Traditions & Encounters: A Brief Global History

While the importance of the relationship between anthropology and contemporary art has long been recognized, the discussion has tended to be among scholars from North America, Europe, and Australia; until now, scholarship and experiences from other regions have been largely absent from mainstream debate. *Alternative Art and Anthropology: Global Encounters* rectifies this by offering a groundbreaking new approach to the subject. Entirely dedicated to perspectives from Asia, Latin America, and Africa, the book advances our understanding of the connections between anthropology and contemporary art on a global scale. Across ten chapters, a range of anthropologists, artists, and curators from countries such as China, Japan, Indonesia, Bhutan, Nigeria, Chile, Ecuador, and the Philippines discuss encounters between anthropology and contemporary art from their points of view, presenting readers with new vantage points and perspectives. Arnd Schneider, a leading scholar in the field, draws together the various threads to provide readers with a clear conceptual and theoretical narrative. The first to map the relationship between anthropology and contemporary art from a global perspective, this is a key text for students and academics in areas such as anthropology, visual anthropology, anthropology of art, art history, and curatorial studies.

The God of Small Things

Traditions and encounters

Focusing on the work of Lorenzo Valla, the Spanish Complutensian scholars, and Erasmus of Rotterdam, this book examines the New Testament studies of the Renaissance humanists rather than their more frequently studied religious, moral, and political thought. Jerry H. Bentley shows that the humanists brought about a thorough reorientation in the Western tradition of New Testament studies. He finds that the humanists' methods both anticipated and influenced later New Testament scholarship. The humanists rejected the medieval practice of studying the New Testament only in Latin translation and interpreting it in accordance with preconceived theological criteria. Instead, they insisted that New Testament

studies be based on the original Greek text, and they employed linguistic, historical, and philological criteria in explaining the scriptures. This study rests on an analysis of the New Testament manuscripts that the humanists consulted and of the New Testament editions, translations, annotations, and commentaries that they prepared.

masterpiece, adding more than 100 pages of newly translated text. Davis's elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines.
