Eighteenth-century Kentucky beckoned to hunters, surveyors, and settlers from the mid-Atlantic coast colonies as a source of game, land, and new trade opportunities. Unfortunately, the Appalachian Mountains formed a daunting barrier that left only two primary roads to this fertile Eden. The steep grades and dense forests of the Cumberland Gap rendered the Wilderness Road impassable to wagons, and the northern route extending from southeastern Pennsylvania became the first main thoroughfare to the rugged West, winding along the Ohio River and linking Maysville to Lexington in the heart of the Bluegrass. Kentucky's Frontier Highway reveals the astounding history of the Maysville Road, a route that served as a theater of local settlement, an engine of economic development, a symbol of the national political process, and an essential part of the Underground Railroad. Authors Karl Raitz and Nancy O'Malley chart its transformation from an ancient footpath used by Native Americans and early settlers to a central highway, examining the effect that its development had on the evolution of transportation

Time is running out for Gracie and Danielle Can Cassie overcome her doubts and lack of experience and use her innate skill? Can Cody Hoyt battle his own demons and find this killer before another victim vanishes on the highway?

## **Highway 50**

A lone motorcycle rider camping in the desert of Arizona finds an unconscious woman in a small arroyo near his camp. Exhausted and suffering exposure in the earlier heat of the desert, she has stumbled and fallen in the dark. He hears the noise near his camp, finds her, and carries her to his camp then awakens in the night to find himself in a deadly fight for his life. She has apparently been found by the men who had been pursuing her earlier that afternoon. He and the woman escape, only to be pursued along the highways through the desert of Arizona and into the mountains of Colorado by lawless members of a motorcycle club. Long since retired, he is not prepared physically or mentally to deal with pursuers who are younger, stronger, and arrogantly intent on taking the woman by force. It becomes clear that he can only survive by using skills and experience from his past that he has only recently begun to come to terms with. Will a confrontation with these lawless men lead to his undoing?

Have you heard the words, “I never dared to treat my parents the way kids do today”? If you are a baby boomer or the parent of a tween, teen, or adult child, not only have you heard those words, you may have uttered them yourself. If, in this new age of child-parent relations, you’ve ever felt like a helpless puppy or kitten inside a box marked “Free to Good Home,”—if, in spite of all your love and the care with which you embraced parenting, your child has grown into an entitled and thoughtless power broker in your relationship—read on. Author Kay Taylor has studied sociology, parenting, blended families and personal growth for years; in this bold, groundbreaking book she explores the changes in our culture that she believes have given birth to what she describes as the E-generation—a generation of teens and young adults that feel so empowered and entitled that they often clash with their parents, creating a palpable power struggle within the family. This often leaves good parents alone, depressed, and completely befuddled as to what they did wrong. *Free Mother to Good Home* comes from the heart and experiences of an everyday parent in the trenches. Taylor offers a mother’s perspective, as well as a remedy for parental blues, helping parents know what they can do to get their houses and their lives back in order.

### **Roadkill on the Information Highway**

The conference was organized as a national forum to provide information on new approaches to financing all modes of transportation, to share success stories, and to stimulate discussion on the merits and

drawbacks of new techniques, which are known collectively as innovative finance. Innovative finance in transportation is a diversified set of public- and private-sector actions that move beyond the traditional federal-aid and state-aid funding processes. Nearly 500 federal, state, and local government officials and private-sector representatives attended the conference. Conference participants grappled with the growing inadequacy of traditional funding sources and how to find new means to finance the continued maintenance and improvement of the nation's transportation infrastructure.

"Construction plans for the reroute of Highway 55 through south Minneapolis sparked an environmental movement that pitted activists against public authorities in one of the most dramatic episodes in the city's history. Mary Losure was there: as a reporter for Minneapolis Public Radio she witnessed the neighborhood's transformation from a quiet street to the center of an emotionally charged standoff. Fueled by idealism and anger, a diverse coalition of Native Americans, neighborhood residents, and young anarchists banded together to try to stop the highway expansion. Beginning in 1998, this group sustained protests for more than a year and eventually faced an unprecedented show of force by law enforcement."

"Through her detailed account of this struggle, Losure explores the roles of ecoanarchism and grassroots activism in the age of globalization. This subculture, brought to the spotlight during protests over the World Trade Organization in Seattle and Genoa, has been largely undocumented in the mainstream press. With a practical reporter's eye, Mary Losure portrays the activists' experiences and the establishment's view of them, ultimately revealing the power of the existing order and the fragility and absolute necessity of dissent."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. A VIVID AND FASCINATING LOOK AT AMERICAN HISTORY THROUGH THE PRISM OF THE COUNTRY'S MOST STORIED HIGHWAY, THE BOSTON POST ROAD  
During its evolution from Indian trails to modern interstates, the Boston Post Road, a system of overland routes between New York City and Boston, has carried not just travelers and mail but the march of American history itself. Eric Jaffe captures the progress of people and culture along the road through four centuries, from its earliest days as the king of England's "best highway" to the current era. Centuries before the telephone, radio, or Internet, the

