(Tiffany “Smithlord” Smith). The first shots of the ragtag Rebels running from the monstrous Galactic Empire. Young Anakin winning the podrace. The first time we saw the crackle of Luke Skywalker’s lightsaber. All of us who are deeply influenced by the epic saga of Star Wars have our favorite moments, and each time the screen goes black and we see those words—A Long Time Ago, In A Galaxy Far, Far Away—the music blasts through us and we feel like kids again. In this book, Star Wars aficionado Ken Napzok counts down one hundred of those special moments that makes this series not just the best movies of all time, but the Greatest Saga Ever Told. What began as one movie about good people, evil oppressors, and the space wizards that stood between them has exploded into so much more. The moments that continue to inspire are on screen and in the pages of novels. They are found in the panels of comic books and among animated sequences on television. And they all continue to grow in stature, importance, and myth through discussions, debates, and daydreams. Why We Love Star Wars is a joyful journey through the universe we love to inhabit, again and again.

At last—an analysis of the historical patterns that influenced the creation and storyline of the Star Wars saga. Star Wars took place long ago in a galaxy far, far away, but its epic stories are based on our own history. From Ancient Egypt and the Roman Empire to the French Revolution and the Vietnam War, *Star Wars and History* explores the major historical turning points, heroes, and villains in human history and their impact on the creation of the Star Wars saga. *Star Wars and History* shows how the atomic and hydrogen bombs led to the Death Star; how Princess Leia's leadership in the Rebel Alliance resembled the daring work of intrepid women in the French Resistance during World War II and the Mexican Revolution; historical parallels between the Jedi Code and Bushido as well as those linking the Jedi culture with that of the Templar Knights and other warrior monks; and all of the history that underlies the Star Wars galaxy. Read how our own civilization's civil wars, slavery, international corporation states, and teenage queens were transformed into the epic Star Wars history and discover how Tatooine reflects the lawless frontiers of the past and Coruscant our own history of glittering and greedy capitals. The first book devoted to analyzing the actual historical events in our past that influenced the creation of the space fantasy, *Star Wars Features 11* essays by a wise "council" of history scholars, written in close collaboration with George Lucas and Lucasfilm. Gives new insights into central Star Wars characters and historical figures who helped inspire them (including Luke Skywalker, Princess Leia, Han Solo, Darth Vader, Obi-Wan Kenobi, Queen Amidala, Yoda, Jabba the Hutt, Lando Calrissian, Emperor Palpatine, and others) Includes

As a battle-scarred era nears its end, a shattering power play is about to stun the entire galaxy . . . and set in motion events that will alter destinies and resound throughout history. Even as the Clone Wars are about to reach an explosive climax, no one knows if victory will favor the Grand Army of the Republic (GAR) or the Separatists. But no matter who wins, the stakes are highest for elite Special Ops clones like the Republic Commandos in Omega and Delta squads—and the notorious renegade Advance Recon Commando troopers known as Null ARCs. With Republic forces stretched to the max and casualties mounting, the last thing these beleaguered warriors need to hear is that Chancellor Palpatine is keeping vast armies of secret clone troops in reserve. Sergeant Skirata, a mentor to the clone commandos, has no intention of standing idly by while Palpatine sends them into battle like lambs to the slaughter. Skirata begins to plan the clones' escape from the GAR, but his heroic effort will be in vain unless he can reverse the clones' accelerated aging process. Caught in the treacherous dealings of their leaders, and locked in the battles of their lives, the disillusioned Null ARCs and Commandos nonetheless fight with everything they've got, determined to wrest victory from the Seps and save the galaxy. But even the deadliest weapons may not be powerful enough to defeat the real menace. ### **Star Wars**

In thirty years, the invincible Eqbas will arrive at Earth to forcibly return the planet to what it once was—as retribution, in part, for the gethes' thoughtless near-extirmination of an alien ocean-dwelling species. First, however, another world requires their attention: the crowded, ecologically ravaged planet of the swarming, insect-like isenj. Efforts to drastically reduce the isenj population have sparked a devastating civil war—which may well do the savior/destroyers' work for them. And the human visitors can only watch. Rendered immortal and ever changeable by a parasite in her blood, ex-cop Shan Frankland isn't content merely to play Matriarch to her two similarly infected mates—one earthborn, one alien wess'har. Her fears for the future of Umeh and the ultimate fate of humankind must be set aside while she tackles an unfulfilled duty that haunts her every waking moment—a mission

that must be undertaken for the sake of the future—and pursues a righteous vengeance.

### **Sounds of Star Wars**

Three strikingly different alien races greeted the military mission from Earth when it reached the planet called Bezer'ej. Now one of the sentient species has been exterminated—and two others are poised on the brink of war. The fragile bezeri are no more, due to the ignorant, desperate actions of human interlopers. The powerful wess'har protectors have failed in their sworn obligation to the destroyed native population—and the outrage must be redressed. But those who are coming to judge from the World Before -- the home planet, now distant and alien to the wess'har, whose ancestors left there generations ago -- will not restrict their justice to the individual humans responsible for the slaughter. Earth itself must answer for the genocide. And its ultimate fate may depend on a dead woman: former police officer Shan Frankland, who became something far greater than human before destroying herself in the vast airless depths of space.
