### Taming an Angel

Somewhere in the Jim Crow South, the sky is on fire. A pregnant Olivia's fierce speechwriting is the true force behind her charismatic husband, Charles, and his successful Movement, galvanizing people to march towards freedom. When four little girls are bombed in a church, Olivia and Charles' marriage is threatened—as this tragedy and years of civil unrest leave Olivia believing that “this world ain't no place to raise a colored child.”

### A Touch of Truth

Through the eyes of an inventor of new markets, *Good Derivatives: A Story of Financial and Environmental Innovation* tells the story of how financial innovation – a concept that is misunderstood and under attack - has been a positive force in the last four decades. If properly designed and regulated, these “good derivatives” can open vast possibilities to address a variety of global problems. Filled with provocative ideas, fascinating stories, and valuable lessons, it will provide both an insightful interpretation of the last forty years in capital and environmental markets and a vision of world finance for the next forty years. As a young economist at the Chicago Board of Trade, Richard Sandor helped create interest rate futures, a development that revolutionized worldwide finance. Later, he pioneered the use of emissions trading to reduce acid rain, one of the most successful environmental programs ever. He will provide unique insights into the process of creating these new financial products. Covering successes and failures, the story describes the tireless process of inventing, educating and creating support for these new inventions in places like Chicago, New York, London, Paris and how it is unfolding today in Mumbai, Shanghai and Beijing. The book will tell the story of the creation of the Chicago Climate Exchange and its affiliated exchanges (European Climate Exchange, Chicago Climate Futures Exchange and Tianjin Climate Exchange, located in

China). The lessons learned in these markets can play a critical role in effectively addressing global climate change and other pressing environmental issues. The author argues that market-based trading systems are a far more effective means of reducing pollutants than “command-and-control”. Environmental markets may ultimately help to find solutions to issues such as rainforest destruction, water problems and biodiversity threats. Written in an engaging, narrative style, *Good Derivatives* will be of interest to both practitioners and general readers who want to better understand the creative process of financial innovation. In the middle of so much distrust of markets, it is also a recipe of how transparent, well-regulated markets can be a force for good in the environmental, health, and social areas.

As voters articulate their judgments of the parties and leaders in their fifth democratic election, *Election 2014 South Africa: The Campaigns, Results & Future Prospects* provides a platform for in-depth discussion and analysis of party campaigns,

voting patterns, and election results of the 2014 general elections. Following the tradition of previous volumes that cover South Africa's national and provincial elections since 1994, this book draws on the expertise of renowned authors to cover important aspects of the election, including the major political party campaigns, the media's coverage of the campaigns, the latest trends in political participation and party fortunes, gender dynamics, the black middle class, as well as insights into the voter and public opinion on the eve of the election. Readers are presented with more than a mere study of a single election; they are also presented with a contemporary understanding of electoral politics and democracy in South Africa over two democratic decades and reflections on how elections strengthen the quality and prospects for democracy.

### **More Joy**

The book that revolutionized America's thinking on sex is back to meet the needs of the '80s. Dr. Comfort has revised and updated his classic to provide current, caring advice plus important information on health risks of this decade.

### **Political Ideologies**

To read the books of Virginia Stem Owens is to understand what Dylan Thomas once called "the mystery of having been moved by words." Her style is contemplative, ecstatic, tender " always yearning for a purer vision of reality and grace. Wind River Winter is her account of watching the world die and be reborn in the desolate Wind River mountains of Wyoming. By attuning her mind to the enormous cadence of autumn and winter, she contemplates the balance of life and death—the world's and her own. Her writing, as beautiful as the best of Annie Dillard or John McPhee, will appeal to anyone who finds the power of language as awesome a power as nature itself. Virginia Stem Owens is the author of several books, including the critically acclaimed Feast of Families. She is a frequent contributor to the Reformed Journal and other publications. She lives near Huntsville, Texas.

## **A Shade of Vampire 30: a Game of Risk**

As a final installment in a military career wrought with horrid events, Jess is sent to rescue a Braugh warrior and his men from prison. All she wants is to be safely on her home planet to forget her throwback status and find a normal existence. The warrior's intimidating size and raw strength contrast with his tender nature, skillful lips and gentle touch, awakening sexual urges she thought had been stripped away years prior. Shane knows the piercings adorning Jess' body once created pain and taught her to suppress arousal and desire. And he knows what's needed to take her beyond the torture. But providing a sexual release may prove easier than convincing her something stronger lies between them. All he needs to claim his angel, in every way, is her consent.

