### **Divided We Fall**

The Second American Civil War Has Begun! The deck is stacked against twenty-nine-year-old Ava. She's a fighter, but she's got trust issues and doesn't always make the best decisions. Her personal complications aren't without merit, but America is on the verge of a second civil war, and Ava must pull it together if she wants to survive. The tentacles of the deep state have infiltrated every facet of American culture. The public education system, entertainment industry, and mainstream media have all been hijacked by a shadow government intent on fomenting a communist revolution in the United States. The antagonistic message of this agenda has poisoned the minds of America's youth who are convinced that capitalism and conservatism are responsible for all the ills of the world. Violent protest, widespread destruction, and politicians who insist on letting the disassociated vent their rage will bring America to her knees, threatening to decapitate the laws, principles, and values on which the country was founded. The revolution has been well-planned, but the socialists may have underestimated America's true patriots who refuse to give up without a fight. Ava's had a hard life . . . and it's about to get a whole lot tougher! Ava has just lost her adoptive mother to cancer. She has no idea who her biological father is and her adoptive dad walked out on his family for the sweet young thing at the office fifteen years ago. With such a long history of loss and abandonment, it's understandable why she's hesitant to put her faith in people. Ava refuses to give in to fear, but she simply cannot survive on her own. She must deal with her crisis of faith and learn to trust others, or she'll never make it through the bloodiest period of America's history. Don't miss this chilling tale of America's Civil War 2.0! As with all books by Mark Goodwin, this book contains no profanity and no embarrassing sex scenes. However, if you're offended by conservative principles and references to Scripture, this book might not be for you.

## **Haroldsville**

Contemporary American horror literature for children and young adults has two bold messages for readers: adults are untrustworthy, unreliable and often dangerous; and the monster always wins (as it must if there is to be a sequel). Examining the young adult horror series and the religious horror series for children (Left Behind: The Kids) for the first time, and tracing the unstoppable monster to Seuss's Cat in the Hat, this book sheds new light on the problematic message produced by the combination of marketing and books for contemporary American young readers.

A small survivor community in a dystopian America wages an internal war on itself when the residents disagree what is best for their future. \*\*\* In rural Kentucky, one hundred and sixty-one survivors of the apocalyptic Great Rains huddle inside a one-block, walled off section of town: a place they call Outpost. It has been two years since the toxic rains fell. The people

of Outpost have managed to survive by working together, scavenging food from empty homes and businesses, guarding one another while they sleep. They have persevered through their worst nightmare--or so they believed. But now a stranger has come to their community and offered them a choice: they can come with him and go to war with those responsible for destroying the world. Or they can do nothing and hope some other community has the courage to do what they can't. They've already suffered greater than they believed was possible, but many of them still want to fight. Others are skeptical. They don't believe the stranger's story and want nothing to do with furthering their own misery. They like things just the way they are and they'll fight to keep it that way. Even if that fight is with those they call friend and neighbor.

Deeper knowledge of Cryos is unearthed and Ayelan becomes a catalyst unlike any other. The chemicals stir to unlock strange possibilities, new realities. Uncharted territory awaits them, but not with open arms. Blague's world is flipped. His past returns from death, and it's too much to bear. Sanity slips from his grasp. How far can someone fall when everything that is known becomes unraveled? The journey will not be easy. It will not be calm. And it will redefine everything.

## **Notes, explanatory and practical, on the New Testament. ed. by R. Frew**

I never thought I'd have a bounty on my head the size of the Milky Way. Of course, I never thought I'd be able to bend time, either. But hey, life is full of surprises. Don't get me wrong, feeling like a goddess has its perks, but those perks come with a hefty price. My brain is tapioca. I'm stranded in the middle of dead space. Ratters are using me for target practice, and a giant, cybernetic monster named Oscar is trying to make me his chew toy. All this because I played superhero (or thief, according to some) and snatched a doomsday device from an intergalactic mobster. So if I don't make it out of here alive, remember this: Above all else, I want a Viking funeral. If you love Firefly, can't get enough of Doctor Who, or think the idea of a female Indiana Jones scouring the galaxy for precious artifacts with a gigantic tiger at her side sounds like it could be a lot of fun, then this is the book for you. Grab your copy today! (Publisher is not responsible for any lack of sleep due to the witty humor, lovable and memorable characters, and constant twists and turns that are contained within.)

