Pistol Marksmanship

Congressional Record

Marines must have the versatility, flexibility, and skills to deal with any situation at any level of intensity across the entire range of military operations. Whenever the situation warrants the application of deadly force, a Marine must be able to deliver well-aimed shots to eliminate the threat. A Marine who is proficient in pistol marksmanship handles this challenge without escalating the level of violence or causing unnecessary collateral damage. It is not enough to simply provide Marines with the best available firearms; we must also ensure that their training prepares them to deliver accurate fire against the enemy under the most adverse conditions without hesitancy, fear, or uncertainty of action. A well-trained Marine is confident that he can protect himself, accomplish the mission, and protect his fellow Marines. To be combat ready, a Marine must be skilled in the tactics, techniques, and procedures of pistol marksmanship and diligent in the proper care and maintenance of the M-9, 9-mm service pistol. Marine Corps Reference Publication. Pistol Marksmanship, is the Marine Corps' source document for pistol marksmanship and provides the doctrinal basis for Marine Corps pistol marksmanship training. This publication provides all Marines armed with a pistol with the tactics, techniques, and procedures for range and field firing the M-9, 9-mm service pistol.

Marine Review

"Required Reading" Marine Corps Professional Reading Program Bluejacket Paperback Book Series In this riveting insider's chronicle, legendary Marine General "Brute" Krulak submits an unprecedented examination of U.S. Marines--their fights on the battlefield and off, their extraordinary esprit de corps. Deftly blending history with autobiography, action with analysis, and separating fact from fable, General Krulak touches the very essence of the Corps: what it means to be a Marine and the reason behind its consistently outstanding performance and reputation. Krulak also addresses the most basic but challenging question of all about the Corps: how does it manage to survive--even to flourish--despite overwhelming political odds and, as the general writes, "an extraordinary propensity for shooting itself in the foot?" To answer this question Krulak examines the foundation on which the Corps is built, a system of intense loyalty to God, to country, and to other Marines. He also takes a close look at Marines in war, offering challenging accounts of their experiences in World War II, Korea, and

Vietnam. In addition, he describes the Corps's relationship to other services, especially during the unification battles following World War II, and offers new insights into the decision-making process in times of crisis. First published in hardcover in 1984, this book has remained popular ever since with Marines of every rank.

Warfighting is an authentic American philosophy of action that will thrill the millions of fans of SunTzu's The Art of War and Musashi's The Book of Five Rings. This modern classic of strategy and philosophy is the quintessential guide to prevailing in competitive situations, be it war, work, play, or daily living. Sometimes life is war and sometimes business is war and sometimes you need to call in the Marines. Over the past two hundred years, the Marines have developed a reputation for getting the job done—fearlessly, boldly, and taking no prisoners. What better role model for the hidden warriors in ourselves? What better advice to call on when the stakes are high and sensitivity just isn't going to work? Written in 1989 as a philosophical and strategic guide-book for the US Marine Corps, Warfighting is a worthy successor to SunTzu's The Art Of War. With clarity, brevity, and wisdom, it describes the basic forces at work in every competitive situation whether on the field of battle, in the boardroom, or in the courtroom. With twentieth-century technology and its emphasis on speed and versatility, the rules of war and competition have changed. Warfighting's exploration of maneuver warfare takes readers beyond Sun Tzu's classic lessons and provides them a more thorough understanding of what it takes to fight and win in the modern world. Currency's edition of Warfighting features interviews with famous former Marines including F. Lee Bailey, Ed

McMahon, and Donald Regan. They tell how they have used the Marine Corps' battle strategies of strength and straightforwardness as their secret weapons in every confrontation, whether at a corporate, departmental, or personal level.
