information, but it was more difficult to find any training that could be applied to our own trade. It is impossible to come across a clean and tidy option to Forex and Binary Options right on the Internet. The extent to which the information you can find reflects the truth is uncertain. It only included a few resources on forex - everything was messy. There was no place for forex currency for new provisions. We were left to learn information such as MACD, trade psychology on another website, and risk management on a 10. website. Forex is one of the newest people who have heard about the Forex Exchange trade, but it is meant to be heard more in these trading years but not fully described in the market. For more than 10 years, I have prepared this training series for you with Millions of Knowledge to Learn Skills in your transactions in order to grow Open Market Dynamics by protecting our capital with the knowledge and experience I gained by reading a Lots training article on how to trade in the Forex Exchange Market. Everything is here to ensure the coordination between the trading strategies, market analysis and the psychology triangle in the educational series that is now included in this course content. You can have super trader abilities or market magic. You will not hear mythological claims to earn a quadrillion dollars a day, I explained how you can steadily increase your investment. You will be able to perform it in the future according to the trading plans you make. This book is a reliable and neat source for you traders who are all the money in the forex market from their bad trading decisions or innocents of the retail forex industry. Always considering the first trade rule: The First Rule of Trade: Don't Explode. Live to trade another day ..

## **The FX Bootcamp Guide to Strategic and Tactical Forex Trading**

'An Introduction to Forex Trading - A Guide for Beginners' is a great reference book for anyone wanting to learn to trade the Forex (Foreign Exchange) Markets. It introduces a wide range of Forex trading topics, and condenses a wealth of trading knowledge into relatively short, easy to read sections. Includes useful examples, ideas and trading strategies. The book has been written with novice traders in mind, but would equally be ideal for anyone who has recently started trading and would like to increase their trading knowledge. Topics covered include: Forex Essentials; Analysing the Forex Market; Forex Charts; Technical Trading Techniques; Common Chart Patterns; Moving Averages; Indicators & Oscillators; Fibonacci; Trading Cycles; Advanced Chart Patterns; Time-frames; Trading Strategy; Carry Trades; and, Trading Systems. 'A great reference tool for anyone wanting to learn how to trade the Forex Markets' 'Just the right amount of

## **Forex Trading Secrets: Trading Strategies for the Forex Market**

Praise for ADVENTURES of a CURRENCY TRADER "A truly easy, unique, and enjoyable read! Rob has done it once again to teach us in the funniest way possible how not to make the most common trading mistakes. If you are tired of reading how-to books, this is perfect for you. I highly recommend this book to all traders. Everyone will learn something about themselves by reading this book."  
—Kathy Lien, author, Day Trading the Currency Market, and Chief Strategist, [www.dailyfx.com](http://www.dailyfx.com) "Adventures of a Currency Trader is a must read for anyone who has ever traded or is thinking about trading in the Forex markets. Rob Booker has a unique way of taking years of market knowledge and transforming it into an educational and entertaining experience. It has quickly become a cult classic in my trading library!" —H. Jack Bouroudjian, Principal, Brewer Investment Group  
"Brilliant! Rob's humor and humanity shine through in this parable about trading and life. Filled with wisdom and wit, it's an exhilarating rollercoaster ride through the peaks and valleys of the learning curve, with many valuable lessons learned along the way." —Ed Ponsi, President, FXEducator.com "Rob's fable of everyman 'Harry Banes' is destined to become a trading classic. This is both the missing piece and the foundation that comes before the strategies and methodologies. The search for the Holy Grail begins and ends in the heart and mind. The journey is

authentic and real and if you're willing to take it with Rob, you will be rewarded in the end. Seldom has psychology and wisdom been so entertaining!" —Raghee Horner, trader and author of *Forex Trading for Maximum Profit and Days of Forex Trading* "In a series of insightful and entertaining vignettes, Rob Booker teaches both the novice and the experienced trader some hard won truths about the currency market. It's a must read book written by a guy who survived the trenches and went on to prosper in the biggest and most competitive financial market in the world." —Boris Schlossberg, Senior Currency Strategist, Forex Capital Markets LLC, and author of *Technical Analysis of the Currency Market*

## **Forex for Beginners**

Traders are constantly learning their craft. Those who do not share information, discuss tactics and review prior trades are doomed for failure. Global-View.com knows this. It is the leading destination for Forex traders looking to learn and discuss trading. With over 33,000 registered users from 125 countries, Global-View.com exposes its users to an incredible base of knowledge. In this book, the authors dissect each of 15 chosen trades, using the material to expose some of the best (and worst) practices of a Forex trader. The book weaves a plethora of Global-View.com information into the detailed dissection. Each description will include how the trade was selected and why it was made, as well as money management and psychological aspects of the trade. Entertaining anecdotal stories are interspersed throughout each trade story.