## **Zompoc Survivor**

Readers will feel they know someone just like the characters in this timely novel on social status and social media. Steen Sand, CEO of Stensure Networks, is the head honcho at an IT firm that's developed an Internet service to monitor, compute, and publish people's social status. His chief operating officer, Irene Lund, serves as his muse. He needs her to be part of his world, or he can't achieve anything of significance. But does she feel the same? Chief financial officer, Michael Jensen, is a hard-core pessimist who has learned the hard way not to speak up against the status quo, in spite of his natural inclination to do so. Jensen's a numbers guy. He relates to spreadsheets better than he does to people. Will this cost him in the end? Louise Hald, chief marketing officer, joined Stensure's management team after leaving her post as an assistant professor at a business school. She's beginning to wonder if she'll ever move past the "assistant" part in the eyes of her coworkers. What can she do to ensure she gets ahead? And then there's Sophie Bech. She's made the long trip back to Denmark from South Africa for her own private reasons, and everything looks different to her now. She wonders what her return will hold for her. Was it a mistake? Will her fresh set of eyes-and values-help or hinder the team? Reductionism-understanding complex things by reducing them to fundamental parts and interactions-comes up against social status, so subtle, intricate, and sought-after, in this intriguing modern-day novel. Will these characters-and their supporting players-make the changes they need to survive in today's world? Or will they succumb to the allure of using easy but underhanded methods to get ahead?

## **Notes, Explanatory and Practical, on the Book of Revelation**

## **Library of Biblical and Theological Literature**

In this volume, Douglas Yoder uses the tools of modern and postmodern philosophy and biblical criticism to elucidate the epistemology of the Tanakh, the collection of writings that comprise the Hebrew Bible. Despite the conceptual sophistication of the Tanakh, its epistemology has been overlooked in both religious and secular hermeneutics. The concept of revelation, the genre of apocalypse, and critiques of ideology and theory are all found within or derive from epistemic texts of the Tanakh. Yoder examines how philosophers such as Spinoza, Hume, and Kant interacted with such matters. He also explores how the motifs of writing, reading, interpretation, image, and animals, topics that figure prominently in the work of Derrida, Foucault, and Nietzsche, appear also in the Tanakh. An understanding of Tanakh epistemology, he concludes, can lead to new appraisals of religious and secular life throughout the modern world.

### **The opening of the sealed book in the Apocalypse shewn to be a symbol of a future republication of the Old Testament**

Jerry D Young was born at home, in Senath, Missouri July 3, 1953. At age 5 the family rented a small farm house on an active farm 40 miles southwest of St. Louis. While the family weren't farmers, they lived something of a homestead type life, raising a milk cow, sometimes two, and calves, a pig or two, chickens, and the occasional goat. Along with the stock, a large garden helped to feed Jerry's three brothers and two sisters for several years. Fishing and hunting contributed to the pantry, as did foraging the wild edibles on the property. At the age of 14, the family, minus a brother and two sisters that were now adults and on their own, moved back to Senath. Having been encouraged from an early age to read, Jerry was a regular patron of the Senath Branch Library. A love of a good story was born within him, and shortly before graduating high school, for a lack of stories that he liked at the library, he began to write short vignettes, and started taking notes for stories that he wanted to tell. Well, a full life interceded, and the writing didn't resume for several years. But while working a job with a much free time, and the then newfangled home computer, Jerry began to write in earnest. With the occasional gap in the process, Jerry continued to research and write, never believing he could ever be published. But when he turned 50, he wanted a change in his life, left the job he was doing and began focusing on his writing. When he became ill, the writing stopped, but not the inspiration. When he started writing again, in 2004, after getting the medical problems under control, he began to read some on-line stories dealing with emergency preparedness, one of his other loves. The die was cast. Now with over a hundred of the vignettes and short stories about how to survive disasters written, along with his other novels, Jerry decided to go for broke, adding one of his previous works every few days to his list of stories now available, Jerry continues to write, both the Prep/PAW stories, as well as action adventure with a little romance type stories that first got him started.

Good news is scarce and so people hold onto this promise of 'help' like a life preserver since that may be what it will be to them. Meanwhile a certain element of criminals is exploding and no one knows what to do with them. Every day the newspaper reveals new horrors. Victims rise along with the perpetrators. It is obvious the battle between good and evil is heating up. It is no longer popular to believe, to have faith or profess your Christianity. It is a time when all that matters to most is what they want for themselves. Selfishness is running rampant and cold hearts and lack of love and conscience are evident. One solution found is going to pull most down to the level of those doing this evil. As has been said is all evil needs to succeed is for good men to do nothing.
