### I Live to Tell the Story

How to master the art of narrative leadership Telling the Story shows how leaders affect our understanding of what is possible and desirable through the stories they tell. It opens a door into the world of narrative leadership: what stories are and how they work; when to tell a story and how to tell one well; and how the language and metaphors we use influence our actions and change how we think about the world. • Explains how narrative leadership shapes and defines what's possible on an organizational level • Written by a renowned consultant on the art of narrative leadership • Challenges leaders to consider how narrative can influence and help create the kind of society they envision

### White Feminists and Contemporary Maternity

Many states currently mandate character education, and school districts across the country need anti-bullying education programs to counter the rising tide of aggression and relational aggression that is the norm among many students. In fact, many school districts now require teachers to include lessons on bully prevention in their curriculum. Real Life Bully Prevention For Real Kids addresses this pervasive problem by offering students hands-on activities. Teachers will want to use this book in their classrooms with their students as part of the school's anti-bullying curriculum. As an added bonus, the activities reinforce English/language arts, social studies, and health education curricular goals. Counselors, therapists, and school administrators can also use the activities in large and small group instruction. Additionally, leaders of after-school programs and youth leadership programs, such as scouting, dramatics classes, and religious education classes, will find the

activities helpful in addressing their bully prevention programs. Each activity contains a description, goals for children, and helpful hints for adults to guide their youngsters through the program.

### **Ethics for the Real World**

The three basic human needs are food, water and shelter. But in the late 21st century, compassion is a crime. You can get your memories wiped just for trying to help. Papa Preston Walford's world doesn't allow for coincidences. Accidents. Secrets in the backs of closets. Or the needs of his own daughter. Meredith Preston has reason to seek shelter. She needs protection from the monsters in her mind, in her history, in her family. And the great storms of a changing climate have made literal shelter imperative. When a cutting-edge, high-tech house, designed by a genius with a unique connection to Meredith, overcomes its programming to give shelter to a homeless man in a storm, from its closets emerge the revelations of a past too painful to remember. In the world of Susan Palwick's *Shelter*, perception is about to meet reality, and reality has mud all over it. The truth won't make you happy, but it may just make you whole. ### **Knowledge and Memory: the Real Story**

"No matter how wise a mother's advice is, we listen to our peers." At least that's writer Naomi Wolf's take on the differences between her generation of feminists -- the third wave -- and the feminists who came before her and developed in the late '60s and '70s -- the second wave. In *Not My Mother's Sister*, Astrid Henry agrees with Wolf that this has been the case with American feminism, but says there are problems inherent in drawing generational lines. Henry begins by examining texts written by women in the second wave, and illustrates how that generation identified with, yet also disassociated itself from, its feminist "foremothers." Younger feminists now claim the movement as their own by distancing themselves from the past. By focusing on feminism's debates about sexuality, they are able to reject the so-called victim feminism of Catherine MacKinnon and Andrea Dworkin. Rejecting the orthodoxies of the second wave, younger feminists celebrate a woman's right to pleasure. Henry asserts, however, that by ignoring diverse older voices, the new generation has oversimplified generational conflict and has underestimated the contributions of earlier feminists to women's rights. They have focused on issues relating to personal identity at the expense of collective political action. Just as writers like Wolf, Katie Roiphe, and Rene Denfeld celebrate a "new" feminist (hetero)sexuality posited in generational terms, queer and lesbian feminists of the third wave similarly distance themselves from those who came before. Henry shows how 1970s lesbian feminism is represented in ways that are remarkably similar to the puritanical portrait of feminism offered by straight third-wavers. She concludes by examining the central role played by feminists of color in the development of third-wave feminism. Indeed, the term "third wave" itself was coined by Rebecca Walker, daughter of Alice Walker. *Not My Mother's Sister* is an important

contribution to the exchange of ideas among feminists of all ages and persuasions.

## **Not My Mother's Sister**

Narrative forms of mental representation and their influence on comprehension, communication and judgment, have rapidly become one of the main foci of research and theory in not only psychology but also other disciplines, including linguistics, sociology, and anthropology. No one has been more responsible for the awakening of interest in this area than Roger Schank and Bob Abelson. In their target article, they argue that narrative forms of mental representation, or "stories," are the basic ingredients of social knowledge that play a fundamental role in the comprehension of information conveyed in a social context, the storage of this information in memory, and the later communication of it to others. After explicating the cognitive processes that underlie the construction of narratives and their use in comprehension, memory and communication, the chapter authors consider the influence of stories on a number of more specific phenomena, including political judgment, marital relations and memory distortions that underlie errors in eyewitness testimony. The provocativeness of the target chapter is matched by that of the companion articles, each of which not only provides an important commentary on Schank and Abelson's conceptualization, but also makes an important contribution to knowledge in its own right. The diversity of perspectives reflected in these articles, whose authors include researchers in linguistics, memory and comprehension, social inference, cognitive development, social judgment, close relationships, and social ecology, testifies to the breadth of theoretical and empirical issues to which the target chapter is potentially relevant. This volume is a timely and important contribution to research and theory not only in social cognition but in many other areas as well.

