How to Read the Bible as Literature

This book uses the conceptual framework of animism, the belief in the spiritual qualities of nonhuman matter, to analyze representations of trauma in postcolonial fiction from Nigeria and India. *Toward an Animist Reading of Postcolonial Trauma Literature* initiates a conversation between contemporary trauma literatures of Nigeria and India on animism. As postcolonial nations move farther away from the event of decolonization in real time, the experience of trauma take place within and is generated by an increasingly precarious environment of resource scarcity, over-accelerated industrialization, and ecological crisis. These factors combine to create mixed environments marked by constantly changing interactions between human and nonhuman matter. Examining novels by authors such as Chinua Achebe, Jhumpa Lahiri, Nnedi Okorafor, and Arundhati Roy, the book considers how animist beliefs shape the aesthetic representation of trauma in postcolonial literature, paying special attention to complex metaphor and narrative structure. These literary texts challenge the conventional wisdom that working through trauma involves achieving physical and psychic integrity in a stable environment. Instead, a type of provisional but substantive healing emerges in an animist relationship between human trauma victims and nonhuman matter. In this context, animism becomes a pivotal way to reframe the process of working through trauma. Offering a rich framework for analyzing trauma in postcolonial literature, this book will be of interest to scholars of postcolonial literature, Nigerian literature and South Asian literature.

Literature: An Introduction to Theory and Analysis

Read Free Literature And Introduction To Reading And Writing 10th Edition Free Ebooks About Literature And Introduction To R

An anthology of 75 stories by an ethnically balanced group of contemporary and classic writers. The book emphasizes the writing process by focusing on taking marginal notes, keeping a journal of notes and observations, developing ideas, brainstorming and assembling materials into a coherent form.

Literature

This book provides the ideal entry-point to the process of reading, understanding, and assessing what many recognize to be the important and powerful literature of the Bible. The book introduces the tools of literary analysis, including: language and style, the formal structures of genre, character study, and thematic analysis.

Introduction to Literature

This Introduction makes available for both student, instructor, and aficionado a refined set of tools for decolonizing our approaches prior to entering the unfamiliar landscape of Native American literatures. This book will introduce indigenous perspectives and traditions as articulated by indigenous authors whose voices have been a vital, if often overlooked, component of the American dialogue for more than 400 years. Paramount to this consideration of Native-centered reading is the understanding that literature was not something bestowed upon Native peoples by the settler culture, either through benevolent interventions or violent programs of forced assimilation. Native literature precedes colonization, and Native stories and traditions have their roots in both the precolonized and the decolonizing worlds. As this far-reaching survey of Native literary contributions will demonstrate, almost without fail, when indigenous writers elected to enter into the world of western letters, they did so with the intention of maintaining indigenous culture and community. Writing was and always remains a strategy for survival.

Linguistics and English Literature

First published in 2005, *Modern Children's Literature* has established itself as an indispensable introduction to the academic study of children's literature. This collection of stimulating essays combines accessible close readings of children's texts with informed descriptions of genres, issues and critical contexts, making it an ideal practical textbook for students. The second edition of this classic work has been thoroughly revised, updated and expanded to reflect current critical debates, recent books for children and young adults, and the latest scholarship. It includes new chapters by leading names on key topics such as canon formation, psychoanalytic approaches, fantasy and technology, and features an essay on poetry by the former Children's Laureate, Michael Rosen. Supported by explanatory boxed material and suggestions for further reading, *Modern Children's Literature* remains the essential guide to this popular area of writing.

Reading the Middle Ages

Practising Theory and Reading Literature provides an accessible introduction to the study of contemporary literary theories and their applications to a range of literary texts. This is an elementary introduction where the emphasis is on practice, and in this respect it complements A Reader's Guide to Contemporary Literary Theory.

