Wuthering Heights

An introduction to literature and also a text for courses in composition, multicultural, or contemporary American literature.

Proserpine and Midas

Wuthering Heights is the name of Mr. Heathcliff's dwelling. Wuthering being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date 1500, and the name Hareton Earnshaw. I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here the house pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected

splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

CliffsNotes AP English Literature and Composition, 4th Edition

The best-selling student edition on the market, now available in a Second Edition. Almost two centuries after its publication, Frankenstein remains an indisputably classic text and Mary Shelley's finest work. This extensively revised Norton Critical Edition includes new texts and illustrative materials that convey the enduring global conversation about Frankenstein and its author. The text is that of the 1818 first edition, published in three volumes by Lackington, Hughes, Harding, Mavor, and Jones. It is accompanied by an expansive new preface, explanatory annotations, a map of Geneva and its environs, and seven illustrations, five of them new to the Second Edition. Context is provided in three supporting sections: "Circumstance, Influence, Composition, Revision," "Reception, Impact, Adaptation," and "Sources, Influences, Analogues." Among the Second Edition's new inclusions are historical-cultural studies by Susan Tyler Hitchcock, William St. Clair, and Elizabeth Young; Chris Baldrick on the novel's reception; and David Pirie on the novel's many film adaptations. Related excerpts from the Bible and from John Milton's Paradise Lost are now included, as is Charles Lamb's poem "The Old Familiar Faces." "Criticism" collects sixteen major interpretations of Frankenstein, nine of them new to the Second Edition. The new contributors are Peter Brooks, Bette London, Garrett Stewart, James A. W. Heffernan, Patrick Brantlinger, Jonathan Bate, Anne Mellor, Jane Goodall, and Christa Knellwolf. A Chronology and Selected Bibliography are also included.

Frankenstein

Frankenstein; or, The Modern Prometheus, generally known as Frankenstein, is a novel written by the British author Mary Shelley. The title of the novel refers to a scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In popular culture, people have tended to refer to the Creature as "Frankenstein", despite this being the name of the scientist. Frankenstein is a novel infused with some elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully realized science fiction novel.

Frankenstein

Wollstonecraft, Mary; Lamb, Mary; Wordsworth, Dorothy; Scoft, Walter.

Frankenstein (Second International Student Edition) (Norton Critical Editions)

Having given the evidence for William Shakespeare's Catholicism in two previous books, literary biographer Joseph Pearce turns his attention in this work to the Bard's most famous play, Romeo and Juliet. "Star-crossed" Romeo and Juliet are Shakespeare's most famous lovers and perhaps the most well-known lovers in literary history. Though the young pair has been held up as a romantic ideal, the play is a tragedy, ending in death. What then, asks Pearce, is Shakespeare saying about his protagonists? Are they the hapless victims of fate, or are they partly to blame for their deaths? Is their love the "real thing", or is it self-indulgent passion? And what about the adults in their lives? Did they give the young people the example and guidance that they needed? The Catholic understanding of sexual desire, and its need to be ruled by reason, is on display in Romeo and Juliet, argues Pearce. The play is not a paean to romance but a cautionary tale about the naivete and folly of youthful infatuation and the disastrous consequences of poor parenting. The well-known characters and their oft-quoted lines are rich in symbolic meaning that points us in the direction of the age-old wisdom of the Church. Although such a reading of Romeo and Juliet is countercultural in an age that glorifies the heedless and headless heart of young love, Pearce makes his case through a meticulous engagement with Shakespeare and his age and with the text of the play itself -- provided by publisher.

