Only . . . if flying by himself is so wonderful, then why does he feel so empty? Because some experiences are better shared. (And penguins are much happier on the ground.) Oliver Jeffers delivers the perfect companion to his much-loved *Lost and Found*. Penguins everywhere will take flight in delight.

Country houses were reliant on an intricate hierarchy of servants, each of whom provided an essential skill. *Up and Down Stairs* brings to life this hierarchy and shows how large numbers of people lived together under strict segregation and how sometimes this segregation was broken, as with the famous marriage of a squire to his dairymaid at Uppark. Jeremy Musson captures the voices of the servants who ran these vast houses, and made them work. From unpublished

memoirs to letters, wages, newspaper articles, he pieces together their daily lives from the Middle Ages through to the twentieth century. The story of domestic servants is inseparable from the story of the country house as an icon of power, civilisation and luxury. This is particularly true with the great estates such as Chatsworth, Hatfield, Burghley and Wilton. Jeremy Musson looks at how these grand houses were, for centuries, admired and imitated around the world.

This is the fifth and final book in the Latsch Valley Farm series, recounting the lives of four generations of a Polish-American extended family, living in neighbouring homesteads in Wisconsin. A sequel to *Willow Wind Farm*, we follow Betsy Korb, now aged eight going on nine, as she learns the lessons of sharing, making up after quarrels, running errands and broadening her experiences within her large and loving family, under the firm and wise direction of Mom and Dad and underpinned by their Catholic faith. Told in a highly readable style, the author,

Betsy's aunt, has carefully observed the triumphs and disasters in the life of the inquisitive and independent-minded Betsy as she grapples with the ups and downs of growing up, setting them in the warm context of family life—the Korbs' own life and the bigger one that seems to fill Latsch Valley and spill out into the world beyond.

Up and Down the Cline--the Nature of Grammaticalization

Arthur William Upfield is well known as the creator of Detective Inspector Napoleon Bonaparte (Bony) who features in 29 crime detection novels, most set in the Australian outback. It is not well known that he also wrote about 250 short stories and articles, drawing on his experiences in the bush between 1911 and 1931. Up and Down the Real Australia is the second published collection of Upfield's short works. Kees de Hoog has selected 45 autobiographical articles, ranging from humorous outback anecdotes to personal experiences at Gallipoli and the Somme during the First World War. Kees has added The Murchison Murders, Upfield's account of how the "perfect murder" was developed for his second Bony novel, The Sands of Windee; how Snowy Rowles used it to commit at least one, probably three, murders on 1929; how the crime was solved; and what happened at Rowles' trial in 1932.

"Being diagnosed with manic depression when I was 27 years old changed the

course of my life drastically." In 1993, Rosemarie Booler was diagnosed with bipolar disorder at the age of 27 after walking down the street naked carrying a bible. Up and Down the Totem Pole is made up of the true stories behind some of the events that have shaped Rosemarie into the person she is today. Following her diagnosis, Rosemarie learnt how hostile people became when they didn't know how to deal with the situation. Friends and family shut her out, she was no longer able to work and as a single mother her life became very difficult, very quickly. Following four close bereavements in 1998, Rosemarie's 6-year-old daughter was sent to live with her father and her life became void of all meaning. With a combination of grief and depression, she began making notes of life's trivial ups and downs; enormous amounts of solitude and loneliness, alcohol and drug additions that led to amazing highs and devastating lows and finding faith to guide her through the darkest times. Now a born again Christian, Rosemarie still lives alone on the same street in Market Harborough. In her memoirs, she has put together some of the very amusing adventures her mental health has sent her on, as well as some of the more traumatic experiences she encountered on her journey through life. Up and Down the Totem Pole is a moving story that will resonate with readers who suffer from the same condition or anyone who has experienced substance abuse. It also provides an interesting and eye-opening read for those working in professional health care.

The basic idea behind this volume is to probe the nature of grammaticalization. Its contributions focus on the following questions: (i) In how far can grammaticalization be considered a universal diachronic process or mechanism of change and in how far is it conditioned by synchronic factors? (ii) What is the role of the speaker in grammaticalization? (iii) Does grammaticalization itself provide a cause for change or is it an epiphenomenon, i.e. a conglomeration of causal factors/mechanisms which elsewhere occur independently? (iv) If it is

epiphenominal, how do we explain that similar pathways so often occur in known cases of grammaticalization? (v) Is grammaticalization unidirectional? (vi) What is the nature of the parameters guiding grammaticalization? The overall aim of the book is to enrich our understanding of what grammaticalization does or does not entail via detailed case studies in combination with theoretical and methodological discussions.

Up and Down in the Dales

On his first day at Turner King, David Stewart quickly realizes that the world of international PR (affectionately, known as "the dark side") is a far cry from his previous job with the Canadian government. For one, he missed the office memo on the all-black dress code; for another, there are enough acronyms and jargon to make his head spin. Before he even has time to find the washroom, David is assigned a major project: devise a campaign to revitalize North America's interest in the space program -- maybe even show NASA's pollsters that watching a shuttle launch is more appealing than going out for lunch with friends. The pressure is on,

and before long, David finds himself suggesting the most out-of-this-world idea imaginable: a Citizen Astronaut lottery that would send one American and one Canadian to the International Space Station. Suddenly, David's vaulted into an odyssey of his own, navigating the corporate politics of a big PR agency; wading through the murky waters of U.S.-Canada relations; and trying to hold on to his new job while still doing the right thing. Equal parts clever and satirical, thoughtful and affecting, *Up and Down* is Terry Fallis at his best, confirming his status as a literary star.

Arthur, a warm-hearted elderly couple just a few doors down from Glenn. Later, John, a single Dad, and his rambunctious young son, Ryan, also move in and are seduced by Katie's charms. All of their lives are profoundly changed as they are transformed from neighbors to friends to family, with Pearl as matriarch. The motherless boy finds a "Granny"; his Dad inherits a mother, Glenn discovers a confidante. Set in New York City, we witness nearly sixteen years of antics and family adventures spanning Hollywood high times, bad health, accidents, blustery winters, even the terrors of 9/11. Through it all, the family clings to each other, sharing a deep bond that give each comfort, support and security. Based upon a widely-read article in Family Circle, here is an unforgettable story about the love that makes a family-one that transcends the hard realities of time, tragedy, and inevitable loss.
