The Complete Guide to Beagles

Science with the Hubble Space Telescope

You may not be aware of it, but being a young child can be dangerous. Children under the age of five – babies, toddlers and preschoolers – are injured and treated in hospital emergency rooms almost twice as frequently as the U.S. population five and older (on a per capita basis). Each year, approximately 1 in 11 children under age five are treated in hospital emergency rooms for injuries. And for every 2 young children treated in the ER, 3 are treated in doctors' offices and clinics. Although there are many ways in which a young child can get injured, in the overwhelming majority of cases, there is one common and consistent element – a parent or caregiver did not recognize the danger involved. Child safety is different from many other aspects of parenting. The way a young child interacts with his environment – the home, furniture and fixtures, baby products – must be fully understood in order to make his environment safe. Fortunately, most injuries are easily preventable when parents learn the child safety basics and become aware of the many subtle and unforeseen dangers facing their children. The Child Safety Guide for New and Expecting Parents enables parents and caregivers to learn about these important and critical elements essential for providing a safe environment for their children. Topics covered include childproofing, car seat selection, use and installation, child products, product recalls and hazards – water, choking, window, poison – which face our children daily. The content was selected to provide the most important information available to keep young children safe and focuses on safety issues for children from 0 to 5 years of age. The book was designed and organized for the sleep deprived and over-worked parent. We have used a larger than normal type face to go easy on the eyes (sleep deprived eyes) and have included many illustrations to visually portray safety concepts. The use of this book can and will go a long way in helping to reduce the many avoidable child injuries that occur daily throughout the U.S.

Toy Buying Guide

The timeless New York Times bestselling guide to parenting that shows the power of inspiring values through example. A unique handbook to raising children with a

compassionate, steady hand—and to giving them the support and confidence they need to thrive. Expanding on her universally loved poem “Children Learn What They Live,” Dorothy Law Nolte, with psychotherapist Rachel Harris, reveals how parenting by example—by showing, not just telling—instills positive, true values in children that they will carry with them throughout their lives. Addressing issues of security, self-worth, tolerance, honesty, fear, respect, fairness, patience, and more, this book of rare common sense will help a new generation of parents find their own parenting wisdom—and draw out their child’s immense inner resources. If children live with criticism they learn to condemn. If children live with sharing, they learn generosity. If children live with acceptance, they learn to love. And more wisdom.

Grandparenting is one of the greatest joys in life. Most "grandboomers" are young, active, and anxious to be involved in the lives of their grandchildren. However, grandparenting in the twenty-first century is often complicated by long distances, family breakups, and remarriage. Based on solid evidence from the experts combined with inspirational - and sometimes funny - real-life stories from grandparents, parents, and grandchildren, Intentional Grandparenting provides readers with ten child-centred principles to guide their decision-making as modern grandparents. At the heart this approach is the notion of intentional grandparenting, a process for planning ahead and taking deliberate action to be the kind of grandparent you want to be. The authors identify the challenges and offer practical, parent-friendly advice to help boomers become happy and effective grandparents. Written in an accessible and engaging style, Intentional Grandparenting is at once entertaining and informative.