## **To be Real**

Sarah Palin’s 2008 vice presidential candidacy garnered tremendous levels of interest, polarizing the American public—both Democrats and Republicans alike. While many have wondered who she "really" is, trying to cut through the persona she projects and the one projected by the media, Beail and Longworth analyze why she touches such a nerve with the American electorate. Why does she ignite such passionate loyalty – and such loathing? How did her candidacy mobilize new parts of the electorate? Using the notion of "framing" as a way of understanding political perception, the authors analyze the narratives told by and about Sarah Palin in the 2008 election – from beauty queen, maverick, faithful fundamentalist and post-feminist role model to pit bull hockey mom, frontier woman, and political outsider. They discuss where those frames are rooted historically in popular and political culture, why they were selected, and the ways that the frames resonated with the electorate. Framing Sarah Palin addresses the question of what the choice and perception of these frames tells us about the state of American politics, and about the status of American women in politics in particular. What do the debates engendered by these images of Palin say about the current roles and power available to women in American society? What are the implications of her experience for future candidates, particularly women candidates, in American politics?

## **Another Chance to be Real**

The present volume is a highly comprehensive assessment of the postcolonial short story since the thirty-six contributions cover most geographical areas concerned. Another important feature is that it deals not only with exclusive practitioners of the genre (Mansfield, Munro), but also with well-known novelists (Achebe, Armah, Atwood, Carey, Rushdie), so that stimulating comparisons are suggested between shorter and longer works by the same authors. In addition, the volume is of interest for the study of aspects of orality (dialect, dance rhythms, circularity and trickster figure for instance) and of the more or less conflictual relationships between the individual (character or implied author) and the community. Furthermore, the marginalized status of women emerges as another major theme, both as regards the past for white women settlers, or the present for urbanized characters, primarily in Africa and India. The reader will also have the rare pleasure of discovering Janice Kulik Keefer's "Fox," her version of what she calls in her commentary "displaced autobiography" or "creative non-fiction." Lastly, an extensive bibliography on the postcolonial short story opens up further possibilities for research.

### **Telling the Story**

This work explores matrophobia - the fear not of one's mother or of motherhood but of becoming one's mother - in past and present white feminist analyses of motherhood and mothering. By tracing white second wave feminism's strategic choice to organize first as sisters then as daughters, O'Brien Hallstein argues matrophobia became embedded in past and continues to linger in contemporary feminist analyses. As a result, contemporary analyses reveal crucially important but limited understandings of contemporary motherhood and mothering. This important work concludes that matrophobia can be reduced and eliminated by reorienting analyses to mutual responsiveness between sisters and daughters, second and third wave feminists.

### **The Real Deal**

"A pre-modern baseball umpire would have said something like this: 'There's balls, and there's strikes, and I call 'em as they are.' The modernist would have said, 'There's balls, and there's strikes, and I call 'em as I see 'em.' And the postmodernist umpire would say, 'They ain't nothing until I call 'em.'" With that humorous quote, Ravi Zacharias illustrates the challenge postmodernism poses to Christians passionate about evangelism. How do you communicate truth to a world that isn't sure what truth is--or even if truth is? How do you commend spiritual absolutes to people who insist there are none? If you've puzzled, even struggled, over such questions, the book you hold in your hands is required reading, *Telling the Truth* provides informed insights on the heart of the Gospel, the soul of postmodern culture, and their complex interface. This book is a compilation of thoughts and strategies from twenty-nine prominent practitioners of contemporary evangelism. Originating at a three-day conference held at Trinity Evangelical Divinity School, *Telling the Truth* draws on knowledge gained in the trenches by Ravi Zacharias, Kelly Monroe, D.A. Carson, Ajith Fernando, and other notables. It will open your

eyes to how the contest for souls is fought, guerilla-style, at a multitude of fronts: relationships, the university, ethnicity, reason and emotion, the pulpit, communications . . . in short, the broad spectrum of human experience and values. You'll be challenged to discern between the unchanging Gospel and the flexible means by which we communicate it. Telling the Truth can help you lay the groundwork necessary to point biblically uninformed, postmodern men and women toward an encounter with non-negotiable truth -- an absolute revealed in the Bible that points to the reality of sin and the need for a Savior.

