Mathenauts

This book illustrates how religion and ideology were used by Robert Mugabe to ward off opposition within his own party, in Zimbabwe and from the West. An interdisciplinary line up of contributors argue that Mugabe used a calculated narrative of deification - presenting himself as a divine figure who had the task of delivering land, freedom and confidence to black people across the world - to remain in power in Zimbabwe. The chapters highlight the appropriation and deployment of religious themes in Mugabe's domestic and international politics, reflect on the contestation around the deification of Mugabe in Zimbabwean politics across different forms of religious expression, including African Traditional Religions and various strands of Christianity and initiate further reflections on the interface between religion and politics in Africa and globally. Politics and Religion in Zimbabwe will be of interest to scholar of religion and politics, Southern Africa and African politics.

Toy's Story

There is an expectation in Jewish communities around the world that all Jews embrace Zionism and offer unquestioning support for Israel, 'right or wrong'. Jewish identity and Zionism are commonly and deliberately blurred. Jews who criticise Israel or question Zionism are often excluded, vilified and threatened. If they express sympathy for the plight of the Palestinian people, they risk being branded as traitors and accused of 'supporting the enemies of Israel'. Beyond Tribal Loyalties is a unique collection of twenty-five personal stories of Jewish peace activists from Australia, Canada, Israel, the United Kingdom and the United States. There is an age difference of more than fifty years between the oldest and the youngest contributor. The stories focus on the complex and intensely personal journey that Jewish activists go through to free themselves from the hold of Zionist ideology and its requirement to support all Israeli policies. Like many Jews, most of the contributors were once unquestioning supporters of Israel and Zionism. Something happened in the life of each of these extraordinary people that caused them to question and re-evaluate their understanding of the conflict and their relationship with Israel and the Palestinian people. In many cases this journey involved a reassessment of personal values, belief systems and identity. Beyond Tribal Loyalties seeks to discover what makes it possible for Jewish peace activists to follow through with this transformative journey and their activist work, despite fanatical and sometimes violent opposition. This is an inspiring book for anyone who is interested in the experience of being a peace activist. It offers a fresh and unusual angle on the Israeli-Palestinian conflict, and is a unique contribution in a field where political analysis is common, but where the personal angle is often lacking. Time and the literary: the immediacy of information technology has supposedly annihilated both. Email, cell phones, satellite broadcasting seem to have ended the long-standing tradition of encoding our experience of time through writing. Paul de Man's seminal essay "Literary History and Literary Modernity" and newly commissioned essays on everything from the human genome to grammatical tenses argue, however that the literary constantly reconstructs our understanding of time. From eleventh-century France or a science-fiction future, Time and the Literary shows how these two concepts have been and will continue to influence each other.

The importance of conservation is growing each year, with increasing concerns over the destruction of biodiversity and the rising awareness of ecosystem services generating new debates on the human-nature relationship. This compact overview integrates the process, theory and practice of conservation for a broad readership, from non-specialists to students and practitioners. Taking a global perspective, it uses examples from around the world to illustrate general themes and show how problems arise from the impact of societal trends on ecological communities. A significant practical component will be particularly valuable for environmental professionals, outlining the requirements for rigorous surveys, biodiversity valuation, the assessment of impact and its mitigation. Thoroughly revised and updated, this second edition reflects trends towards embracing multiple disciplines, considering the links between ecology and the social sciences and bringing conservation to the heart of sustainability and environmental policy.

Riding Masterclass

An omnibus of three essential, darkly humorous novels from a master of his own, unique genre and an influential voice in contemporary literature. David Markson's unique novels earned him praise from the likes of Kurt Vonnegut and David Foster Wallace, Ann Beattie and Zadie Smith. Markson created his own personal genre. With crackling wit distilled into incantatory streams of thought on art, life, and death, Markson's work has delighted and astonished readers for decades. This essential collection brings together in one volume *This Is Not a Novel*, *Vanishing Point*, and *The Last Novel*. In *This Is Not a Novel*, readers meet an author, called only "Writer," who is weary unto death of making up stories, and yet is determined to seduce the reader into turning pages and getting somewhere. *Vanishing Point* introduces us to "Author," who sets out to transform shoeboxes crammed with note cards into a novel. In *The Last Novel*, we find an elderly author (referred to only as "Novelist") who announces that, since this will be his final effort, he possesses "carte blanche to do anything he damn well pleases." United by their focus on the trials, calamities, absurdities and even tragedies of the creative life, these novels demonstrate David Markson's extraordinary intellectual richness—leaving readers, time after time, with the most indisputably original of reading experiences . . . "a drift toward the momentary reconciliation of art, intellect, and mortality" (Publishers Weekly).
