According to Kotler

According to Kotler distills the essence of marketing guru Philip Kotler's wisdom and years of experience into question and answer format. Marketing Management Asian Perspective

With the fall of the Berlin Wall, one economic model emerged triumphant. Capitalism—spanning a spectrum from laissez faire to authoritarian—shapes the market economies of all the wealthiest and fastest-growing nations. But trouble is cracking its shiny veneer. In the U.S., Europe, and Japan, economic growth has slowed down. Wealth is concentrated in the hands of a few; natural resources are exploited for short-term profit; and good jobs are hard to find. With piercing clarity, Philip Kotler explains 14 major problems undermining capitalism, including persistent poverty, job creation in the face of automation, high debt burdens, the disproportionate influence of the wealthy on public policy, steep environmental costs, boom-bust economic cycles, and more. Amidst its dire assessment of what's ailing us, *Confronting Capitalism* delivers a heartening message: We can turn things around. Movements toward shared prosperity and a higher purpose are reinvigorating companies large and small, while proposals abound on government policies that offer protections without stagnation. Kotler identifies the best ideas, linking private and public initiatives into a force for positive change. Combining economic history, expert insight, business lessons, and recent data, this landmark book elucidates today's critical dilemmas and suggests solutions for returning to a healthier, more sustainable Capitalism—that works for all.

Bronze winner of the AXIOM Business Book Award in the category of Philanthropy, Non-Profit, Sustainability. Please see: <http://www.axiomawards.com/77/award-winners/2017-winners> This easy-to-read and engaging book is the perfect introduction to how to build a sustainable brand for your organization. Intended as a roadmap that can be readily applied by busy managers and practitioners, the

book includes interviews with business leaders, including Paul Polman of Unilever, Adam Elman of Marks & Spencer, and Jonas Prising of ManpowerGroup to provide insight into best practice and clear guidance for implementation. Throughout, the book avoids jargon and theorizing to ensure readability. Business on a Mission is based on more than a decade working with some of the first businesses to develop social missions and shows the foundations behind their success. It looks at how businesses can profit from working hand in hand with society and identifies a model for success. The book demonstrates how businesses can go from hiding behind "social shields" to picking up "social swords" and presents the six criteria to look for in assessing a social mission. It also focuses on how good communications can build trust and bring about positive change; and it provides clear ways to engage employees and improve productivity as well as "rules" for communicating social missions externally. This optimistic book explains the benefits of partnerships in the sustainable development agenda, particularly between businesses and NGOs. The book features guidelines for avoiding dysfunctional partnerships, and presents interviews with Marc Van Ameringen, Executive Director of GAIN (Global Alliance for Improved Nutrition) 2005 to 2016, and Myriam Sidibe, Social Mission Director for Africa, Unilever, on how things can be managed to the benefit of both partners. .
