### Texts and Materials on International Human Rights

This core text is the first to provide a much-needed interdisciplinary approach to international studies. Emphasizing the interconnected nature of history, geography, anthropology, economics, and political science, International Studies details the methodologies and subject matter of each discipline then applies these discipline lenses to seven regions: Europe; East Asia and the Pacific; South and Central Asia; sub-Saharan Africa; the Middle East and North Africa; Latin America; and North America. This disciplinary and regional combination provides an indispensable, cohesive framework for understanding global issues. The fully updated fourth edition includes four new global issues chapters: The Refugee Crisis in Europe; The Syrian Civil War and the Rise of the Islamic State; Global Climate Change; and The Globalization of Modern Sports. .

### What Managers Do, Fourth Edition

The Global Casino is a compelling introduction to environmental issues which links the physical environment to its political, social and economic contexts. Case studies from around the globe are used to illustrate key environmental issues, from global warming and deforestation to natural hazards and soil erosion. The book highlights the underlying causes behind environmental problems, including human actions and emphasises the potential for solutions. In line with contemporary international trends, emphasis is placed on the critical concept of sustainable development. This new edition has been thoroughly revised and updated, with the introduction of new illustrative material and up-to-the-minute case studies on topics such as endangered deep-sea species, the global uptake of unleaded petrol, geothermal energy in Iceland, genocide in Rwanda and the Indian Ocean tsunami of 2004. Particularly useful features for students include points for discussion at the end of each chapter as well as a comprehensive glossary. The lists of key readings and websites, again linked specifically to the content of each chapter, have been fully updated and expanded. The Global Casino is the essential course companion for students of the environment, geography, earth sciences and development studies.

## **Global Economic Issues and Policies**

Building on the strength of previous editions, the fourth edition presents a well-conceived, clearly stated analysis of complex issues confronting law enforcement officers and administrators. Law enforcement duties sometimes place police officers in vulnerable positions regarding their legal obligations and expose them to charges of misconduct. Civil liability is an extremely expensive proposition for police officers, law enforcement agencies, governments, and ultimately taxpayers. Although substantial resources are often expended by the justice system to resolve liability cases, there are benefits to citizens. When the government assumes the responsibility to provide service or to protect the public, people injured by inadequate performance of those responsibilities deserve compensation; innocent parties who suffer injury should have an avenue for redress. The potential for litigation has been an impetus for better training and more responsible practices. Another excellent resource on the topic, Kappeler's edited volume of Supreme Court cases, *Police Civil Liability, Second Edition*, allows students to understand firsthand the legal reasoning behind Court decisions dealing with these same issues.