## **Trading Forex with Divergence on MT4/MT5 & TradingView**

like to discover the forex trading strategies used by professional FX traders? Harvey Walsh lifts the curtain and invites you into the lucrative world of currency trading. Written in his trademark plain English, this jargon-free book takes you through everything you need to know in order to start trading the foreign exchange market. Just some of the things you will discover inside:

- What money really is, and how currencies work.
- What makes currency prices move, and how you can use that information to make money.
- Precise forex trading strategies you can start using today.
- How to make your own unique, profitable trading setups to give yourself an extra edge.
- The tricks your mind is playing on you when you trade, and how to turn them to your advantage.

When you've read this book, you will be able to:

- Choose a forex broker and open an account.
- Set up currency charts.
- Read your charts and spot excellent trading opportunities.
- Understand and use the different order types.
- Make trades that can make you money whether prices are rising or falling.
- Manage your money, and your mind, for maximum success.

## **Essentials of Foreign Exchange Trading**

Trading the Trends is what every investor and trader has been waiting for. Learn to make money in any market. McAllen, a retired stockbroker, best selling author, and active investor/trader leads you through every aspect of recognizing market trends early, how to avoid losses, and shares numerous strategies to profit in any market.

Understanding how to invest and trade in the stock market trends and cycles is paramount to the success of every individual trader and investor. Experiencing the losses of the past does not have to repeat itself over and over. By recognizing the changes in trends as they are occurring, the trader and investor can protect and preserve their capital while profiting in any market environment. To give the investor and trader the most comprehensive learning experience, this book encompasses the actual trading decisions and strategies used in both up and down markets. Bear market and sideways market strategies are traded, including trading the bull market beginning in 2009 and exiting at the highs in 2011. The decisions for each entry and exit are shared in detail to give the investor and trader a broad understanding and valuable knowledge for future market cycles. "The greatest investors, traders, and speculators of all time have one thing in common. They understand the market does not always go up; they recognize the market moves in trends and cycles, and they capitalize on that knowledge." Fred McAllen

All of Jim Brown's Forex books are consistently ranked 'Best Sellers' on a variety of platforms. Here is why... At no extra cost, or on-costs, Jim shares with his readers:

- His custom indicators for the MT4/MT5 MetaTrader platforms, and more recently TradingView, as a download package at the end of the book.
- An invitation to join his Facebook and Telegram Groups which have around 6,000 new as well as experienced Forex Traders contributing, including daily interaction with Jim.
- Jim calls his trades live, shares his results and records weekly trade analysis videos on his YouTube channel.
- Contact with Jim should you require any clarification on this trading method. Jim, from Queensland Australia, is a full-time Forex Trader and currently resides in Vietnam. While Divergence may sound a little technical and intimidating, be assured that it is easy to understand when you know what you are looking for. Some even consider Divergence to be a leading indicator. Basically it is the difference between what the actual price on the chart is doing and what an Oscillator type indicator is doing. This book will use the same principles in Jim's very popular book, MT4/5 & TradingView High Probability Forex Trading Method, but it is a stand-alone book and concentrates more on trading with Divergence. This method can also be used with any other financial instrument that your MT4, MT5 or TradingView platform offers. You will also receive access to a downloadable folder which includes:

- Jim's personal custom indicators in MT4, MT5 & TradingView format
- 50+ images to explain Forex trading using divergence
- The

Jim's FOREX books are consistently ranked BEST SELLERS on Amazon and there is a very good reason for this. At no extra cost (or on-costs) Jim shares with his readers: His custom indicators for the MT4 MetaTrader platform, as a download at the end of the book. AND anyone who has received these indicators will also receive the MT5 version of his files when they have been programmed. An invitation to join his Facebook Group which has new as well as experienced Forex Traders contributing. Daily interaction in his Facebook Group He calls his trades live, shares his results AND records a weekly trade analysis video. His contact details if you require further clarification. Jim, from Queensland Australia, is a full-time Forex Trader and currently resides in Vietnam. This book will provide you with a reliable and robust trading method which Jim has refined via manual testing, demo testing and live trading. Jim's High Probability Trading Method can be traded

