and gender barriers.

Jim Henson's Labyrinth: Coronation Vol. 1

Although ostensibly presented as “light entertainment,” the work of writer-director-producer Joss Whedon takes much dark inspiration from the horror genre to create a unique aesthetic and perform a cultural critique. Featuring monsters, the undead, as well as drawing upon folklore and fairy tales, his many productions both celebrate and masterfully repurpose the traditions of horror for their own means. Woofert and Jowett's collection looks at how Whedon revisits existing feminist tropes in the '70s and '80s “slasher” craze via Buffy the Vampire Slayer to create a feminist saga; the innovative use of silent cinema tropes to produce a new fear-laden, film-television intertext; postmodernist reflexivity in Cabin in the Woods; as well as exploring new concepts on “cosmic dread” and the sublime for a richer understanding of programmes Dollhouse and Firefly. Chapters provide the historical context of horror as well as the particular production backgrounds that by turns support, constrain or transform this mode of filmmaking. Informed by a wide range of theory from within philosophy, film studies, queer studies, psychoanalysis, feminism and other fields, the expert contributions to this volume prove the enduring relevance of Whedon's genre-based universe to the study of film, television, popular culture and beyond.

Labyrinth: The Ultimate Visual History

Debated, denied, unheard of, encompassing: The Anthropocene is a vexed topic, and requires interdisciplinary imagination. Starting at the author's home in rural northern Michigan and zooming out to perceive a dizzying global matrix, Christopher Schaberg invites readers on an atmospheric, impressionistic adventure with the environmental humanities. Searching for the Anthropocene blends personal narrative, cultural criticism, and ecological thought to ponder human-driven catastrophe on a planetary scale. This book is not about defining or settling the Anthropocene, but rather about articulating what it's like to live in the Anthropocene, to live with a sense of its nagging presence--even as the stakes grow higher with each passing year, each oncoming storm.
