Harper's Monthly Magazine

This chapter book is sure to make a splash! Find fun, funny, and TRUE stories of heroic and talented dolphins and amazing dolphin friendships. It's perfect for budding bookworms and animal lovers alike.

Scientific American

Horrid Henry's Joke Book

A small river in a big city, the Don River Valley is often overlooked when it comes to explaining Toronto's growth. With *Reclaiming the Don*, Jennifer L. Bonnell unearths the missing story of the relationship between the river, the valley, and the city, from the establishment of the town of York in the 1790s to the construction of the Don Valley Parkway in the 1960s. Demonstrating how mosquito-ridden lowlands, frequent floods, and over-burdened municipal waterways shaped the city's development, *Reclaiming the Don* illuminates the impact of the valley as a physical and conceptual place on Toronto's development. Bonnell explains how for more than two centuries the Don has served as a source of raw materials, a sink for wastes, and a place of refuge for people pushed to the edges of society, as well as the site of numerous improvement schemes that have attempted to harness the river and its valley to build a prosperous metropolis. Exploring the interrelationship between urban residents and their natural environments, she shows how successive generations of Toronto residents have imagined the Don as an opportunity, a refuge, and an eyesore. Combining extensive research with in-depth analysis, *Reclaiming the Don* will be a must-read for anyone interested in the history of Toronto's development.

Exploring the West

Boys' Life

Full Steam Ahead

The Adventurer

History books tell much about Lewis and Clark's expedition West. But what is less known is how far the explorers went to ensure their entire team had an equal voice in decision-making, even though women and slaves were excluded from democracy in the nation.

Junior High School Literature

Notes from Nature's Garden

Michael Makes Friends at School

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

Joseph, the Jew

Engineering Mechanics

Camila Cabello was once a shy girl who was terrified of singing in public. She loved music so much that she overcame her fears and auditioned for the popular TV show The X Factor. As part of the singing group Fifth Harmony, Cabello became successful around the world. This talented singer wanted more. Learn how Cabello found the courage to go out on her own and become one of the most popular performers of her time in this inspiring biography.

Making Secret Codes and Messages

Camila Cabello

Educational Film Catalog

Elizabeth Cady Stanton spoke before an eager crowd in 1948. Her demand was equal rights for women--including suffrage, the right to vote. It took more than 70 years from that moment before all American women could vote.

The Engineer

Fort on the Firing Line

Is that a fire-breathing monster coming down the Hudson River? Young Brenton Dixon isn't so sure. To his surprise, it's the 1907 maiden journey of Robert Fulton's steamboat from New York City to Albany.

The Mid-Pacific Magazine

Reclaiming the Don

Queensland the field for British Labour and enterprise

Puck

National Geographic Kids Chapters: My Best Friend is a Dolphin!

Monthly magazine devoted to topics of general scientific interest.

Red River

Warning: Too rude for parents and for slimy toad little brothers! These are Horrid Henry's very own jokes: the jokes that grossed out Mom and Dad that made Aunt Ruby run home that sent Miss Battle-Axe screaming from class. Be horrid! Read Henry's jokes. Then tell them to the world!

Steam!

Ornithologist and Oölogist

The Ornithologist and Oölogist

American Heritage

Mechanical Engineering was the first school of engineering to be established at Purdue University in 1882. From just 120 students, the School has grown over the last 130 years to serve over 1,800 undergraduate and graduate students annually. Originally located in Mechanics Hall, a one-story red brick building, Mechanical Engineering now has extensive facilities that include two major satellite research laboratories, Ray W. Herrick Laboratories and Maurice J. Zucrow Laboratories, named in honor of the first director. There are more than 30 additional instructional and research laboratories, including the Roger B. Gatewood wing, which opened in 2011, and increased the space available to students and faculty by 44,000 square feet. Through stories and profiles, as well as hundreds of images (in black and white and color), Full Steam Ahead tells the story of the School of Mechanical Engineering and looks to a future where Purdue engineers are leading the world and making advances in biotechnology, nanotechnology, robotics, design and manufacturing, and renewable energy. Distinguished alumni included in this publication range from astronauts, like Gus Grissom and Jerry Ross, to Bob Peterson, lead writer and co-director for the Oscar-winning animated film, Up.

Railroad Gazette

Teaches readers how to make secret codes and messages through clear steps, simple supply lists, and helpful tips and fun facts. Everything kids need to know about being a spy (and more!) is at their fingertips with Spy Kid. From famous spies to how to master spy techniques, this series prepares readers for top secret missions of their own. Features conversational text, step-by-step instructions, and engaging fun facts.

Mobile, Her Trade, Commerce and Industries, 1883-4

Depicts the steam trains currently in operation on every continent, including both the locomotives themselves and the landscapes through which they run
