Each guide focuses on one strategy from the best-selling ASCD book *The Strategic Teacher: Selecting the Right Research-Based Strategy for Every Lesson* and serves as a complete professional development resource for a team of teachers (or professional learning community) to learn, plan, and implement the strategy in their classrooms. This guide focuses on Reading for Meaning, a reading and

Reading for Meaning gives all students the opportunity to practice this three-phase approach by* Using simple statements to preview and predict before reading.* Actively searching for relevant evidence during reading.* Reflecting on and synthesizing both their learning and their thinking process after reading. This PLC Guide takes you and your colleagues on a "guided tour" of Reading for Meaning, enabling you to* Learn how Reading for Meaning builds reading, reasoning, and problem-solving skills.* Experience a model lesson using the Reading for Meaning strategy and learn from sample lessons and planning forms designed by other teachers.* Plan a complete Reading for Meaning lesson for your classroom.* Reflect deeply on your lesson to refine and expand your use of the strategy.* Examine student work at various levels of proficiency and use your findings to plan next steps in building students' reading, thinking, and comprehension skills.