Opening Skinner's Box: Great Psychological Experiments of the Twentieth Century

Dracula / Bram Stoker

The best-selling student edition on the market, now available in a Second Edition. Almost two centuries after its publication, Frankenstein remains an indisputably classic text and Mary Shelley's finest work. This extensively revised Norton Critical Edition includes new texts and illustrative materials that convey the enduring global conversation about Frankenstein and its author. The text is that of the 1818 first edition, published in three volumes by Lackington, Hughes, Harding, Mavor, and Jones. It is accompanied by an expansive new preface, explanatory annotations, a map of Geneva and its environs, and seven illustrations, five of them new to the Second Edition. Context is provided in three supporting sections: "Circumstance, Influence, Composition, Revision," "Reception, Impact, Adaptation," and "Sources, Influences, Analogues." Among the Second Edition's new inclusions are historical-cultural studies by Susan Tyler Hitchcock, William St. Clair, and Elizabeth Young; Chris Baldrick on the novel's reception; and David Pirie on the novel's many film adaptations. Related excerpts from the Bible and from John Milton's *Paradise Lost* are now included, as is Charles Lamb's poem "The Old Familiar Faces." "Criticism" collects sixteen major interpretations of Frankenstein, nine of them new to the Second Edition. The new contributors are Peter Brooks, Bette London, Garrett Stewart, James A. W. Heffernan, Patrick Brantlinger, Jonathan Bate, Anne Mellor, Jane Goodall, and Christa Knellwolf. A Chronology and Selected Bibliography are also included.

Frankenstein

What did people read before there were novels? Not necessarily just other literary works, according to this fascinating study of the beginnings of the English novel. To understand the origins of the novel as a species and to read individual novels well, we must know several pasts and traditions--even non-fictional and non-narrative traditions, even non-artistic and non-written pasts--that at first might seem far removed from the pleasures readers find in modern novels.

The Turn of the Screw

"The best Darwin anthology on the market" (Stephen Jay Gould, Harvard) has just become better, in this newly revised version of the now classic Norton Critical Edition, first published in 1970.

The Inner Chapel

The Norton Critical Edition of *Pride and Prejudice* has been revised to reflect the most current scholarly approaches to Austen's most widely read novel. The text is that of the 1813 first edition, accompanied by revised and expanded explanatory annotations. This Norton Critical Edition also includes: · Biographical portraits of Austen by members of her family and, new to the Fourth Edition, those by Jon

Spence (Becoming Jane Austen) and Paula Byrne (The Real Jane Austen: A Life in Small Things). · Fourteen critical essays, eleven of them new to the Fourth Edition, reflecting the finest current scholarship. Contributors include Janet Todd, Andrew Elfenbein, Felicia Bonaparte, and Tiffany Potter, among others. · “Writers on Austen”—a new section of brief comments by Mark Twain, Virginia Woolf, Henry James, and others. · A Chronology and revised and expanded Selected Bibliography.

Frankenstein

Mary Shelley's Frankenstein is one of the most influential and controversial novels of the nineteenth century; it is also one of the most misunderstood and misinterpreted. It has been vivisected critically by latter-day Victor Frankensteins who have transformed the meanings emergent from the novel into monsters of post-modern misconception. Meanwhile Franken-feminists have turned the novel into a monster of misanthropy. Seldom has a work of fiction suffered so scandalously from the slings and arrows of outrageous criticism. This critical edition, containing tradition-oriented essays by literary scholars, refutes the errors and serves as an antidote to the poison that has contaminated the critical understanding of this classic gothic novel. The Ignatius Critical Editions represent a tradition-oriented alternative to popular textbook series such as the Norton Critical Editions or Oxford World Classics, and are designed to concentrate on traditional readings of the Classics of world literature. While many modern critical editions have succumbed to the fads of modernism and post-modernism, this series will concentrate on tradition-oriented criticism of these great works. Edited by acclaimed literary biographer, Joseph Pearce, the Ignatius Critical Editions will ensure that traditional moral readings of the works are given prominence, instead of the feminist, or deconstructionist readings that often proliferate in other series of 'critical editions'. As such, they represent a genuine extension of consumer-choice, enabling educators, students and lovers of good literature to buy editions of classic literary works without having to 'buy into' the ideologies of secular fundamentalism. The series is ideal for anyone wishing to understand great works of western civilization, enabling the modern reader to enjoy these classics in the company of some of the finest literature professors alive today. Edited by Joseph Pearce Contributors to this volume: Jo Bath Philip Nielsen Joseph Pearce Thomas W. Stanford III Aaron Urbanczyk

