Sanjshakun

You don't find true love. You build it. Paarth has just turned 18, and instead of celebrating, he is driving his father's taxi to make ends meet. When he picks up Upasna from the Delhi airport, little did he know that their drive to Chandigarh will be so adventurous! Upasna is studying Automobile Engineering in Germany, and has come back home for a short holiday.

When she stumbles upon a little secret about Paarth, she is in awe of him, and love inevitably happens. However, not only their social status, but the long distance between them is also a problem. Her undying faith in Paarth makes him challenge his destiny to prove his worth to her father, and more to himself. As he sets on a path to reinvent his identity, his friend Kartik stands by him to see him through. In a world where relationships are based on give and take, how their love eventually breaks stereotypes, builds a way and sets an example, is the mesmerizing – Our Story of Love.

Bruce Greenwald, one of the nation's leading business professors, presents a new and simplified approach to strategy that cuts through much of the fog that has surrounded the subject. Based on his hugely popular course at Columbia Business School, Greenwald and his coauthor, Judd Kahn, offer an easy-to-follow method for understanding the competitive structure of your industry and developing an appropriate strategy for your specific position. Over the last two decades, the conventional approach to strategy has become frustratingly complex. It's easy to get lost in a sophisticated model of your competitors, suppliers, buyers, substitutes, and other players, while losing sight of the big question: Are there barriers to entry that allow you to do things that other firms cannot?

The Return of Vaman - A Scientific Novel

The murders that gripped the nation Seven years ago a teenage girl, Aarushi Talwar, was found murdered in her bedroom in Noida, a middle-class suburb of Delhi. The body of the prime suspect—the family servant, Hemraj—was discovered a day later. Who had committed the double murders, and why? Within weeks, Aarushi's parents, the Talwars, were accused; four years later, they went on trial and were convicted. But did they do it? Avirook Sen attended the trial, accessed important documents and interviewed all the players—from Aarushi's friends to Hemraj's old boss, from the investigators to the forensic scientists—to write a meticulous and chilling book that reads like a thriller but also tells a story that is horrifyingly true. Aarushi is the definitive account of a sensational crime, and the investigation and trial that followed.

Industrialize--and Perish!

Why is a certain behavior considered ethical? By what processes does a certain behavior become ethical? Why are some people more capable of behaving ethically? This book discusses questions such as these with the help of the perspectives drawn from three distinct fields: Religion, Philosophy and Neuroscience. Theorists from the ancient to the recent - from the Buddha and Socrates to Antonio Damasio - are covered.

Fromm offers a complete and systematic exploration of his "humanistic psychoanalysis." In so doing, he counters the profound pessimism for our future that Freud expressed and sets forth the goals of a society in which the emphasis is on each person and on the social measures designed to further function as a responsible individual.

Ethical Thought

So much about the society that is now emerging in the twenty-first century bears an astonishing resemblance to the most prominent features of what we call the classical world - its institutions, its priorities, its entertainment, its physics, its sexual morality, its food, its politics, even its religion. The ways in which we live our rich and varied lives correspond - almost eerily so - to the ways in which the Greeks and Romans lived theirs. Whether we are eating and drinking, bathing or exercising or making love, pondering, admiring or enquiring, our habits of thought and action, our diversions and concentrations recreate theirs. It is as though the 1500 years after the fall of Rome had been time out from traditional ways of being human. This eye-opening book makes us look afresh at who we are and how we got here. Full Circle is not only wonderfully witty and brilliantly astute, but also profound and often disquieting. Ferdinand Mount effortlessly peels back 2000 years of history to show how much we are like the ancients, how in ways both trivial and crucial we are them and they are us.

Raja Ravi Varma

British politician and writer, Ferdinand Mount, challenges contemporary beliefs about society and family—including the history of divorce, childcare, and the concept of the nuclear family. In *Subversive Family*, politician and writer Ferdinand Mount argues that society is shaped by a series of powerful revolutionary movements, the leaders of which, whether they be political ideologues, theologians, feudal lords, or feminist writers, have done their utmost to render the family a subordinate instrument of their purpose but that, in spite of it all, the family endures. Mount maintains that many widely held contemporary beliefs about the family are based on a willful misreading of the evidence: among the myths are that arranged marriages were the norm until this century; that child care is a modern innovation; that in earlier societies children were treated as expendable objects; that the nuclear family is not a 20th-century invention; and that romantic love never existed before the troubador poets glorified adultery. Divorce, he contends, is no great novelty either, he shows that in many times and places it has been almost as easy to obtain as it is today. Far from diminishing the general desire and respect for family life, Mount contends that the provision for divorce has been popularly regarded as an integral part of any sensible system of family law. This study should jolt the reader into a re-assessment of one of the most familiar and ancient institutions, and encourage greater consideration for policies today that support the family.

Mrityunjaya, the Death Conqueror

The Art of Happiness

A controversial novel based on the life of India's most celebrated painter, Raja Ravi Varma He was accused of making the gods look like humans and insulting them by portraying them in the nude. He countered that he saw divinity in both gods and humans, and that nudity was the purest form he knew. This is the story of a little boy who grew up making charcoal sketches on freshly whitewashed temple walls and went on to be titled in the court of Thiruvananthapuram as 'Raja' for his artistic prowess. His painting of a Nair woman who worked in his wife's palace brought him wrath and recognition alike. His deep involvement with Sugandha, the Maharastrian lady, who became Menaka, Damayanti and Urvashi in his most acclaimed works caught the fancy of many critics and admirers.