This Thing Called Literature

Studying Literature in English provides the ideal point of entry for students of English Literature. This book is an accessible guide for Literature students around the world. This book: Grounds literature and the study of literature throughout by referencing a selection of well-known novels, plays and poems Examines the central questions that readers ask when confronting literary texts, and shows how these make literary theory meaningful and necessary Links British, American and postcolonial literature into a coherent whole Discusses film as literature and provides the basic conceptual tools in order to study film within a literature-course framework Places particular emphasis on interdisciplinarity by examining the connections between the study of literature and other disciplines Provides an annotated list of further reading From principal literary genres, periods and theory, to strategies for reading, research and essay-writing, Dominic Rainsford provides an engaging introduction to the most important aspects of studying literature in English. This book is invaluable reading for anyone studying literature in English.

The Norton Introduction to Literature

★ Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue. Great literature increases knowledge of and desire for the good life by showing readers what virtue looks like and where vice leads. It is not just what one reads but how one reads that cultivates virtue. Reading good literature well requires one to practice numerous virtues, such as patience, diligence, and prudence. And learning to judge wisely a character in a book, in turn, forms the reader's own character. Acclaimed author Karen Swallow Prior takes readers on a guided tour through works of great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. In reintroducing ancient virtues that are as relevant and essential today as ever, Prior draws on the best classical and Christian thinkers, including Aristotle, Aquinas, and Augustine. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O'Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. In examining works by these authors and more, Prior shows why virtues such as prudence, temperance,

Reading the Bible as Literature

This Companion offers a multi-disciplinary approach to literature on film and television. Writers are drawn from different backgrounds to consider broad topics, such as the issue of adaptation from novels and plays to the screen, canonical and popular literature, fantasy, genre and adaptations for children. There are also case studies, such as Shakespeare, Jane Austen, the nineteenth-century novel and modernism, which allow the reader to place adaptations of the work of writers within a wider context. An interview with Andrew Davies, whose work includes *Pride and Prejudice* (1995) and *Bleak House* (2005), reveals the practical choices and challenges that face the professional writer and adaptor. The Companion as a whole provides an extensive survey of an increasingly popular field of study.

Philosophy and Literature

How does literature work? And what does it mean? How does it relate to the world: to politics, to history, to the environment? How do we analyse and interpret a literary text, paying attention to its specific poetic and fictitious qualities? This wide-ranging introduction helps students to explore these and many other essential questions in the study of literature, criticism and theory. In a series of introductory chapters, leading international scholars present the fundamental topics of literary studies through conceptual definitions as well as interpretative readings of works familiar from a range of world literary traditions. In an easy-to-navigate format, *Literature: An Introduction to Theory and Analysis* covers such topics as:

- Key definitions – from plot, character and style to genre, trope and author
- Literature's relationship to the surrounding world – ethics, politics, gender and nature
- Modes of literature and criticism – from books to performance, from creative to critical writing

With annotated reading guides throughout and a glossary of major critical schools to help students when studying, revising and writing essays, this is an essential introduction and reference guide to the study of literature at all levels

Reading Globally, K-8

A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper

literary meanings interwoven in these texts. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

Introduction to Literature

Written for an Introduction to Literature course, *Close Reading* allows students to examine the language and structure of a text, as well as the ideas or feelings it expresses, and to investigate the intricate links between form and content. It helps students to see such issues as sound and rhythm, imagery and figurative language, voice, the way characters are portrayed, the importance of setting, plot structure - all the elements that make literature 'literary' - changes the way in which they approach their study of literature. Covers poetry, fiction, and drama.

Close Reading

A brief, paperback version of the best-selling *Literature: An Introduction to Reading and Writing*, this compact edition retains all of the outstanding features of the original book. The book is dedicated throughout to the interlocking processes of reading and writing. In addition to carefully chosen literary selections, each chapter contains detailed information on and sample essays for writing about literature.

Reading: A Very Short Introduction

Classical Literature: An Introduction provides an overview of the essential aspects of Greek and Latin literature. In conjunction with contextualising introductions the material is presented chronologically, by genre and where appropriate by author. The book ranges from Homer to the Roman Empire and includes a chronology of ancient literature, maps, lists of Greek and Roman authors and suggestions for further reading. The collection will be essential for students and others who want a structured and informative introduction to the literature of the classical world.