on any time frame you choose. He has a personal preference for the 4hr charts or the daily charts as these are time frames he is comfortable with but of course, he acknowledges that there are different strokes for different folks when it comes to time availability, preferred time-frames, lifestyle choices etc. You many not wish to conduct your actual trading off an MT4 platform, however as this method relies on the use of Jim's indicators which he arranged to be specifically built for the platform, you will need to at least download a free MT4 demonstration version to enable you to conduct your trade analysis, and then place your actual trades on your preferred Broker's platform. Although Jim concentrates solely on Forex trading, there is no reason why you could not trade this method on other financial instruments offered by many MT4 brokers such as Bitcoin, Oil, Precious metals, Commodities, Stock Indices, Individual stocks. Jim's other books Trading Forex with Divergence on MT4 \*NEW (expands on Divergence mentioned in the High Probability book) Forex Trading: The Basics Explained in Simple Terms

## **Currency Trading For Dummies**

In this remarkable stock market study, one of Wall Street's best known market analysts reveals a new technical tool he developed for gauging the pulse of the trading cycle. Called the On Balance Volume Theory, this tool tends to fill in some of the conspicuous voids in the famous Dow Theory—especially the lack of discussion and use of stock volume figures. As straightforward as a set of bridge

rules, on-balance volume (OBV) denotes each buy and sell signal so that a trader can follow them without his own emotions tending to lead him astray—emotions causing most of the market misjudgements that take place. The Granville OBV method is essentially scientific, has a high degree of accuracy and has many automatic features. The reader of this book will be introduced to a method whereby he may benefit by the earlier movements of volume over price—the “early warning” radar of volume buy and sell signals.

## **MT4/MT5 High Probability Forex Trading Method**

A straightforward guide to trading today's dynamic Forex market Written by Wayne McDonell, the Chief Currency Coach at FX Bootcamp, this book shows readers how to successfully trade the Forex market on their own. FX Bootcamp's Guide to Strategic and Tactical Forex Trading skillfully explains how to combine popular technical indicators to formulate a comprehensive market strategy. Readers will then learn how to focus on using this information to create a tactical trading plan--one that will help them pull the trigger to get in and out of a trade. Along the way, McDonell takes the time to discuss the various challenges a Forex trader faces, such as greed, fear, loss, and isolation. As a Forex trader and educator of traders, Wayne McDonell knows what it takes to make it in the competitive world of Forex. And with FX Bootcamp's Guide to Strategic and Tactical Forex Trading he shows readers how.

Learn the Art of Day Trading With a Practical Hands-On Approach

## **ADMINISTRATIVE ART WITH BEAR AND BULL IN FOREX - MEDIUM LEVEL**

A streamlined and highly effective approach to trading without indicators Most forex traders rely on technical analysis books written for stock, futures, and option traders. However, long before computers and calculators, traders were trading naked. Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators Coauthor Alexander Nekritin is the CEO and President of TradersChoiceFX, one of the largest Forex introducing brokers in the world Naked Forex teaches traders how to profit the simple naked way!

## **Trading Forex with Divergence on MT4/MT5**

Forex For Beginners is the prequel to my first two books, A Three Dimensional Approach to Forex Trading, and A Complete Guide to Volume Price Analysis. It is your primer to the world of forex. It has been written to lay the foundations and provide the framework for getting started in the world of forex, in what I believe is the correct way. My other books then build on what you will learn here, to further develop your trading skills and knowledge. What I try to do in all my books, is to show you how to apply that knowledge to help you become a more confident trader. After all, learning is all well and good, but if we are not taught how to apply that knowledge in a practical way, then it is of little use. It is the application of knowledge that empowers, and this is what I have tried to do here, and in my online training rooms, and all my books. There are of course many books about forex trading. What is different about this book, is the focus on those aspects of trading which I believe are fundamental. After all, there are only two questions we need to answer when considering a position in the market:- What is the risk on this trade - high, medium or low? What is the financial risk on this trade? The first is the hardest question to answer, and the book will explain in detail the analysis and approach to use, in order to answer this question with confidence. The second question is more straightforward and is answered provided you have an understanding of risk, money management and position sizing in relation to your trading capital. Again, this is covered in detail in the book. As the tag line on the

front cover says 'What you need to know to get started, and everything in between' which really sums up what you will learn. The book explains everything, from the pure mechanics to the trading methodology that I advocate, and which I have used in all my own trading and investing for over 17 years. Forex For Beginners is also dedicated to all those traders who have asked me to write such an introduction, based on my knowledge and my methodology. This book is for you.