### **Telling Lies**

Despite tremendous advances in civil rights, we live in a world where the sexes remain sharply segregated from birth to death: in names, clothing, social groupings, and possessions; in occupations, civic association, and domestic roles. Gender separatism, so pervasive as to be almost invisible, permeates the fabric of our daily social routines. Preferring a notion of gender that is fluid and contextual, and denying that separatism is inevitable, Nancy Levit dismantles the myths of gender essentialism. Drawing on a wealth of interdisciplinary data regarding the biological and cultural origins of sex differences, Levit provides a fresh perspective on gendered behaviors and argues the need for careful cultivation of new relations between the sexes. With its focus particularly on men, *The Gender Line* offers an insightful overview of the construction of gender and the damaging effects of its stereotypes. Levit analyzes the ways in which law legitimizes the social segregation of the sexes through legal decisions regarding custody, employment, education, sexual harassment, and criminal law. In so doing, she illustrates the ways in which men's and women's oppressions are intertwined and how law molds the very definition of masculinity. Applying feminist methodology to the doctrine of feminism itself, Levit artfully demonstrates that gender separatism infects even our contemporary views of feminism. Levit asks questions that have been too long been unspoken--those that lie at the core of the feminist project, yet threaten its very foundations. Revealing masculinity as both a privileged and a victimized condition, she calls for a step forward, past the bounds of contemporary feminism and its conflicts, toward a more egalitarian and inclusive feminism. This brand of feminism would reshape traditional masculinity, invite men into feminist dialogue, and claim men as political allies.

By most accounts, people with a borderline personality disorder prove exceptionally difficult to treat. Divergent opinions abound about what, if anything, contributes to a positive outcome. Is it the quality of the relationship with the psychotherapist that is curative, in that the careful attunement of therapist to patient enables the development of a more secure attachment experience? Or is it the technical and structural parameters of the therapy—i.e., therapist neutrality, frame issues, and defensive operations combined with skillfully formulated and timely interventions? Taken together, the findings of attachment research and object relations theory offer an integrated understanding of borderline personality disorder as an attachment disorder that relies on a pervasive false self for adaptation and personal connections. A particular corrective relationship experience, therefore, is necessary if positive personality changes and improved adaptive capacities are to result. In *Another Chance to Be Real*, Donald and Deanda Roberts propose a treatment approach, specific to those suffering from borderline personality disorder, that emphasizes both relational and technical variables as necessary in eliciting a positive treatment outcome.

### **Mad Men and Politics**

What Women Want is a trenchant examination of the struggle for women's equality, and a prescription for what to focus on next in order to ensure maximum success. Feminism today is a movement that lacks leadership, unity, and definition, and it has gotten stuck in a boom and bust cycle when it comes to public opinion and action. Despite significant progress over the last fifty years, equality is still a distant goal in the political, social, and economic spheres. Only by identifying the barriers (both internal and external) that remain, Deborah Rhode argues, can we begin to identify solutions. A rigorously researched and well-written answer to the glut of gender-related books that have come onto the market recently, What Women Want comprehensively analyzes the challenges the feminist movement faces today. Combining sharp academic analysis and interviews with notable figures such as Sheryl Sandberg, Rhode focuses on five main topics: employment issues such as pay discrimination, work-life balance and the government's pitiful response, the assault on women's reproductive rights and the limits it places on their economic mobility, sexual harassment and violence, and the detrimental effect that the unfashionable label "feminist" can have, especially in attracting young women to the movement. Despite these formidable obstacles, the goals and principles of feminism are widely accepted by the American mainstream, and Rhode, herself a pathbreaker in the fields of law and education, offers effective strategies for redefining and advancing the feminist agenda,

thereby creating a movement that truly recognizes, and is responsive to, what all women want.

I Live to Tell the Story is a thrilling testimonial of a humble and determined Southern single mother's life experiences. As Ollie White tells of her faith walk with GOD and the trials and tribulations that she has been able to overcome, the power of the most high becomes evident. This collection of testimonies shares healings, deliverances, and prophetic words manifesting in the life of an abandoned little girl "Determined to Succeed". When others would have given up, she would keep praying. When some may have doubted, she would fast. When it felt like she was going to have a heart attack Ollie White praised GOD through her pain and suffering. When the battlefield got rough and the enemy attacked on all sides, White fought the good fight of faith, she believed GOD would do what she couldn't do on her own, and she lives to tell the story. With this book, White encourages all of those whom are hurting and distressed, that whatever you are going through; this too shall pass. If you can only believe and have faith. Despite being without parents at an early age, once homeless, many times abandoned, and constantly tried by the enemy; White stands tall on the footstool of adversary and with a loud cry of joy she proclaims through it all, I Live to Tell the Story.

