In an era in which the EU's influence in criminal law matters has expanded rapidly, attention has recently turned to the possible creation of a European Public Prosecutor's Office. This two volume work presents the results of a study carried out by a group of European criminal law experts in 2010-2012, with the financial support of the EU Commission, whose aims were to examine in detail current public prosecution systems in the Member States and to scrutinise proposals for a new European office. Volume 1 begins with thorough descriptions of 20 different national legal systems of investigation and prosecution, addressing a range of evidential and procedural safeguards. These will serve as a point of reference for all future research on public prosecutors. Volume 1 also contains a series of cross-cutting studies of the key issues that will inform debates about the creation of a European Public Prosecutor's Office, including studies of vertical cooperation in administrative investigations in subsidy and competition cases, the accession of the EU to the ECHR, judicial control in cooperation in criminal matters, mutual recognition and decentralised enforcement of European competition law. Volume 2 (which will be published in 2013) presents a draft set of model rules for the

procedure of the European Public Prosecutor's Office and continues with a set of comparative studies of the national legal systems that cover the gathering of evidence, seizure of assets, arrests, tracking and tracing, prosecution measures, procedural safeguards, the presumption of innocence and the right to silence, access to the file and victim reconciliation. Volume 2 concludes with the final report, written by Professor Ligeti, summarising the findings of the group and reporting on the prospects for the proposed reform.

Debates about freedom, an ideal continually contested, were first set out in their modern version by the eighteenth-century French philosopher Jean-Jacques Rousseau. His ideas and analyses were taken up during the philosophical enlightenment, often invoked during the French Revolution, and still resonate in contemporary discussions of freedom. This volume, first published in 2010, examines Rousseau's many approaches to the concept of freedom, in the context of his thought on literature, religion, music, theater, women, the body, and the arts. Its expert contributors cross disciplinary frontiers to develop thought-provoking new angles on Rousseau's thought. By taking freedom as the guiding principle of their analysis, the essays form a cohesive account of Rousseau's writings.

No matter how healthy you are, at some point you will encounter the confusion that is the health care system. While there are plenty of books tackling the health care system from an academic or political perspective, few consider it from a personal-but-objective viewpoint, and none illustrate its ins and outs with the

clever clarity and imaginative humor that *The Ninjja Sutra* does. Reading like a narrative, the story follows Ninjja, a woman who believes she benefits from the "always stay fit" genes of her mother, as she begins to experience unexpected health issues. Not wanting to bother with doctors, she tries to find solutions on her own. Meanwhile, her father, who has a weak physical disposition, blindly trusts anyone wearing a white coat and embraces the system with open arms. As destiny forces Ninjja to face the health care system, she begins to see it as a drama played by comical characters, but is surprised to learn how the behind-the-scenes crew plays an even bigger role than the more familiar cast. Blending comedy with pathos, *The Ninjja Sutra* exposes the health care ecosystem while offering practical, bite-sized advice on how to use it to your advantage and how make it better, one thing at a time.

Police Investigation - Powers, Tactics and Techniques (Vol 1 and 2 combined)

Acting on an abstruse tip-off from the reknowned paraphysiologist Dr Rupert Gilhooly, Bernice Summerfield has found herself on a probe-ship heading deep into the Problematic Heart of the galaxy—not knowing what, or quite who, she might find. What she finds is Station Control. A place that exists, simultaneously, in 417 dimensions, a brawling, souk-like Nexus between every world that can, or has, or ever will be. And one of those dimensions is Hell. Bernice knows nothing of the rivalries and power-plays going on here. So she blunders right into them and makes a complete hash of everything, natch.

With Sithannan's book 'Police Investigation-Powers, Tactics and Techniques', every

Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over the state of Tamil Nadu. In his present work titled 'Police Investigation: Powers, Tactics and Techniques', the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases during the period 1965-2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, "Arrest", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom, as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.
