Anyone interested in discovering their family genealogy should carry a copy of this book everywhere. Written by internationally recognized expert, George G. Morgan, this book is an irreplaceable resource for beginner to expert knowledge gatherers. Not only does Morgan explain how to get the search started – creating a family tree, locating and evaluating documents, selecting the appropriate hardware and software for the search – he goes steps further and dedicates an entire section to research methods and strategies where he discusses, among other topics, getting past “dead ends,” and organizing possible research travel.

Auditing: An International Approach (formerly titled Auditing and Other Assurance Engagements) presents a comprehensive, balanced, and current introduction to the auditing field. This text bridges the gap between students' knowledge of accounting principles and the professional practice of accounting and auditing in the working world. Emphasizing a 'cycles' approach, the book covers the financial auditor's decision-making process: 1) problem recognition and developing audit objectives, 2) evidence collection with audit procedures, and 3) making judgements about control risk and the fair presentation of financial statement assertions. Building on the strengths of the first Canadian and former U.S. editions, the authors reflect exciting challenges inherent to current auditing practice and other assurance services. As the revised title suggests, the second edition of this best-selling text has kept pace with the growing importance of International Accounting Standards in the context of Canadian business world.

The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job. Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has

helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.