The Cambridge Companion to Literature on Screen

A concise, teachable introductory literature anthology, with apparatus covering major literary concepts as well as writing about literature.

Reading Children's Literature

This open access book presents five different approaches to reading breath in literature, in response to texts from a range of historical, geographical and cultural environments. Breath, for all its ubiquity in literary texts, has received little attention as a transhistorical literary device. Drawing together scholars of Medieval Romance, Early Modern Drama, Fin de Siècle Aesthetics, American Poetics and the Postcolonial Novel, this book offers the first transhistorical study of breath in literature. At the same time, it shows how the study of breath in literature can contribute to recent developments in the Medical Humanities.

An Introduction to Akkadian Literature

Today many people take reading for granted, but we remain some way off from attaining literacy for the global human population. And whilst we think we know what reading is, it remains in many ways a mysterious process, or set of processes. The effects of reading are myriad: it can be informative, distracting, moving, erotically arousing, politically motivating, spiritual, and much, much more. At different times and in different places reading means different things. In this Very Short Introduction Belinda Jack explores the fascinating history of literacy, and the opportunities reading opens. For much of human history reading was the preserve of the elite, and most reading meant being read to. Innovations in printing, paper-making, and transport, combined with the rise of public education from the late eighteenth century on, brought a dramatic rise in literacy in many parts of the world. Established links between a nation's levels of literacy and its economy led to the promotion of reading for political ends. But, equally, reading has been associated with subversive ideas, leading to censorship through multiple channels: denying access to education, controlling publishing, destroying libraries, and even the burning of authors and their works. Indeed, the works of Voltaire were so often burned that an enterprising Parisian publisher produced a fire-proof edition, decorated with a phoenix. But, as Jack demonstrates, reading is a collaborative act between an author and a reader, and one which can never be wholly controlled. Telling the story of reading, from the ancient world to digital reading and restrictions today, Belinda Jack explores why it is such an important aspect of our society. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains

Literature and Understanding

Why the Good Book Is a Great Read If you want to rightly understand the Bible, you must begin by recognizing what it is: a composite of literary styles. It is meant to be read, not just interpreted. The Bible's truths are embedded like jewels in the rich strata of story and poetry, metaphor and proverb, parable and letter, satire and symbolism. Paying attention to the literary form of a passage will help you understand the meaning and truth of that passage. How to Read the Bible as Literature takes you through the various literary forms used by the biblical authors. This book will help you read the Bible with renewed appreciation and excitement and gain a more profound grasp of its truths. Designed for maximum clarity and usefulness, How to Read the Bible as Literature includes * sidebar captions to enhance organization * wide margins ideal for note taking * suggestions for further reading * appendix: "The Allegorical Nature of the Parables" * indexes of persons and subjects

Literature

Introduction to Literature; Freshman Composition, second semester, where the focus is on writing about literature. This best-selling anthology of fiction, poetry, and drama was the first to interlock the processes of reading literature and writing about literature. In addition to carefully chosen literary selections, each chapter contains detailed information on and demonstrative essays for writing about literature and increased and updated coverage of research and MLA documentation.

Modern Children's Literature

Read Free Literature And Introduction To Reading And Writing 10th Edition Free Ebooks About Literature And Introduction To R