Occasional Form

The year 1818 saw the publication of one of the most influential science-fiction stories of all time. Frankenstein: Or, Modern Prometheus by Mary Shelley had a huge impact on gothic horror and science-fiction genres, and her creation has become part of our everyday culture, from cartoons to Hallowe'en costumes. Even the name 'Frankenstein' has become a by-word for evil scientists and dangerous experiments. How did a teenager with no formal education come up with the idea for an extraordinary novel such as Frankenstein? Clues are dotted throughout Georgian science and popular culture. The years before the book's publication saw huge advances in our understanding of the natural sciences, in areas such as electricity and physiology, for example. Sensational science demonstrations caught the imagination of the general public, while the newspapers were full of lurid tales

of murderers and resurrectionists. *Making the Monster* explores the scientific background behind Mary Shelley's book. Is there any science fact behind the science fiction? And how might a real-life Victor Frankenstein have gone about creating his monster? From tales of volcanic eruptions, artificial life and chemical revolutions, to experimental surgery, 'monsters' and electrical experiments on human cadavers, Kathryn Harkup examines the science and scientists that influenced Shelley, and inspired her most famous creation.

Frankenstein

Written when Mary Shelley was only nineteen-years old, this tale of a young scientist's desire to create life still resonates. Victor Frankenstein's monster is stitched together from the stolen limbs of the dead, and the result is a grotesque being who, rejected by his maker, sets out on a journey to seek his revenge. Shelley confronts the limitations of science, the nature of human cruelty and the pathway to forgiveness with language and imagery.

Two Among the Righteous Few

200 years after it was first published, Mary Shelley's *Frankenstein* has stood the test of time as a gothic masterpiece—a classic work of humanity and horror that blurs the line between man and monster. The story of Victor Frankenstein and the monstrous creature he created has held readers spellbound ever since it was published two centuries ago. On the surface, it is a novel of tense and steadily mounting horror; but on a more profound level, it offers searching illumination of the human condition in its portrayal of a scientist who oversteps the bounds of conscience, and of a monster brought to life in an alien world, ever more desperately attempting to escape the torture of his solitude. A novel of hallucinatory intensity, *Frankenstein* represents one of the most striking flowerings of the Romantic imagination. With an Introduction by Douglas Clegg and an Afterword by Harold Bloom.

The Frankenstein Notebooks

Test prep on the AP English Literature and Composition exam, including six model full-length AP English Literature practice exams. Fully revised, this AP English Literature test-prep guide includes up-to-date content tailored to the exam, administered every May. Features of the guide focus on what the 400,000+ AP English Literature test-takers need to score high on the exam: Strategies for answering questions in the multiple-choice section. Pride and Prejudice (Fourth Edition) (Norton Critical Editions)

Dracula and Other Horror Classics

Frankenstein (Second Edition) (Norton Critical Editions)

Includes corrected 1818 text of the novel and seven essays about the novel.

Frankenstein

Frankenstein (1831 version) by Mary Shelley - Delphi Classics (Illustrated)

The best vampire story ever written. During a business visit to Count Dracula's castle in Transylvania, a young English solicitor finds himself at the center of a series of horrifying incidents. Jonathan Harker is attacked by three phantom women, observes the Count's transformation from human to bat form, and discovers puncture wounds on his own neck that seem to have been made by teeth. Harker returns home upon his escape from Dracula's grim fortress, but a friend's strange malady -- involving sleepwalking, inexplicable blood loss, and mysterious throat wounds -- initiates a frantic vampire hunt. The popularity of Bram Stoker's 1897 horror romance is as deathless as any vampire. Its

supernatural appeal has spawned a host of film and stage adaptations, and more than a century after its initial publication, it continues to hold readers spellbound. Read it. You deserve it.

