Today, no business is purely domestic. Even the smallest local firms are affected by global competition and world events. INTERNATIONAL BUSINESS LAW AND ITS ENVIRONMENT, 10E provides complete, inviting coverage of the legal implications and ramifications of doing business internationally. Readers examine the cultural, political, economic, and ethical issues that today's global business managers face.

With a focus on trade, the licensing of intellectual property, and foreign direct investment, this edition examines the three major forms of doing business in a foreign country. Real examples, precedent-setting cases, managerial implications, and ethical considerations further emphasize key principles. From the legal relationship between parties in an international business transaction to managing risk to the special challenges of conducting business in emerging economies, readers review the most common practices and critical issues in global business law. Fundamentals of Financial Management

The world of aviation has moved on rapidly since the appearance of the ninth edition of this pre-eminent resource five years ago. Those developments pertain to market access and market behaviour by air carriers, including competition, new perceptions of safety and security, among others in relation to transparency of accident investigation and cybersecurity, case law in the area of airline liability, with new cases from the United States, product liability and insurance, the United Kingdom, and elsewhere, the growing importance of environmental concerns, the rights and obligations of passengers, also in the context of 'unruly' passengers, and innovative methods for financing aircraft. Special attention has been paid in this edition to regional integration movements, especially in Europe, affecting the

mentioned subjects. The book's extensive references to other sources in the field have been expanded and updated by the author and experts in specialised areas. The present edition addresses the following topics: - the regulatory framework governing the operation of air services including the principle of sovereignty in national airspace; - the distinction between State and civil aircraft; - dispute settlement in international civil aviation; - economic regulation of international air transport services including the establishment of air services agreements; - inter-airline cooperation in the context of competition law regimes; - liability of the various service providers, in particular airlines, and related insurance coverage; - the promotion of safety standards; - criminal acts affecting the safety of aviation; - the role of international and regional organisations with particular reference to that of the European Union; - liability of the aircraft manufacturer for equipment; and - financial and security interests in mobile equipment. The many practitioners, officials, business people, and academics with a professional interest in aviation law will appreciate this new edition as one of the fundamental works in the field, and newcomers will discover an incomparable resource. This tenth edition is ready to be of unmatched service to any practising member of the air law community anywhere in the world.