Understanding Literature is an innovative anthology and technology package representing the next generation of literary pedagogy for introduction to literature and literature for composition courses. Built on a balanced foundation of canonical and nontraditional reading selections, this text includes discussions of the formal literary elements--and then goes a step further to integrate relevant and accessible coverage of contemporary criticism within each genre. This unique, integrated coverage of contemporary critical approaches (such as feminist theory, psychoanalytic theory, and postcolonial theory) offers students a richer, more engaging introduction to reading critically and writing about literature. Other anthologies offer minimal theoretical coverage in a separate chapter or appendix, typically sidestepping the larger issues the theories raise. The integrated technology package, complete with CD-ROM and accompanying web site, takes advantage of multimedia resources to enhance the study of literature with visual aids, audio and video files, additional primary and secondary texts, and other materials that help place literature within the broader contexts of history and culture. Engaging, creative table of contents balances familiar authors and literary works with more adventurous and diverse selections, exposing students to a broad range of literature and providing instructors with great flexibility in designing their courses. Critical Perspectives offer concise, insightful discussions of how literary and cultural theories are used to explore meaning in literature. Throughout the anthology casebooks, excerpts from classic and contemporary critical essays, and in-text discussions offer students accessible yet critical perspectives into how literary theory can facilitate a deeper understanding of literary texts. The fiction and drama sections feature brief in-text discussions and excerpts from literary critics. Critical Perspectives can also be used as a springboard for class discussion and writing. In-depth treatment of Featured Writers in each section allows more focused study of a single writer. This feature includes multiple reading selections showing the range of the writer's work, more extensive biographical information, and additional materials on the CD-ROM and web site. Writers highlighted include James Baldwin, Virginia Woolf, Salman Rushdie, John Keats, Gwendolyn Brooks, Anne Sexton, and William Shakespeare. Two unique interdisciplinary chapters (The Beat Movement and Performative Poetics) focus on the spoken and performed aspects of literature. Coverage includes several works from key writers in both movements as well as discussions of how these movements use a mixture of media--language, film, jazz, photography, and art--to showcase their work and provide social and political commentary. Unique poetry casebooks allow students to explore certain themes or topics in depth, such as Poetry and Social Activism Between the Wars, Poetry, Trauma, and Testimony: Holocaust Verses, Postmodern Poetics, Chicano/a Poetry, and Native American Poetry. Emphasis on cultural perspectives reflects the increased desire to view the study of literature through the lens of culture. Reading selections, section introductions, questions for discussion, writing assignments, and other apparatus encourage students to view literature from different cultural perspectives. Thorough coverage of reading and writing about literature shows students how to read each genre and craft effective essays. Annotated student papers serve as models of good student writing, and a separate section teaches students how to conduct research and incorporate other sources into their writing. An abundance of visual text--such as photos, art, and drawings--help students place literary works in broader contexts.

Literature

This undergraduate textbook introduces English literature students to the application of linguistics to literary analysis.

How to Read Literature

Philosophy and Literature aims to introduce clearly and concisely not only the central philosophical questions concerning the reading and interpretation of literature, but also the possible cross-fertilisations between philosophy and literature. It explores the ways in which philosophy pursues questions relating to the nature and value of literature, while literary analyses can show how philosophy's modes of persuasion are in seeming conflict with its self-definition as the discourse of pure and untainted reason. Examples both from literature and philosophy are the main vehicles for the development of the argument. The main aspects of the field of philosophy and literature are outlined, and we see the reasons why Plato divided philosophy and literature and banished literature from his ideal state, and how Aristotle answered Plato's criticisms of literature. The philosophical characteristic of wanting to define phenomena takes us into different ways of defining literature. This book also investigates the nature of interpretation and its sources of authority, how literary forms can be read as vehicles for the development of philosophical problems, and how different philosophical forms can be analysed as using typically literary means in order to persuade readers. The question of whether it is warranted or useful to maintain the distinction between philosophy and literature is addressed.

Reading Breath in Literature

Understanding Literature

Originally published in 1984, *Reading the Romance* challenges popular (and often demeaning) myths about why romantic fiction, one of publishing's most lucrative categories, captivates millions of women readers. Among those who have disparaged romance reading are feminists, literary critics, and theorists of mass culture. They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture. Radway questions such claims, arguing that critical attention "must shift from the text itself, taken in isolation, to the complex social event of reading." She examines that event, from the complicated business of publishing and distribution to the individual reader's engagement with the text. Radway's provocative approach combines reader-response criticism with anthropology and feminist psychology. Asking readers themselves to explore their reading motives, habits, and rewards, she conducted interviews in a midwestern town with forty-two romance readers whom she met through Dorothy Evans, a chain bookstore