Boston Post Road was the primary conduit of America's prosperity and growth. News, rumor, political intrigue, financial transactions, and personal missives traveled with increasing rapidity, as did people from every walk of life. From post riders bearing the alarms of revolution, to coaches carrying George Washington on his first presidential tour, to railroads transporting soldiers to the Civil War, the Boston Post Road has been essential to the political, economic, and social development of the United States. Continuously raised, improved, rerouted, and widened for faster and heavier traffic, the road played a key role in the advent of newspapers, stagecoach travel, textiles, mass-produced bicycles and guns, commuter railroads, automobiles—even Manhattan's modern grid. Many famous Americans traveled the highway, and it drew the keen attention of such diverse personages as Benjamin Franklin, Franklin D. Roosevelt, P. T. Barnum, J. P. Morgan, and Robert Moses. Eric Jaffe weaves this entertaining narrative with a historian's eye for detail and a journalist's flair for storytelling. A cast of historical figures, celebrated and unknown alike, tells the lost tale of this road. Revolutionary printer William Goddard created a postal network that united the colonies against the throne. General Washington struggled to hold the highway during the battle for Manhattan. Levi Pease convinced Americans to travel by stagecoach until, half a century later, Nathan Hale convinced them to go by train. Abe Lincoln, still a dark-horse candidate in early 1860, embarked on a railroad speaking tour along the route that clinched the presidency. Bomb builder Lester Barlow, inspired by the Post Road's notorious traffic, nearly sold Congress on a national

system of expressways twenty-five years before the Interstate Highway Act of 1956. Based on extensive travels of the highway, interviews with people living up and down the road, and primary sources unearthed from the great libraries between New York City and Boston—including letters, maps, contemporaneous newspapers, and long-forgotten government documents—The King's Best Highway is a delightful read for American history buffs and lovers of narrative everywhere.

"With his lively pen and lyric camera, Mr. Hokanson takes us on a journey of discovery. The open road is, in part, a defining characteristic of this country, and the Lincoln Highway is one of the historic traces like the Oregon Trail, the Camino Real, or the National Road. Not just for tourists, the Lincoln Highway accelerated the processes of social mobility, changed our geography, and led inexorably to a new America. This is an important story, well researched and beautifully, perceptively told." -- William L. Withuhn, Curator of Transportation, Smithsonian Institution

The southern High Sierra, including Sequoia and Kings Canyon National Parks and the surrounding John Muir, Jennie Lakes, and Monarch Wildernesses, is one of the most magnificent natural areas in the world. Blessed with the largest trees on earth (giant sequoias), one of the deepest canyons in North America (Kings Canyon), and the highest mountain in the continental U.S. (Mt. Whitney), the greater Sequoia-Kings Canyon region offers unparalleled mountain majesty. Along with such superlatives, hundreds of miles of trail provides access to a boundless number of high mountain lakes, wildflower-covered meadows, cascading streams, deep forests, and craggy peaks. Mike White's guide is the only comprehensive guide to this portion of John Muir's Range of Light.

From eighteenth-century copyright law, to current-day copyright issues on the internet, to tomorrow's "celestial jukebox"—a digital repository of books, movies, and music available on demand—Paul Goldstein presents a thorough examination of the challenges facing copyright owners and users. One of the nation's leading authorities on intellectual property law, Goldstein offers an engaging, readable, and intelligent analysis of the effect of copyright on American politics, economy, and culture. Goldstein presents and analyzes key legal battles, including Supreme Court decisions on home taping and 2 Live Crew's contested sampling of Roy Orbison's "Pretty Woman." In this revised edition, the author expands the discussion to cover electronic media, including an examination of recent Napster litigation, the Digital Millennium Copyright Act, and the vexed Secure

God, or even self, but birds. A report of a rare bird would send him hitching nonstop from Pacific to Atlantic and back again. When he was broke he would pick fruit or do odd jobs to earn the fifty dollars or so that would last him for weeks. His goal was to set a record—most North American species seen in a year—but along the way he began to realize that at this breakneck pace he was only looking, not seeing. What had been a game became a quest for a deeper understanding of the natural world. Kingbird Highway is a unique coming-of-age story, combining a lyrical celebration of nature with wild, and sometimes dangerous, adventures, starring a colorful cast of characters.

Do demons exist? Do they have power over Christians? How do demons gain entrance into people's lives? How can a person be delivered from the powers of darkness? This book answers these tough questions and more purely from a biblical view point. With his own personal experience as deliverance and healing minister, Rev. Anane teaches practical ways of receiving and maintaining deliverance in a person's life. This book is also enriched with scriptures and powerful prayer points to help you combat the enemy and take what is rightfully yours. It is about time you know your enemies, the way they work and how to overcome them so that you can walk in total freedom. Remember, God has set you higher and no authority can set you lower.