## **The Black Book of Forex Trading**

Classic work describing 6 proprietary systems developed by a pioneer in technical analysis. The prima ones still used are RSI, Directional Movement, and parabolics.

## **Forex Trading for Beginners: The Ultimate Forex Trading Strategies to Make Money Today! in This Guide You'll Learn Forex Day Trading Secrets & How**

Many traders go around searching for that one perfect trading strategy that works all the time in the global FOREX (foreign exchange/currency) market. Frequently, they will complain that a strategy doesn't work. Few people understand that successful trading of the FOREX market entails the application of the right strategy

for the right market condition. 7 Winning Strategies For Trading Forex covers: - Why people should be paying attention to the FOREX market, which is the world's largest and most liquid financial market - How understanding the structure of this market can be beneficial to the independent trader - How to overcome the odds and become a successful trader - How you can select high-probability trades with good entries and exits. Grace Cheng highlights seven trading strategies, each of which is to be applied in a unique way and is designed for differing market conditions. She shows how traders can use the various market conditions to their advantage by tailoring the strategy to suit each one. This revealing book also sheds light on how the FOREX market works, how you can incorporate sentiment analysis into your trading, and how trading in the direction of institutional activity can give you a competitive edge in the trading arena. This invaluable book is ideal for new and current traders wanting to improve their trading performance. Filled with practical advice, this book is a must-read for traders who want to know exactly how they can make money in the FOREX market.

## **Trading the Trends**

I'm going to show you how to CRUSH financial markets using a simple Money Management System that reduces your risk while maximizing profits! While this system may focus on FOREX trading and the casino game Roulette, it can be applied to trading ANY financial market, including stocks, commodities, and binary options. I was inspired to develop this system after a horrible night in Las Vegas where I lost \$2000 playing Roulette with a betting system that I thought was unbeatable. I spent the following 12 years reverse engineering everything that went wrong that dreadful night and developed what I discovered into a simple and powerful Money Management system that makes it easy for anyone to CRUSH financial markets like a professional gambler! After developing this system, I

returned to Las Vegas and turned \$20 into \$500 in about 1 hour at the roulette table, and that was down from a high of \$750. The \$500 profit that I walked away with was locked in from the profit-locking mechanism, like a gear that spins freely in one direction but quickly locks in the opposite direction. In January 2015, I had this system programmed into an MT4 Forex Trading Robot so I could automate the entire system (signals, trade execution, and money management). After a few weeks of little activity, the market sprang to life and so did my system! My account doubled in about 48 hours and that's when I knew I had developed something very special. But my trading robots are NOT required to use this system. It can be applied manually to virtually ANY trading system in ANY market and even on casino games like Roulette, although you will get much better results in financial markets where you can have far better statistics than a casino game. So come join me and I'll open a whole new dimension of trading and opportunities for BIG PROFITS that you have never noticed before!

## **Momentum, Direction, and Divergence**

Jim's FOREX books are consistently ranked BEST SELLERS on Amazon and there is a very good reason for this. At no extra cost (or on-costs) Jim shares with his readers: His custom indicators for the MT4/MT5 MetaTrader platform as well as TradingView, as a download at the end of the book. An invitation to join his Facebook Group which has over 6,000 new as well as experienced Forex Traders

oriented toward giving beginners the basics. The author is a self-taught forex trader who became intrigued by currency exchange and its profits at a private gathering for stock traders. The text stands out for Brown's clear, concise language that, without being condescending, never takes the reader's knowledge for granted. Some of the basics covered are:

- The definitions of forex and forex markets
- Strategies for entrances and exits
- Trading psychology
- The ins and outs of forex pairs
- Places to trade foreign currencies
- Tips for selecting a broker

Brown also offers up his own trading strategy that a novice can use, or at least be inspired by and use as a guideline for creating a personalized one. - JB Maverick, INVESTOPEDIA