employee who has earned a reputation as an expert on romantic fiction. Evans defends her customers' choice of entertainment; reading romances, she tells Radway, is no more harmful than watching sports on television. "We read books so we won't cry" is the poignant explanation one woman offers for her reading habit. Indeed, Radway found that while the women she studied devote themselves to nurturing their families, these wives and mothers receive insufficient devotion or nurturance in return. In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect. The heroines admired by Radway's group defy the expected stereotypes; they are strong, independent, and intelligent. That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do, Radway argues, with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance. These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading tastes. In fact, women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture. Paradoxically, the books that they read make conventional roles for women seem desirable. It is this complex relationship between culture, text, and woman reader that Radway urges feminists to address. Romance readers, she argues, should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination. In a new introduction, Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations.

Reading the Romance

Literature and Understanding investigates the cognitive gain from literature by focussing on a reader's close analysis of a literary text. It examines the meaning of 'literature', outlines the most prominent positions in the literary cognitivism debate, explores the practice of close reading from a philosophical perspective, provides a fresh account of what we mean by 'understanding' and in so doing opens up a new area of research in the philosophy of literature. This book provides a different reply to the challenge that we can't learn anything worthwhile from reading literary fiction. It makes the innovative case that reading literary fiction as literature rather than as fiction stimulates five relevant senses of understanding. The book uses examples of irony, metaphor, play with perspective and ambiguity to illustrate this contention. Before arguing that these five senses of understanding bridge the gap between our understanding of a literary text and our understanding of the world beyond that text. The book will be of great interest for researchers, scholars and post-graduate students in the fields of aesthetics, literary theory, literature in education and pedagogy.

The Routledge Introduction to Native American Literature

Read Free Literature And Introduction To Reading And Writing 10th Edition Free Ebooks About Literature And Introduction To R

What is this thing called literature? Why should we study it? And how? Relating literature to topics such as dreams, politics, life, death, the ordinary and the uncanny, this beautifully written book establishes a sense of why and how literature is an exciting and rewarding subject to study. Bennett and Royle delicately weave an essential love of literature into an account of what literary texts do, how they work and what sort of questions and ideas they provoke. The book's three parts reflect the fundamental components of studying literature: reading, thinking and writing. The authors use helpful, familiar examples throughout, offering rich reflections on the question 'What is literature?' and on what they term 'creative reading'. Bennett and Royle's lucid and friendly style encourages a deep engagement with literary texts. This book is not only an essential guide to the study of literature, but an eloquent defence of the discipline.

Reading Goethe

This book initiates the reader into the study of Akkadian literature from ancient Babylonia and Assyria. With this one relatively short volume, the novice reader will develop the literary competence necessary to read and interpret Akkadian texts in translation and will gain a broad familiarity with the major genres and compositions in the language. The first part of the book presents introductory discussions of major critical issues, organized under four key rubrics: tablets, scribes, compositions, and audiences. Here, the reader will find descriptions of the tablets used as writing material; the training scribes received and the institutional contexts in which they worked; the general characteristics of Akkadian compositions, with an emphasis on poetic and literary features; and the various audiences or users of Akkadian texts. The second part surveys the corpus of Akkadian literature defined inclusively, canvassing a wide spectrum of compositions. Legal codes, historical inscriptions, divinatory compendia, and religious texts have a place in the survey alongside narrative poems, such as the Epic of Gilgamesh, Enuma elish, and Babylonian Theodicy. Extensive footnotes and a generous bibliography guide readers who wish to continue their study. Essential for students of Assyriology, An Introduction to Akkadian Literature will also prove useful to biblical scholars, classicists, Egyptologists, ancient historians, and literary comparativists.

The Bedford Introduction to Literature

In this lively discussion Kim Reynolds looks at what children's literature is, why it is interesting, how it contributes to culture, and how it is studied as literature. Providing examples from across history and various types of children's literature, she introduces the key debates, developments, and people involved.

Classical Literature

Literature

'Literature, Compact', fourth edition, is organized into three genres: fiction, poetry, and drama. As in past editions, the authors' collective poetic voice aims to bring personal warmth and a human perspective to the discussion of literature, adding to students' interest in the readings.