#### **Telling Stories**

Ford Madox Ford is a major modernist writer, yet many of his works do not conform to our assumptions about modernism. Examining ways in which he, alongside other 'misfit moderns', undermines 'stabilities' we expect from novels and memoirs, this book poses questions about the nature of narrative and the distinction between modernism and modernity.

#### **Saying What's Real**

Telling the Whole Story is both a book about preaching and reading the narratives of the Hebrew Bible. John C. Holbert (PhD in Hebrew Bible) was a longtime teacher of preaching and Hebrew Bible at Perkins School of Theology, Southern Methodist University, having retired in 2012 after thirty-three years. In this volume he combines his two skills of careful narrative reading and imaginative story preaching to offer the first comprehensive look at this particular kind of sermon proclamation. The reader will also find here an introduction to the long history of story preaching in the history of the church, as well as a primer both in ways to read the narratives more effectively and ways to preach several varieties of story sermons. At the heart of this book four narratives from the Hebrew Bible are exegeted and are accompanied by four story sermons based on those texts: Genesis 2-3; 1 Samuel 15; Judges 4; and Jonah. The goal of the book is to help preachers who are looking for effective ways to proclaim the gospel using narrative texts from the Hebrew Bible to allow the rich stories of the texts to sound their ancient truth to the modern world

### **Beyond Tells**

There is a deep cultural anxiety around public expressions of maternalism and the application of maternal values to society as a whole. Julie Stephens examines why postmaternal thinking has become so influential in recent decades and why there has been a growing unease with maternal forms of subjectivity and maternalist perspectives. In moving beyond policy definitions, which emphasize the priority given to women's claims as employees over their political claims as mothers, Stephens details an elaborate process of cultural forgetting that has accompanied this repudiation of the maternal. Reclaiming an alternative feminist position through an investigation of oral history, life narratives, Web blogs, and other rich and varied sources, Stephens confronts the core claims of postmaternal thought and challenges dominant representations of feminism as having forgotten motherhood. Deploying the interpretive framework of memory studies, she examines the

political structures of forgetting surrounding the maternal and the weakening of nurture and care in the public domain. She views the promotion of an illusory, self-sufficient individualism as a form of social unmothering that is profoundly connected to this ethos. In rejecting both traditional maternalism and the new postmaternalism, Stephens challenges prevailing paradigms and makes way for an alternative feminist maternalism centering on a politics of care.

Women, Reading, Kroetsch: Telling the Difference is a book of both practical and theoretical criticism. Some chapters are feminist deconstructive readings of a broad range of the writings of contemporary Canadian poet-critic-novelist Robert Kroetsch, from *But We are Exiles* to *Completed Field Notes*. Other chapters self-consciously examine the history and possibility of feminist deconstruction and feminist readings of Kroetsch's writing by analyzing Kroetsch, Derrida, and Freud on subjectivity and sexuality; Neuman, Hutcheon, and van Herk on Kroetsch. As such, the book speaks out of and about a number of contemporary theoretical discourses, including particular positions within Canadian literary criticism, feminism, postmodernism, and poststructuralism. Written by a woman reader whose theoretical and methodological orientations are both feminist and poststructuralist, *Women, Reading, Kroetsch: Telling the Difference* problematizes notions of writing, reading, gender, sexuality, and subjectivity in and through Robert Kroetsch's writings. In this critical study of one writer's work the author also challenges the traditionally subservient relationship of reader to text and so empowers the feminist reader as well as, if not rather than, the male writer.

We often make small ethical compromises for "good" reasons: We lie to a customer because our boss asked us to. We exaggerate our accomplishments on our résumé to get an interview. Temptation blindsides us. And we make snap decisions we regret. Minor ethical lapses can seem harmless, but they instill in us a hard-to-break habit of distorted thinking. Rationalizations drown out our inner voice, and we make up the rules as we go. We lose control of our decisions, fall victim to the temptations and pressures of our situations, taint our characters, and sour business and personal relationships. In *Ethics for the Real World*, Ronald Howard and Clinton Korver explain how to master the art of ethical decision making by: Identifying potential compromises in your own life Applying distinctions to clarify your ethical thinking Committing in advance to ethical principles Generating creative alternatives to resolve dilemmas Packed with real-life examples, this book gives you practical advice to respond skillfully to life's inevitable ethical challenges.