New Worlds of Literature

Mary Shelley (née Mary Wollstonecraft Godwin, often known as Mary Wollstonecraft Shelley) was a British novelist, short story writer, dramatist, essayist, biographer, travel writer, and editor of the works of her husband, Romantic poet and philosopher Percy Bysshe Shelley. She was the daughter of the political philosopher William Godwin and the writer, philosopher, and feminist Mary Wollstonecraft. Mary Shelley was taken seriously as a writer in her own lifetime, though reviewers often missed the political edge to her novels. After her death, however, she was chiefly remembered only as the wife of Percy Bysshe Shelley and as the author of *Frankenstein*. It was not until 1989, when Emily Sunstein published her prizewinning biography *Mary Shelley: Romance and Reality*, that a full-length scholarly biography analyzing all of Shelley's letters, journals, and works within their historical context was published. The well-meaning attempts of Mary Shelley's son and daughter-in-law to "Victorianise" her memory through the censoring of letters and biographical material contributed to a perception of Mary Shelley as a more conventional, less reformist figure than her works suggest. Her own timid omissions from Percy Shelley's works and her quiet avoidance of public controversy in the later years of her life added to this impression. The eclipse of Mary Shelley's reputation as a novelist and biographer meant that, until the last thirty years, most of her works remained out of print, obstructing a larger view of her achievement. She was seen as a one-novel author, if that. In recent decades, however, the republication of almost all her writings has stimulated a new recognition of its value. Her voracious reading habits and intensive study, revealed in her journals and letters and reflected in her works, is now better appreciated. Shelley's recognition of herself as an author has also been recognized; after Percy's death, she wrote about her authorial ambitions: "I think that I can maintain myself, and there is something inspiring in the idea". Scholars now consider Mary Shelley to be a major Romantic figure, significant for her literary achievement and her political voice as a woman and a liberal.

Frankenstein (Second Edition) (Norton Critical Editions)

Frankenstein; or, The Modern Prometheus is a novel written by Mary Shelley about a creature produced by an unorthodox scientific experiment. Shelley started writing the story when she was nineteen, and the novel was published when she was twenty-one. The first edition was published anonymously in London in 1818. Shelley's name appears on the second edition, published in France in 1823. The original 1818 'Uncensored' Edition of *Frankenstein* as first published anonymously in 1818. This original version is much more true to the spirit of the author's original intentions than the heavily revised 1831 edition, edited by Shelley, in part, because of pressure to make the story more conservative. Many scholars prefer the 1818 text to the more common 1831 edition. Mary Wollstonecraft Shelley (1797–1851) was an English novelist, short story writer, dramatist, essayist, biographer, and travel writer, best known for her Gothic novel *Frankenstein; or, The Modern Prometheus*.

Making the Monster

Two Among the Righteous FewBy: Marty Brounstein Can hope be found amidst tragedy? Nestled in the hills on the western side of Jerusalem is a museum called Yad Vashem. There, people from around the world visit daily to learn about the tragic period of history from 1933 to 1945 known as the Holocaust. The museum serves as an education, research, and historical center in remembrance of the six million Jews across Europe who were murdered at the hands of the Nazi Party machine led by Adolf Hitler. A special section of Yad Vashem is dedicated to those who carried out acts of courage to save the lives of Jews during the Holocaust. Remembered there is a couple from Dieden of the Netherlands, Frans and Mien Wijnakker. Two Among the Righteous Few: A Story of Courage in the Holocaust is the remarkable tale of how Frans and his wife, Mien, saved the lives of at least two dozen Jews in southern Holland during World War II. They were Catholics who led a simple life in a small town, but they took risks and displayed bravery to help others in dire need, instilling hope during one of the most horrific points of history.

Frankenstein

Alice in Wonderland (Third Edition) (Norton Critical Editions)

This gothic classic, “The Turn of the Screw” is one of the most famous ghost stories of all time. On Christmas Eve, Douglas reads a manuscript written by a former acquaintance, the governess, whom Douglas claims to have known and who is now dead. The manuscript tells the story of how the young governess is hired by a man who has become responsible for his young nephew and niece after the tragic deaths of their parents. He is uninterested in raising the children. The governess’s new employer gives her full responsibility for the young siblings and explicitly states that he is not to be bothered with communications of any sort. Set in a remote estate this critically acclaimed novella tells the tale of a governess who, looking after two children, becomes convinced that the grounds are haunted. This story has been adapted many times for film and television, most recently in *The Turning* (2020). Famed for its ability to create an intimate sense of confusion and suspense, this novella is a must-read for all horror and ghost story fans.

