A colorful history of US research universities, and a market-based theory of their global success. American education has its

share of problems, but it excels in at least one area: university-based research. That's why American universities have produced more Nobel Prize winners than those of the next twenty-nine countries combined. Economist Miguel Urquiola argues that the principal source of this triumph is a free-market approach to higher education. Until the late nineteenth century, research at American universities was largely an afterthought, suffering for the same reason that it now prospers: the free market permits institutional self-rule. Most universities exploited that flexibility to provide what well-heeled families and church benefactors wanted. They taught denominationally appropriate materials and produced the next generation of regional elites, no matter the students'—or their instructors'—competence. These schools were nothing like the German universities that led the world in research and advanced training. The American system only began to shift when certain universities, free to change their business model, realized there was demand in the industrial economy for students who were taught by experts and sorted by talent rather than breeding. Cornell and Johns Hopkins led the way, followed by Harvard, Columbia, and a few dozen others that remain centers of research. By the 1920s the United States was well on its way to producing the best university research. Free markets are not the solution for all educational problems. Urquiola explains why they are less successful at the primary and secondary level, areas in which the United States often lags. But the entrepreneurial spirit has certainly been the key to American leadership in the research sector that is so crucial to economic success.

The collapse of empires has resulted in a greater appreciation for indigenous cultures in former colonies and a renaissance of creativity. More than 150 alphabetically arranged entries by expert contributors overview and assess the effects of globalization on literary and cultural studies in the 21st century. Attempting to counter what some have seen as the anglophone bias of postcolonial studies, the volume emphasizes the common heritage of resistance in francophone, hispanophone, and other literatures, including the literatures of nonEuropean postimperial states.

Exploring the prevalence of madness in Caribbean texts written in English in the mid-twentieth century, Kelly Baker Josephs focuses on celebrated writers such as Jean Rhys, V. S. Naipaul, and Derek Walcott as well as on understudied writers such as Sylvia Wynter and Erna Brodber. Because mad figures appear frequently in Caribbean literature from French, Spanish, and English traditions—in roles ranging from bit parts to first-person narrators—the author regards madness as a part of the West Indian literary aesthetic. The relatively condensed decolonization of the anglophone islands during the 1960s and 1970s, she argues, makes literature written in English during this time especially rich for an examination of the function of madness in literary critiques of colonialism and in the Caribbean project of nation-making. In drawing connections between madness and literature, gender, and religion, this book speaks not only to the field of Caribbean studies but also to colonial and postcolonial literature in general. The volume closes with a study of twenty-first-century literature of the Caribbean diaspora, demonstrating that Caribbean writers still turn to representations of madness to depict their changing worlds.

### **Annual Report**

One of the finest living writers in the English language, V. S. Naipaul gives us a tale as wholly unexpected as it is affecting, his first novel since the exultantly acclaimed *A Way in the World*, published seven years ago. *Half a Life* is the story of Willie Chandran, whose father, heeding the call of Mahatma Gandhi, turned his back on his brahmin heritage and married a woman of low caste—a disastrous union he would live to regret, as he would the children that issued from it. When Willie reaches manhood, his flight from the travails of his mixed birth takes him from India to London, where, in the shabby haunts of immigrants and literary bohemians of the 1950s, he contrives a new identity. This is what happens as he tries to defeat self-doubt in sexual adventures and in the struggle to become a writer—strivings that bring him to the brink of exhaustion, from which he is rescued, to his amazement, only by the love of a good woman. And this is what happens when

he returns with her—carried along, really—to her home in Africa, to live, until the last doomed days of colonialism, yet another life not his own. In a luminous narrative that takes us across three continents, Naipaul explores his great theme of inheritance with an intimacy and directness unsurpassed in his extraordinary body of work. And even as he lays bare the bitter comical ironies of assumed identities, he gives us a poignant spectacle of the enervation peculiar to a borrowed life. In one man's determined refusal of what he has been given to be, Naipaul reveals the way of all our experience. As Willie comes to see, "Everything goes on a bias. The world should stop, but it goes on." A masterpiece of economy and emotional nuance, *Half a Life* is an indelible feat of the imagination. From the Hardcover edition.

