Economics for the IB Diploma with CD-ROM

The 2013 IB HL Economics syllabus change introduced Paper 3, an essentially calculations-based assessment. This development challenged teachers and students alike, as few Paper 3 practice resources have been available. This is furthermore an area of the syllabus where, as in Mathematics, practice is fundamentally important in developing the skills and confidence for needed for success. Paul Hoang's latest publication therefore represents an invaluable resource in helping students to prepare for the examination challenges they face. For many candidates the mix of words, theory and numbers in Paper 3 questions can be overwhelming, if they have not developed easy familiarity throughout their course. With clear layout and content that beautifully mirrors IB examination questions, this resource is the one we have all been waiting for. I absolutely recommend it as a 'must have' for all those who are preparing for the HL Economics examination. IT is a core resource invaluable to students and teachers alike. IB Economics

From the editor and magazine that started and named the Occupy Wall Street movement, *Meme Wars: The Creative Destruction of Neoclassical Economics* is an articulation of what could be the next steps in rethinking and remaking our world that challenges and debunks many of the assumptions of neoclassical economics and brings to light a more ecological model. *Meme Wars* aims to accelerate the shift into this new paradigm that takes into account psychonomics, bionomics, and other aspects of our physical and mental environment that are often left out in discussions of economics. Like *Adbusters*, the book will be image heavy and full-color throughout. Lasn calls it "a textbook for the future" that provides the building blocks, in texts and visuals, for a new way of looking at and changing our world. Through an examination of alternative economies, Lasn hopes to spur students to become "barefoot economists" and to see that a humanization of economics is possible. *Meme Wars* will include contributions from Nobel Prize winner Joseph Stiglitz, Paul Samuelson, George Akerlof, Lourdes Benería, Julie Matthaei, Manfred Max-Neef, David Orrell, Paul Gilding, Mathis Wackernagel and the father of ecological economics Herman Daly, among others. Based on ideas that were presented in a special issue of *Adbusters* entitled "Thought Control in Economics: Beyond the Growth Paradigm / An Activist Toolkit," *Meme Wars* will help move forward the Occupy Wall Street movement.