Selected Poems and Prose

The best-selling student edition on the market, now available in a Second Edition. Almost two centuries after its publication, Frankenstein remains an indisputably classic text and Mary Shelley’s finest work. This extensively revised Norton Critical Edition includes new texts and illustrative materials that convey the enduring global conversation about Frankenstein and its author. The text is that of the 1818 first edition, published in three volumes by Lackington, Hughes, Harding, Mavor, and Jones. Jane Eyre

Through ten examples of ingenious experiments by some of psychology's most innovative thinkers, Lauren Slater traces the evolution of the century's most pressing concerns—free will, authoritarianism, conformity, and morality. Beginning with B. F. Skinner and the legend of a child raised in a box, Slater takes us from a deep empathy with Stanley Milgram's obedience subjects to a funny and disturbing re-creation of an experiment questioning the validity of psychiatric diagnosis. Previously described only in academic journals and textbooks, these often daring experiments have never before been narrated as stories, chock-full of plot, wit, personality, and theme.

Before Novels

Becky Eldredge invites you to discover a deeper and more fulfilling prayer life in *The Inner Chapel: Embracing the Promises of God*. By drawing on the wisdom and practices from Ignatian spirituality, she guides readers seeking an inner closeness and intimacy with God. *The Inner Chapel* demonstrates that a relationship with a loving God is available to all who seek it.

Lore of the Witch World

One of the BBC's '100 Novels That Shaped Our World' The Penguin English Library Edition of *Frankenstein* by Mary Shelley 'Never did I behold a vision so horrible as his face, of such loathsome, yet appalling hideousness' A twisted, upside-down creation myth, Mary Shelley's chilling Gothic tale lays bare the dark side of science, and the horror within us all. It tells the story of Victor Frankenstein, who plunders graveyards to create a new being from the bodies of the dead - but whose botched creature causes nothing but murder and destruction. Written after a nightmare when its author was only eighteen, *Frankenstein* gave birth to the modern science fiction novel. The Penguin English Library - 100 editions of the best fiction in English, from the eighteenth century and the very first novels to the beginning of the First World War.

The Norton Anthology of English Literature, 10e Volumes D + E + F + Frankenstein: Norton Critical Edition, 2e

FRANKENSTEIN (The Original 1818 Edition)

"Jane Eyre follows the titular character as she makes her way through Thornfield Hall as the governess and love interest of Mr. Rochester. The text reprinted in this new edition is that of the 1848 third edition text--the last text corrected by Charlotte Bronte. The text is accompanied by explanatory footnotes and an introduction that explores the influences of the novel and its journey to publication. "Contexts" includes excerpts from Charlotte's early writings and diaries from her time as a governess and beyond. There are many letters to Emily Bronte, Ellen Nussey, W. S. Williams, and Sonstantin Heger, all of which are supported by excerpts from Elizabeth Gaskell's autobiography of Charlotte Bronte. "Criticism" examines the many themes woven into the novel with work by Virginia Woolf, Sandra Gilbert, Susan Meyer, Carla Kaplan, and Kelly A. Marsh. A Chronology and updated Selected Bibliography are also included" --

Darwin

Count Dracula has inspired countless movies, books, and plays. But few, if any, have been fully faithful to Bram Stoker's original, best-selling novel of mystery and horror, love and death, sin and redemption. Dracula chronicles the vampire's journey from Transylvania to the nighttime streets of London. There, he searches for the blood of strong men and beautiful women while his enemies plot to rid the world of his frightful power. Today's critics see Dracula as a virtual textbook on Victorian repression of the erotic and fear of female sexuality. In it, Stoker created a new word for terror, a new myth to feed our nightmares, and a character who will outlive us all. This book includes three novels: Dracula, The Jewel of Seven Stars and The Lair of the White Worm. It also includes a short fiction collection called Dracula's Guest and Other Stories: Dracula's Guest; The Judge's House; The Squaw; The Secret of Growing Gold; The Gipsy Prophecy; The Coming of Abel Behenna; The Burial of the Rats; A Dream of Red Hands; Crooken Sands; The Crystal Cup; The Chain of Destiny and The Dualitists.

The Classic Fairy Tales

Beowulf

Few authors have achieved such renown as World Fantasy Life Achievement honoree and Science Fiction Writers of America Grand Master Andre Norton. With the love of readers and the praise of critics, Norton's books have sold millions of copies worldwide. The Witch World . . . Far away in space and time, the Witch World has become the legendary home of all who dream and wonder of unknown worlds. Lore of the Witch World brings together in one volume all the novelettes and tales of the Witch World, including the never previously published novelette Changeling.