### **The House on Mango Street**

To the residents of Miguel Street, a derelict corner of Trinidad's capital, their neighbourhood is a complete world, where everybody is quite different from everybody else. There's Popo the carpenter, who neglects his livelihood to build "the thing without a name;" Man-man, who goes from running for public office to staging his own crucifixion; Big Foot, the dreaded bully with glass tear ducts; and the lovely Mrs. Hereira, in thrall to her monstrous husband. Their lives (and the legends their neighbours construct around them) are rendered by V. S. Naipaul with Dickensian verve and Chekhovian compassion in this tender, funny novel.

### **Serial set (no.4001-4500)**

The first major biography of V.S. Naipaul, the controversial and enigmatic Nobel laureate: a stunning writer whose only stated ambition was greatness, in pursuit of which goal nothing else was sacred. Beginning in rich detail in Trinidad, where Naipaul was born into an Indian family, Patrick French skillfully examines Naipaul's life within a displaced community and his fierce ambition at school. He describes how, on scholarship at Oxford, homesickness and depression struck with great force; the ways in which Naipaul's first wife helped him to cope and their otherwise fraught marriage; and Naipaul's struggles throughout subsequent uncertainties in England, including his twenty-five-year-long affair. Naipaul's extraordinary gift—producing, uniquely, masterpieces of both fiction and nonfiction—is most of all born of a forceful, visionary impulse, whose roots French traces with a sympathetic brilliance and devastating insight. From the Trade Paperback edition.

Of The World, Makes Him A Highly Controversial Writer. The first of Naipaul's twelve novels tells of the meteoric rise and hilarious metamorphosis of Ganesh Ramsumair from failed primary schoolteacher and struggling masseur to author, revered mystic, peerless politician and the most popular man in Trinidad. From the Trade Paperback edition.

### **Civil Report,**

Miguel Street, V. S. Naipaul's first written work of fiction, is set in a derelict corner of Port of Spain, Trinidad, during World War Two and is narrated by an unnamed, precociously observant neighbourhood boy. We are introduced to a galaxy of characters, from Popo the carpenter, who neglects his livelihood to build 'the wild thing without a name', to Man-man, who goes from running for public office to staging his own crucifixion, and the dreaded Big-Foot, the bully with glass tear ducts. As well as the lovely Mrs Hereira, in thrall to her monstrous husband. V. S. Naipaul writes with prescient wisdom and crackling wit about the lives and legends that make up Miguel Street: a living theatre, a world in microcosm, a cacophony of sights, sounds and smells - all seen through the eyes of a fatherless boy. The language, the idioms and the observations are priceless and timeless and Miguel Street overflows with life on every page. This is an astonishing novel about hope, despair, poverty and laughter; and an enchanting and exuberant tribute to V. S. Naipaul's childhood home.

### **Here and Elsewhere**

The present volume is a highly comprehensive assessment of the postcolonial short story since the thirty-six contributions cover most geographical areas concerned. Another important feature is that it deals not only with exclusive practitioners of the genre (Mansfield, Munro), but also with well-known novelists (Achebe, Armah, Atwood, Carey, Rushdie), so that stimulating comparisons are suggested between shorter and longer works by the same authors. In addition, the volume is of interest for the study of aspects of orality (dialect, dance rhythms, circularity and trickster figure for instance) and of the more or less conflictual relationships between the individual (character or implied author) and the community. Furthermore, the marginalized status of women emerges as another major theme, both as regards the past for white women settlers, or the present for urbanized characters, primarily in Africa and India. The reader will also have the rare pleasure of discovering

Janice Kulik Keefer's "Fox," her version of what she calls in her commentary "displaced autobiography" or "creative non-fiction." Lastly, an extensive bibliography on the postcolonial short story opens up further possibilities for research.

#### **V.S. Naipaul, Man and Writer**

For the first time: the Nobel Prize winner's stunning short fiction collected in one volume, with an introduction by the author. Over the course of his distinguished career, V. S. Naipaul has written a remarkable array of short fiction that moves from Trinidad to London to Africa. Here are the stories from his Somerset Maugham Award-winning *Miguel Street*, in which he takes us into a derelict corner of Trinidad's capital to meet, among others, Man-Man, who goes from running for public office to staging his own crucifixion. The tales in *A Flag on the Island*, meanwhile, roam from a Chinese bakery in Trinidad to a rooming house in London. And in the celebrated title story from the Booker Prize-winning *In a Free State*, an English couple traveling in an unnamed African country discover, under a veneer of civilization, a landscape of squalor and ethnic bloodletting. No writer has rendered our postcolonial world more acutely or prophetically than V. S. Naipaul, or given its upheavals such a hauntingly human face.