Jim Brown is one of the more well known authors in the currency trading industry. Brown authored a number of forex market books that range from introductory level material to more advanced titles focused on complex trading and market dynamics. Forex Trading is the first book in a multi book series and is targeted to new investors interested in trading the forex market. New traders will benefit from the information in the book as well as bonus access to Jim's Facebook group and one of his Trading Systems. Readers appreciated the short, concise and practical advice provided in the book. If you are interested in trading the forex market and want practical, actionable advice, Brown's book delivers. You will get a full picture of the technical analysis, fundamental analysis, and trading psychology required to be a successful trader. The author gives you just enough information to get you excited about trading as well as the necessary tools to make your first trades. You'll know pretty quickly if you have the stomach for trading the forex

## **The Art of Currency Trading**

"The Power of Divergence" is the second volume of the series "Trading with the Trendlines." The book explains a strategy applicable in every market (forex, equities, commodity), and it is a combination of divergence, trendline, and a little of Fibonacci; a simple strategy that seeks to exploit the reversal of a market. What you will read in the book, is a correct way to use the divergences, in particular, the one between the price and Commodity Channel Index (CCI). Every aspect is well explained, including the proper position sizing, with many examples. Easy and clear is the identification of the target profit and stop-loss of the strategy. Not only. Depending on your account, I will also explain to you the correct position sizing, for proper money management. If you are a beginner, do not worry; the first two chapters will provide you with adequate knowledge for understanding the strategy and using it correctly. Do not be tricked by the fact that the book is free. The strategy, if you use it correctly and with money management appropriate to your account, will give you a high percentage of profitable trades. However, it is recommended to combine the strategy with the fundamental analysis and open a position only if both give the same signal.

## **Naked Forex**

FX Bootcamp's Guide to Strategic and Tactical Forex Trading skillfully explains how to combine popular technical indicators to formulate a comprehensive market strategy. Readers will then learn how to focus on using this information to create a tactical trading plan - one that will help them pull the trigger to get in and out of a trade. Along the way, McDonnell takes the time to discuss the various challenges a Forex trader faces, such as greed, fear, loss, and isolation.

## **Adventures of a Currency Trader**

This currency trading book provides readers with real, practical information on how to trade the foreign exchange market effectively. It begins by covering introductory information on the forex market, including basic trading mechanics and the benefits of forex trading, and then goes on to describe specific currency trading methods and skills in step-by-step detail. This includes highly practical information on technical and fundamental analysis, risk and money management, and powerful forex trading strategies. These strategies have proven extremely effective in helping traders play the forex game to win. JAMES CHEN, CTA, CMT (Montville, NJ) is Chief Technical Strategist at FX Solutions, a leading foreign exchange broker. An expert on forex trading and technical analysis, he is also a registered Commodity Trading Advisor (CTA) and a Chartered Market Technician (CMT). Mr. Chen writes daily currency analysis, leads forex trading seminars, and has authored numerous articles on currency trading strategy and technical

analysis for major financial publications. These include Forbes.com, Futures Magazine, Technical Analysis of Stocks and Commodities Magazine, and Stocks, Futures and Options (SFO) Magazine.

## **Proven Forex Trading Money Making Strategy**

TWO of Jim's FOREX books are consistently ranked \*BEST SELLERS\* and this new book is set to take off! Jim, from Queensland Australia, is a full-time Forex Trader, currently residing in Vietnam. While Divergence may sound a little technical and intimidating, Jim assures you that it is easy to understand when you know what you are looking for. Some even consider Divergence to be a leading indicator. Basically, it is the difference between what the actual price on the chart is doing and what an Oscillator type indicator is doing. This book will use the same principles as his MT4 High Probability Forex Trading Method, but it is a stand-alone book and concentrates more on trading with Divergence. Jim has no affiliation with any links included in the book and there are no up-sells or ongoing costs for this method, his custom indicators, template etc. Also worthy of mention is that this Method can be used with any other financial instrument that your MT4 platform offers. Here is an outline of what is included: 1. A downloadable package which includes Jim's personal custom indicators: QQE ADV.ex4 QMP Filter 1.01.ex4 P4L PeriodCon 509.ex4 MACD\_Platinum.ex4 MACD Platinum Book.tpl Forex Multiple Trade Calculator.xlsx 2. 50+ COLOR images to explain Forex Trading using

divergence (access to download/print) 3. A video with instructions on how to load the template and indicators to your MT4 platform. 4. The Table of Contents outline includes: What Is Divergence? Setting Up The Charts The Basic Concept Of This Trading Method Trading With Divergence Some Observations About Divergence Various Examples Of Divergence Entering A Trade After Divergence Has Been Identified Trade Examples On The GBP/JPY 4hr Chart 'Tight' Divergence The Smart Way To Trade This Stop Loss Placement Trade Re-Entry Technique Trend Losing Steam And Time To Take Action Divergence Formed On The Wrong Side Of The MACD Platinum Zero Level Trade Management High Risk Money Management Technique 5. Access to is Facebook Group which has new and experienced traders contributing, as well as many YouTube videos to help you out.

