under the dictatorship of Francisco Franco in the 1950s and 1960s. These two decades are critical to understanding this transformation because they coincide with the opening of markets, the freer movement of people in and out of the country through tourism and emigration, and the embracing of the "American way of life" popularized in Hollywood movies. From a gender perspective this "in between moment" in Homi Bhabha's terms, from autarchy to consumerism favored the transition from the virginal female model, prescribed by the regime, (what the author calls "True Catholic Womanhood") to a seductive modern woman that the media sold to Spanish women. This study will add a significant piece to the growing corpus of literature on the body as an essential element of analysis in gender history and in the power dynamics of culture. It will help to fill a gap in the field of Spanish Cultural Studies in general and the emerging field of cultural Spanish history in particular. The originality of this study resides in Dr. Morcillo's use of

feminist theories of the body to study archival sources of the Francoist years. Of special interest are the collections of Ministry of Culture and Administrative papers Women's Section of Falange at the Archivo General de la Administracion in Alcala de Henares. Also important are the works of intellectuals of the period, as well as health books, maternity and hygiene guides, conduct manuals, and documents produced by the Catholic Church hierarchy with regard to moral behavior and sexual mores that provide a textured analysis of gender relations under the dictatorship. The author's interest in unveiling the regime's technologies of control of ordinary Spaniards is covered through the study of the media, printed press, and the movie industry of this period particularly the so-called New Spanish Cinema inaugurated in the 1960s, illustrating how ads and films shaped and contested the regime's vision of modernity and gender roles. Through the production of dual versions of films the censorship process utilized women's cinematic bodies to present a more liberal image of Spain in the international scene. While nudity was allowed in the international versions the domestic productions continued to cut the customary kiss. The economy of desire displayed in today's Almodovar's films is already present in movies like *La Tia Tula* by Miguel Picazo (1964). This book will be essential for scholars and students interested in Ibero-American cultural studies, gender, religion, and totalitarian politics.

Written from the point of

view of an invader and reformer, this work has been rightly criticized for its portrait of a primitive land, yet it is also one of the most important sources for what is known of Ireland during the Middle Ages.

## **Forbidden Secrets**

This book is a critical biography of Grant Allen, (1848-1899), the first for a century, based on all the surviving primary sources. Born in Kingston, Ontario, into a cultured and affluent family, Allen was educated in France and England. A mysterious marriage while he was an Oxford undergraduate wrecked his academic career and radicalized his views on sexual and marital questions, as did a three-year teaching stint in Jamaica. Despite his lifelong ill health and short life, Allen was a writer of extraordinary productivity and range. About half - more than 30 books and many hundreds of articles - reflects interests which ran from Darwinian biology to cultural travel guides. His prosperity, however, was underpinned by fiction; more than 30 novels, including *The Woman Who Did*, which has attracted much recent attention from feminist critics and historians. *The Better End of Grub Street* uses Allen's career to examine the role and status of the freelance author/journalist in the late-Victorian period. Allen's career delineates what it took to succeed in this notoriously tough profession.

NEW YORK TIMES BESTSELLER • “An essential exposé of our times—a work that reveals the deep rot in our financial system . . . Everyone should read this book.”—David Grann, author of Killers of the Flower Moon ONE OF THE BEST BOOKS OF THE YEAR—The New York Times and The Economist • Finalist for the New York Public Library’s Helen Bernstein Book Award for Excellence in Journalism The hedge fund industry changed Wall Street. Its pioneers didn’t lay railroads, build factories, or invent new technologies. Rather, they made their billions through financial speculation, by placing bets in the market that turned out to be right more often than not. In hedge fund circles, Steven A. Cohen was revered as one of the greatest traders who ever lived. But that image was shattered when his fund, SAC Capital, became the target of a seven-year government investigation. Prosecutors labeled SAC a “magnet for market cheaters” whose culture encouraged the relentless pursuit of “edge”—and even “black edge,” which is inside information—and the firm was ultimately indicted and pleaded guilty to charges related to a vast insider trading scheme. Cohen, himself, however, was never charged. Black Edge is a riveting legal thriller that raises urgent questions about the power and wealth of those who sit at the pinnacle of high finance and how they have reshaped the economy. Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction and the Financial Times and McKinsey Business Book of

the Year Award “A modern version of Moby-Dick, with wiretaps rather than harpoons.”—Jennifer Senior, *The New York Times* “If you liked James B.
