5 Pillars, 7 Sins

Johan Christian Maempel was a Rhinelander who found himself in the service of Napoleon's French Empire. Maempel joined the Light Infantry and began a tough life of campaigning that took him to Spain where he fought and suffered at Ciudad Rodrigo, before the lines at Torres Vedras and ultimately as one of those besieged behind the walls of Almeida

before it finally succumbed to attacking British forces. Good fortune spared his life and where many of his comrades fell he was taken prisoner. As a German he was offered freedom upon joining the King's German Legion and carrying its rifle. He accepted and found himself once more dispatched to the Iberian Peninsula to oppose Suchet and his former comrades in the campaign for the eastern flank.

How to Survive and Succeed as a SENCo in the Primary School

His wife, Norma, has run off with her ex-husband, taking Ray's cards, shotgun and car. But from the receipts, Ray can track where they've gone. He takes off after them, as does an irritatingly tenacious bail bondsman, both following the romantic couple's spending as far as Mexico. There Ray meets Dr Reo Symes, the seemingly down-on-his-luck and rather eccentric owner of a beaten up and broken down bus, who needs a ride to Belize. The further they drive, in a car held together by coat-hangers and excesses of oil, the wilder their journey gets. But they're not going to give up easily.

In his life and in his music, Cole Porter was the top—the pinnacle of wit and sophistication. From the 1910s through the '50s, from Yale pep rallies through the Broadway triumphs of Anything Goes and Kiss Me,

Kate, he delighted audiences with a glittering torrent of song: “I Get a Kick Out of You.” “Night and Day,” “Love for Sale,” and “Just One of Those Things.” The bright surface of these gems—their catchy melodies and ingenious lyrics—made them instant pop hits. Their more subtle qualities and their musical and emotional depth have made them lasting standards, among the greatest glories of the American songbook. In Cole Porter, William McBrien has thoroughly captured the creator of these songs, whose life was one not only of wealth and privilege but also of tragedy, secrecy, and courage. A prodigal young man, Porter found his aesthetic and emotional anchor in a long, loving, if sexless marriage, while continuing to maintain many discreet affairs with men. In 1937, at the height of his success, he suffered a near-fatal riding accident; his last eighteen years were marked by pain, drugs, and repeated operations on his legs, years of physical agony but unstinting artistic achievement. Here is the book that Porter’s fans have long hoped for—a life that informs the great music and lyrics though illuminating glimpses of the hidden, complicated, private man.

Marriage as Political Strategy and Cultural Expression is the first comprehensive study of Mongolian royal marriages from World Empire (1206-1279) to the Yuan dynasty (1279-1368) in Asia. This study examines the Mongolian royal family's marriage strategies and the political implications of these royal marriages, specifically, the intermarriages between the Mongolian royal house and its allies, including the Onggirat, the Oirat, and other Mongol peoples as well as the Uighur State and Korea in Central and East Asia. This book concludes that the short lifespans of Mongol royalty after Khubilai Khan were the result of consanguineous marriage and inbreeding - genetic factors that contributed to the collapse of the Mongol dynasty.

In 2004, eight countries from central and eastern Europe entered the EU; all eight countries intend to access the euro area within three to six years after entering the EU. This book presents three analytical studies that focus on selected aspects related to the

countries' balance of payments and other issues that are of interest in the countries' run-up to full European Monetary Union membership. The first study assesses the countries' current account balance and the sustainability of external debt. The second study addresses the question of how to attract foreign direct investment inflows by analyzing the factors that determine these flows from industrialized countries. Since most central and eastern European countries face high public deficits and European institutions recommend expenditure-based consolidation strategies, the third study analyzes the impact of such strategies on the external balance.