Our Story of Love

This collection of science fiction writings by Jayant V. Narlikar offers readers a unique glimpse into the world-famous Indian astrophysicist's vivid and highly imaginative concepts and stories. The fictional material comprises a witty short story ("The rare idol of Ganesha") that cleverly explores the possible consequences of a mirror-symmetric individual in the context of cricket test match performances, as well as the fast-paced, gripping science fiction thriller "The return of Vaman": when an alien container is unearthed by a crew of scientists, the enormous potential technological applications of its contents bring various criminal elements on the scene - but when the real danger becomes apparent it is almost too late to save humanity. Last but not least, the book provides readers with extensive insights into the genesis and scientific background of the fictional material presented in this volume, along with an autobiographical account of the author's life-long interest in science fiction and his contributions to the genre. About the author: Jayant V. Narlikar is internationally known for his work in cosmology, in particular for championing models alternative to the standard big-bang theory. He was president of the cosmology commission of the International Astronomical Union from 1994 to 1997. He has received several national and international awards and honorary doctorates - he is a Bhatnagar awardee, as well as recipient of the M.P. Birla award, the Prix Janssen of the French Astronomical Society and an Associate of the Royal Astronomical Society of London. He is Fellow of the three Indian national science academies as well as of the Third World Academy of Sciences. Well beyond his scientific research, Prof. Narlikar is widely known as a science communicator through his books, articles and radio/TV programs and he was honored by the UNESCO in 1996 with the Kalinga Award. He made his debut in science fiction writing in 1974, by winning the top prize in the story writing competition organized by the Marathi Vidnyan Parishad, a non-governmental organization engaged in science popularization.

Panchatantra - Volume 1

Mukund Joshi is fourteen and newly in love. He attends the same private tuitions as his classmate, Shirodkar, just for a glimpse of her, and follows her back home every day. Sadly, she has not a clue that he is pining away for her, because in their society, boys and girls don't interact freely, much less talk about love. When he's not negotiating the tricky alleys of love, Mukund sits around the school field or loafs about town with his close friends, Surya, Chitre and Phawdya, railing against the education system, and debating ideas such as discipline and Bohemianism. Set in a small Maharashtrian town during the Emergency of 1975, Shala is a heart-warming, nuanced novel about the adolescent struggles that are as tortuous in real time as they are amusing in retrospect.

The eagerly anticipated follow-up to *My Life Next Door* is a magnetic, push-me-pull-me summer romance for fans of Sarah Dessen and Jenny Han. Gwen Castle's *Biggest Mistake Ever*, Cassidy Somers, is slumming it as a yard boy on her idyllic Nantucket-esque island this summer. He's a rich kid from across the bridge in Stony Bay, and she hails from a family of fishermen and housecleaners who keep the island's summer people happy. Gwen worries a life of cleaning houses will be her fate too, but just when it looks like she'll never escape her past--or the island--Gwen's dad gives her some shocking advice. Sparks fly and secret histories unspool as Gwen spends a gorgeous, restless summer struggling to resolve what she thought was true--about the place she lives, the people she loves, and even herself--with what really is. Huntley Fitzpatrick delivers another enticing summer read full of expectation and regret, humor and hard questions, and a romance that will make every reader swoon.

Panchatantra is perhaps the oldest collection of Indian fables still gaining strength and moving ahead. It is believed to have written around 200BC by the great Hindu Scholar Pandit Vishnu Sharma. Panchatantra means "the five principles". It is a "Nitishastra" which means book of wise conduct in life. Panchatantra consists of five books: 1. Mitra Bhedha (The loss of friends); 2. Mitra Laabha (Gaining friends); 3. Kakolukiyam (Crows and owls); 4. Labdhap-ranasam (Loss of gains); and 5. Aparikshitakarakam (Ill-considered actions). The simple stories of Panchatantra have stood the test of time in the modern age of materialism, stressful living and individualism, and aim to guide the young readers on how to attain success in life by understanding human nature. Key Features: Written in simple and lucid language Each story is supplemented by a moral Word meaning for vocabulary building Practice exercise given for better understanding Panchatantra is commonly available in an abridged form for children. It is an ideal book worth going through many times over. Honestly speaking, it is of far more practical importance for elders to read this book since it is they who always come in contact with people having good, doubtful or bad intensions and motives. A must read for students of all age groups.

The story of Yayati is perhaps one of the most intriguing and fascinating episodes of Mahabharata. Yayati was a great scholar and one of the noblest rulers of olden times. He followed the shastras and was devoted to the welfare of his subjects. Even the King of Gods, Indra, held him in high esteem. Married to seductively beautiful Devayani, in love with her maid Sharmishtha, and father of five sons from two women, yet Yayati unabashedly declares, 'My lust for pleasure is unsatisfied' His quest for the carnal continued, sparing not even his youngest son, and exchanging his old age for his son's youth Winner of the Jnanpith and Sahitya Akademi Awards.