In New York Times bestselling author Lynsay Sands' new Argeneau novel, a vampire accustomed to seducing every woman he meets finds the one determined to resist him . . . With immortal good looks and scorching charisma, Justin Bricker has yet to meet a woman he can't win over. His potential life mate should be no different. But instead of falling into his bed, Holly Bosley runs away and ends up mortally wounded. To save her, he has to turn her. And then Bricker learns the shocking truth: Holly's already married. Holly wakes up with a bump on her head, a craving for blood, and a sexy stranger who insists they belong together. She needs Bricker's help to control her new abilities, even as she tries to resist his relentless seduction. Choosing between the world she knows and the eternity he offers is impossible. But Justin is fighting for his life mate—maybe even his life—and he'll break every rule to do it . . .

## **Fireflies**

Until Expectations May You Part Giddy with excitement and burning with love's fire, engaged couples are filled with desires and expectations! Wonder and eager anticipation propel them forward. Then comes the marriage and if they take the wrong approach, those unrealized expectations and unmet wants can turn a life-giving covenant relationship into a dead-end contractual agreement. Suddenly your marriage has no love, joy, or peace. In this marriage-makeover DVD and study guide from Northpoint Resources, Andy Stanley's three key teachings help you transform your expectations and examine the "I's" of marriage: "Keeping My 'I' On You," "Putting Your 'I' Out," and "It Takes Three." Broken into six DVD sessions with discussion questions, this is one lesson your marriage won't survive without. Until Expectations Do Us Part Standing at the altar we all had a picture of what our marriage would look like. The problem is this picture of marriage ends up as expectations that we unload on our spouse. The weight of these expectations will rob your marriage of love and joy. As a spouse you never feel like you measure up and you never feel like you are good enough. So what are you to do with your expectations? You can't deny them because most expectations started out as God-given desires. In this six-session companion study guide to the DVD, Andy Stanley explains that you must instead learn to transform your expectations and look to God if you are to experience marriage as it was designed. This study guide is complete with a leader's guide and six lessons including conversation-starting exercises, discussion questions and application steps. Story Behind the Book Andy Stanley is the senior pastor of three North Point Ministries campuses, with a cumulative congregation of more than twenty thousand. As couples voiced their various marital struggles to him, the common root problem became undeniably clear. The "me" syndrome, or the "I" effect, was tearing apart husbands and wives who were once head-over-heels in love. To help couples step back from their immediate circumstances and realize the bigger picture, he preached a series called "iMarriage." This DVD and study guide will empower couples everywhere to transform their marriages into the one God intends for them.

## **A World of New**

In the late nineteenth and early twentieth centuries, working-class Americans had eating habits that were distinctly shaped by jobs, families, neighborhoods, and the tools, utilities, and size of their kitchens—along with their cultural heritage. How the Other Half Ate is a deep exploration by historian and lecturer Katherine Turner that delivers an unprecedented and

thoroughly researched study of the changing food landscape in American working-class families from industrialization through the 1950s. Relevant to readers across a range of disciplines—history, economics, sociology, urban studies, women’s studies, and food studies—this work fills an important gap in historical literature by illustrating how families experienced food and cooking during the so-called age of abundance. Turner delivers an engaging portrait that shows how America’s working class, in a multitude of ways, has shaped the foods we eat today.

This book covers the most commonly used nonparametric statistical techniques by emphasizing applications rather than theory. Exercises and examples are drawn from various disciplines including agriculture, biology, sociology, education, psychology, medicine, business, geology, and anthropology. The applications of techniques are presented in a step-by-step format that is repeated for all illustrative examples. Concepts are reinforced with many references to statistical literature to show the relevance to real-world problems. Chapters contain references of available computer programs and software packages that apply to methods presented in the book.

In this six-session small group Bible study (DVD/digital video sold separately), Andy Stanley challenges us to stop flirting with disaster and establish personal guardrails. Guardrails. They're everywhere, but they don't really get much attention until somebody hits one. And then, more often than not, it is a lifesaver. Ever wonder what it would be like to have guardrails in other areas of your life-areas where culture baits you to the edge of disaster and then chastises you when you

step across the line? Your friendships. Your finances. Your marriage. Maybe your greatest regret could have been avoided if you had established guardrails. In this six-session video-based small group bible study, Andy Stanley challenges us to stop flirting with disaster and establish some personal guardrails. Sessions include: Direct and Protect (20:00) Why Can't We Be Friends? (18:30) Flee Baby Flee! (21:30) Me and the Mrs. (15:00) The Consumption Assumption (19:00) Once and for All (17:30) Designed for use with the Guardrails Video Study (sold separately).
