Little Ida liked the student, who always had a tale to tell, a lot. So, one morning, when little Ida's flowers had all withered, she asked the student what could have happened to them. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably

by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

365 Fairy Tales

Winner of the T. S. Eliot Prize, "essential reading for the broken-hearted of all ages" (The Guardian) The effortless virtuosity, drama, and humanity of Carol Ann Duffy's verse have made her much admired among contemporary poets. Rapture is a book-length love poem and a moving act of personal testimony. But what sets these poems apart from other treatments of the subject is Duffy's refusal to simplify the contradictions of love and read its transformations-infatuation, longing, passion, commitment, rancor, separation, and grief-as either redemptive or destructive. This is a map of real love in all its churning complexity, simultaneously direct and subtle, showing us that a song can be made of even the most painful episodes in our lives. With poems that will find deep resonance in the experience of most readers, it is a collection that can and does speak for us all.

Overcoming Depersonalisation and Feelings of Unreality

In the vein of Not Without My Daughter, Stolen: Escape from Syria is a memoir recounting a mother's crusade to rescue her kidnapped daughter from her abusive ex-husband during the tumultuous days of the Arab Spring In the middle of one of the worst civil wars in Syria's history, Louise Monaghan walked across a heavily guarded border to save her six-year-old child from the father who had callously snatched her from her home in Cyprus. Fearing for her daughter's future under the oppressive Sharia law, the Irish mother returned to her ex-husband, Mostafa Assad, to bide her time until she could escape with her daughter. Once in his homeland, she too was held captive, locked inside a run-down house with little food and no hope of deliverance. Severely beaten by Mostafa —she was even left unconscious on the ground in front of their child—she and her little girl miraculously escaped. This suspenseful account will pull at your heartstrings, enveloping you in harrowing

events that no mother would dare imagine and culminating with the triumphal feats this mother achieved. Smuggled across a heavily patrolled mountain range in the dead of night through bomb attacks and sniper fire, Monaghan and her daughter speak to the transcendent bond between mother and child.

The Expansion of Europe: The Culmination of Modern History

For the past couple years Laurel's been coasting, hiding in the backseat while her life drifts off course. Then one summer afternoon a tall, built bruiser named Flynn strides in and steers her straight into an infatuation she never saw coming. Flynn introduces Laurel to things she's never imagined before-to the violent but exciting realm of the underground boxing circuit, to rough sex and even rougher role-playing, and to an attraction she craves even as it intimidates her. As Flynn invites her deeper into his world and his life, Laurel has to make a choice-let fear keep her

holed up where it's safe, or take a chance and fight for the man who makes her feel more alive than she'd dreamed possible.

Experiencing Introductory & Intermediate Algebra

The Story of Jephthah

One of the great paradoxes of post-medieval Europe, is why instead of bringing

peace to a disorganised and violent world, modernity instead produced a seemingly endless string of conflicts and social upheavals. Why was it that the foundation and institutionalisation of secured peace and the rule of law seemed to go hand-in-hand with the proliferation of war and the violation of individual and collective rights? In order to try to better understand such profound questions, this volume explores the history and theories of political thought of international relations in the seventeenth century, a period in which many of the defining features and boundaries of modern Europe where fixed and codified. With the discovery of the New World, and the fundamental impact of the Reformation, the complexity of international relations increased considerably. Reactions to these upheavals resulted in a range of responses intended to address the contradictions and conflicts of the anarchical society of states. Alongside the emergence of "modern" international law, the equation of international relations with the state of nature, and the development of the "balance of power", diplomatic procedures and commercial customs arose which shaped the emerging (and current) international system of states. Employing a multidisciplinary approach to address these issues, this volume brings together political scientists, philosophers, historians of political thought, jurists and scholars of international relations. What emerges is a certain tension between the different strands of research which allows for a fruitful new synthesis. In this respect the assembled essays in this volume offer a sophisticated and fresh account of the interactions of law, conflict and the nation state in an early-modern European context.

A classic coming-of-age novel set in the midst of the French and Indian War In the wilderness of the Northeast, Robert Lennox's life is staked on how well he can evade the fierce Tandakora and his persistent warriors. Attuned to every sound and movement in the forest, he follows birds and hides his tracks in bubbling brooks en route to joining up with his friends Tayoga, an Onondaga warrior, and David Willet, a skilled hunter. First published in 1919, The Lords of the Wild is a heralded entry in Joseph A. Altsheler's French and Indian War Series, which follows the exploits of young Robert Lennox and his friends as they are embroiled in one of the most tumultuous conflicts of American colonial history.