## **7 Winning Strategies For Trading Forex**

A guide to the latest, most promising technical indicators and their applications. Momentum, direction, and divergence are the three basic components of nearly all technical indicators used in the analysis of stock and commodities trading. And for those who understand them and their applications, they are also the pillars of a high-performance trading strategy. In this groundbreaking book, technical wizard William Blau schools financial professionals in all three. Combining the latest financial information with dozens of eye-opening graphics, Blau clearly, concisely, and with a minimum of complex mathematics: \* Introduces the principle of double

# Online Library Trading Forex With Divergence On Mt4 Mt5 Forex Forex Trading Forex Trading Method Trading Strategies Trade Divergences Currency Trading Book 3

smoothing and develops potent new indicators based on double smoothing techniques \* Describes the uses and limitations of a variety of notable technical indicators \* Explains momentum, direction, and divergence and new ways to apply them \* Presents the True Strength Index and shows how it can dramatically improve most directional indicators \* Provides new ways of identifying divergence that make implementation far simpler than ever before

**MOMENTUM, DIRECTION, AND DIVERGENCE** The Wiley Trader's Advantage is a series of concise, highly focused books designed to keep savvy traders in tune with the latest successful strategies and techniques used by the keenest minds in the business. In this latest volume, technical expert Bill Blau shows you how momentum, direction, and divergence form the basis of most technical indicators and how they can work for you to provide a considerable competitive advantage. Clearly, concisely, and with a minimum of complex mathematics, Blau shows you how to understand and apply them. Integrating the latest financial insights with more than 75 easy-to-follow graphics, Blau describes the uses and limitations of many of today's most notable technical indicators. He then demonstrates a variety of ways in which the principles of momentum, direction, and divergence can be used to create a versatile new set of technical indicators or to improve the effectiveness of the most widely used traditional indicators. Focusing on the groundbreaking double smoothing concept, which he introduces for the first time in this book, William Blau:

- \* Develops reliable new momentum indicators based on double smoothing techniques
- \* Shows how these indicators improve the effectiveness of most popular oscillators, including the

RSI, MACD, and stochastic indicators, by solving a host of timing problems \*  
Combines the standard Welles Wilder techniques with his original True Strength  
Index to improve the effectiveness of most directional movement indicators \*  
Introduces new ways of identifying divergence that make implementation simpler  
than ever \* And much more A complete guide to the most potent new indicators  
and their applications, Momentum, Direction, and Divergence is an indispensable  
resource for traders, portfolio managers, and all financial professionals.

## **Forex Trading**

Note: this book also includes the "50 pips a day forex strategy" Day Trading Forex  
with Price Patterns Forex Price Action Day Trading System Make 1000 pips per  
month or more Timeframes used - 30 minutes-4 hours Components Price Action  
Trends Price Patterns Support and Resistance Levels Summary The book contains a  
powerful price action day trading system that focuses on very strong patterns that  
price makes. These patterns are illustrated with great detail inside the book, but  
more importantly, the logic behind every pattern is described in a way that the  
trader will learn exactly what is happening with the buyers and sellers, which of  
them are stronger at that time. Knowing this, the trader can then make the best  
trading decisions The system looks at the bigger picture to find the direction in  
which to trade, then it uses the 30 minutes chart to spot price patterns and day  
trade them with very good success. It doesn't use technical indicator of any kind. It

also has very well defined entry, stop loss and exit rules that enables the trader to make the maximum out of every trade

## **Forex Trading**

"There are fifteen major breakthroughs in technical analysis! SEVEN of these breakthroughs are new, never-before-revealed material!" - George Lane, Stochastics Originator. As professional traders approach the 21st century, accelerating technological change threatens to make conventional technical studies and indicators ineffective. To compete in this changing environment, these professionals need radical new uses and combinations of indicators and formulas to keep their competitive edge. Not a primer for the novice, TECHNICAL ANALYSIS FOR THE TRADING PROFESSIONAL resets the scales, arming today's professional trader with new, unique, and never-before-seen formulas and uses of key market indicators and techniques.
