Saying "I Promise" is the easiest thing to do, its just two tiny words. No one warned me of the weight they hold, that they not only have the power to make something, to give hope, or show devotion. They can destroy everything, cause so much hurt, ruin lives. Every promise holds a toll, if I had known what mine would cost me, I would have walked away. Now I have to pay the price, watch the consequences of my actions unfold. Witnessing someone I love crumble after breaking my oath isn't the hardest thing I've endured, it's being forgotten by the one person that I could never forget.

The Chinese are inordinately proud of having invented, among a whole host of other things, the compass (without which the world would have got lost), paper (without which books would not exist), the printing press (ditto), porcelain (no pretty matching chinaware), silk (no decadence), pasta (what would the Italians eat?), the wheelbarrow (how would civilisation have fared without it?) and the bristle toothbrush. A guide to understanding the Chinese which dispels or confirms preconceived prejudices with humor and insight.

Difficult people are everywhere. Difficult people are those who frustrate us to no end. (In fact, others may view each of us as a difficult person.) We encounter difficult people at home, in the workplace, school, grocery market, anywhere. Often how much they affect us depends on our self-esteem, ability to recognize "hot buttons" and effectiveness of communication skills. Because participants will encounter difficult people in all aspects of their lives, it is important for them to learn a way of dealing with them. In this book, *Coping with Difficult People Workbook*, we teach a specific model that participants can use to build positive relationships with difficult people. The *Coping with Difficult People Workbook* contains assessments and guided self-exploration activities that can be used with a variety of populations to help participants learn to cope more effectively with difficult people. Each chapter of this workbook begins with an annotated Table of Contents with notes and examples for the facilitator. Each chapter contains two primary elements: 1) A set of assessments to help participants gather information about themselves in a focused situation, and 2) a set of guided self-exploration activities to help participants process information and learn effective ways of coping with the difficult people they encounter. Activities are

divided into four chapters to help you identify and select assessments easily and quickly: • Chapter 1: Types of Difficult People – This chapter helps participants identify and learn about the various types of difficult people they may encounter. • Chapter 2: Communicating with Difficult People – This chapter helps participants learn their strengths in communicating, and learn more effective ways of communicating with difficult people in their lives. • Chapter 3: Coping Skills – This chapter helps participants explore how well they are coping with difficult people, and learn some alternative techniques for ways to cope. • Chapter 4: Assertive Confrontation Style – This chapter helps participants explore their style in confronting difficult people, and learn effective confrontational tools and techniques. All of the guided activities are fully reproducible for use with your clients/participants.

These are the personal journals of Homer A. Plimpton, who joined the 39th Volunteer Regiment of Illinois in 1861 and rose from Private to Colonel of the regiment. On April 2nd of 1865, what remained of the 39th participated in the attack on Fort Gregg, a rebel defense position guarding Petersburg. Led by Captain Plimpton, the 39th charged the fort, which was made of earthworks in a semi-circle with a deep moat in front. The 1889 regimental history has this to say about Homer: His career as a soldier was noticeable for the unwearied attention to duty of whatever kind and was remarkable as an example of rapid and well-deserved promotion. The Dog-Gone Mystery

Forgotten Promises

What is the myth of 1776? To state it in its baldest terms: This was a time in American life when idealism was in full flower. Never have so many great men sprung from nowhere to lead a people in pursuit of liberty. In this book, New York Times bestselling historian Thomas Fleming explodes this myth by examining all the dimensions of that year - particularly the least known aspects of the common, fallible humanity of the men and women of the American Revolution. The year 1776 ended with both the Americans and the British stripped of their illusions. Both sides had been forced to abandon the myth of their invincibility and to confront the realities of human nature on the battlefield and in the struggle for allegiance to their causes. For the Americans, it had been a shock to discover that it was easy to persuade people to cheer for life, liberty, and the pursuit of happiness, but it was another matter to convince them to take large risks, to make real sacrifices for these ideals. For the British, their goal of achieving proper subordination of America to England was frustrated forever. Seventeen seventy-six was a traffic year: Americans fighting in the name of liberty persecuted and sometimes killed fellow Americans who chose to remain loyal to the old order and its more circumscribed, yet sincere, commitment to freedom. Seventeen seventy-six was a year of heroes: It brought forth the leaders who had the courage to fight for freedom. Seventeen seventy-six was a disgraceful year: Americans revealed a capacity for cowardice, disorganization, and incompetence. Here, in this masterful book, is the true story of 1776.

I can confirm that should you ever find yourself on stage playing the bass guitar with three left hands, it is usually the one in the middle that is the real one. The other two are probably phantoms. Playing the Bass with Three Left Hands tells the story of one of the most influential, revered and ultimately demented British bands of the 1980s, Spacemen 3. In classic rock n roll style they split up on the brink of their major breakthrough. As the decade turned sour and acid house hit the news, Rugby's finest imploded spectacularly, with Jason Pierce (aka Jason Spaceman) and Pete Kember (aka Sonic Boom) going their separate ways. Here, Will Carruthers tells the whole sorry story and the segue into Spiritualised in one of the funniest and most memorable memoirs committed to the page.

Flash Out of the Box

As understudy to the lead in a West End play, Charles Paris's thespian and detective skills are called upon once again when the lead is shot dead on stage on the opening night. The suspects range from a jealous wife to a bitter actor who lost his part, from the playwright who heard his beautiful lines twisted to the director who saw his work ruined.

Treasures from Our West

For an ex-cop turned private investigator, I've carved out a pretty nice life for myself. Yeah, life is good, but that doesn't stop me from seeking closure and justice for victims of the darker side of Chattanooga. Some would call me reckless. But I'm just doing it my way. These then are my stories. Book 1: On a wild December night, I found myself on the Walnut Street Bridge. Moments later I was staring down into the terrified eyes of a young woman-just seconds before she slipped through my fingers and fell to her death. Who was she? Why did she kill herself? The look on that girl's face will haunt me for the rest of my days. I had to find the answers "I read a lot of what I consider to be well written mysteries. Sue Grafton, Martha Grimes, Margret Truman, etc. This one is every bit as good and I really could not put it down." The Harry Starke series of mystery thrillers is recommended for fans of David Baldacci, James Patterson's Alex Cross, Harlan Coben's Myron Bolitar, Robert B. Parker's Spenser, John Sandford's Lucas Davenport, and Daniel Silva's Gabriel Allon.
