The Intermediate Worlds of Angels

Most contemporary poets wear their cultural and artistic influences on their sleeve.

Picking up a book in an English language bookstore, it is easy to see where the poet is coming from, either geographically, or culturally (ironic and formal; confessional and free etc). This may seem reductive until you read a book like the one you have in your hands. Put simply, Mia Lecomte is a quietly dazzling poet on her own terms. She is fed by multiple cultures, she is widely read, but her writing is unique and absolutely genuine. You won't have read anything like this.

The Nowhere City

The Objectivists were a group of left-wing, mainly Jewish American poets who formed a brief though important alliance in the 1930s, when they felt poetry needed a new identity. The guiding principles of Objectivist poetry were fresh vocabulary and musical shaping, drawing on a stripped-down but radiant language of images and perceptions. The core of the group was formed by Louis Zukofsky, George Oppen, Charles Reznikoff and Carl Rakosi, but Lorine Niedecker, Kenneth Rexroth and Muriel Rukeyser were affiliated players, as well as Basil Bunting in Britain. They are especially interesting to us today because they took up the challenge of experiment with a modern ambitious lyric poetry sharpened by their experience of the new metropolitan city. In the Objectivists' heyday, the Depression years, they laid down examples which have been picked up in turn by the Black Mountain Poets and the Beat Generation, and later by Postmodernism, and which still remain fruitful. The trademark smartness and brevity of Objectivist poetry,

along with a vital commitment to the spirit of the century, make Andrew McAllister's anthology an exciting and relevant book for a new generation of poetry readers.

Doggybags - Fresh flesh & hot chrome

The only man in my life I felt I could trust was my father. A detective assigned to San Diego's gang crime unit; his focus was outlaw motorcycle clubs. His nemesis? A gang of thieves who had wreaked havoc on the city's financial institutions for nearly two decades. As fate would have it, I was preparing for a one-night stand with a tough-looking biker. As long as my father didn't find out, everything would be fine. If he learned of my fling with the tattooed bad boy, I could certainly talk my way out of it. The odds of Taddeo 'Tito' Silva being in my father's crosshairs was impossible. Or, so I thought. TITO is book 6 of a 6-book series and can be read as a Stand-alone. It has no cheating, no sex outside the relationship, and has an HEA.

The Missing of Clairdelune

Egypt during the 18th Dynasty, about 1350 B.C. Akhenaten, the reformist pharaoh, has died, and his successor, the child pharaoh Tutankhamun, is effectively controlled by political schemers with no love for Akhenaten's old supporters. Many of these have lost their lives, but Huy, once a scribe in Akhenaten's court, is luckier: He's lost merely his home and the right to practice his trade. In desperation, Huy becomes a sort of traveling troubleshooter, the world's first private eye. In this, his first case, he is up against Egypt's powerful priesthood and a brutal gang of tomb-robbers, all while trying to evade the clutches of the secret police.

The Devil in France - My Encounter with Him in the Summer of 1940

Born in Tuscany in 1304, Italian poet Francesco Petrarca is widely considered one of the fathers of the modern Italian language. His writings inspired the Humanist movement and, subsequently, the Renaissance, but few figures are as complex or as misunderstood. He was a devotee of the ancient pagan Roman world and a devout Christian, a lover of friendship and sociability, yet at times an intensely private and almost misanthropic man. He believed life on earth was little more than a transitory pilgrimage, and took himself as his most important subject-matter. Christopher S. Celenza provides the first general account of Petrarch's life and work in English in over thirty years, and considers how his reputation and identity have changed over the centuries. He brings to light Petrarch's unrequited love for his poetic muse, Laura, the experiences of his university years, the anti-

institutional attitude he developed as he sought a path to modernity by looking toward antiquity, and his endless focus on himself. Drawing on both Petrarch's Italian and Latin writings, this is a revealing portrait of a paradoxical figure: a man of mystique, historical importance and endless fascination.

Book Two in the Internationally Bestselling Mirror Visitor Quartet In book two of the bestselling Mirror Visitor Quartet, "the plots multiply, the world of the Arks gains depth, details abound, and the story envelops the reader as the pages fly by." (Le Monde des ados) When Ophelia is promoted to Vice-storyteller by Farouk, the ancestral Spirit of Pole, she finds herself unexpectedly thrust into the public

spotlight. her gift--the ability to read the secret history of objects--is now known by all, and there can be no greater threat to the nefarious denizens of her icy adopted home than this. Beneath the golden rafters of Pole's capitol, she discovers that the only person she may be able to trust is Thorn, her enigmatic and emotionally distant fiancé. As one influential courtier after another disappears, Ophelia again finds herself unintentionally implicated in an investigation that will lead her to see beyond Pole's many illusions to the heart of a formidable truth.

Men and Memories

In this “excellent” novel of “rare understanding” from a Pulitzer Prize-winning author, culture shock consumes a young Harvard couple in Los Angeles (The New York Times). When his mentor at Harvard University suddenly leaves for Washington, Paul Cattleman finds himself adrift in the wilds of academia. After losing his fellowship, he is out of work and one thesis short of a PhD. Rather than doom his career by taking what he considers to be an unsuitable job, he finds a temporary position at the Nutting Research and Development Corporation in Los Angeles, a city whose superficial charms signal an adventure. He is ready to make the best of his year out west among the beatniks and Hollywood hippies. The only

thing holding him back is his wife. Katherine is a New Englander through and through, and as soon as she steps into the LA smog, she knows this transition will be a struggle. What Paul sees as fun, she considers vulgar. Bugged down by her allergies and crumbling marriage, she seeks out a shrink, who surprises and transforms her. While Los Angeles may be a cultural wasteland, this East Coast girl will find that West Coast pleasures can be quite a lot of fun. The National Book Award-shortlisted author of *Foreign Affairs* “writes coolly and wickedly” of freedom and self-discovery in this witty novel (*The New Yorker*). This ebook features an illustrated biography of Alison Lurie including rare images from the author’s collection.

La Congiura De' Pazzi

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows

that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Finally, I shall give two assumptions to explain why if the university location is not popular to be accepted to the country's students in general, then it will cause who won't choose to study the university. However, even if the university's tuition is reasonable or cheaper or lecturers are famous or reputation or educational advertisement is attractive. In fact, the poor location factor will influence many local or overseas students who don't choose to study the university in the country. The first assumption is that most of students feel that the proximity of the university to the city center factor affects their university final choice decision and the another assumption is that most of students feel that the proximity of university to home affects their university final choice decision. There two assumptions are used to determine the importance of university location to attract the students. In Porter theory, either proximity of city center and/or proximity of student's home of a university factors have same advantages against the treat of entry. It can decrease the treatment of rival and a good place has certainly positive

effect to attract teaching staff and more students. In resource based view, the location can be accepted a kind of internal resources. It can be accepted as one of the sustainable competitive advantages literature, location is a kind of advantage for higher education institutions.
