## **Caribou's Gift**

Melina Franklin was barely sixteen when she and her grandfather were kidnapped from their small farm in Georgia by an alien trader and sold to an Antrox mining asteroid in deep space. Mistaken for a young boy, she lives in fear of being found out and sold. Her only companionship for the next four years is her grandfather and the Pactors, a large creature used for hauling the mining ore that she takes care of. She dreams of the day when she and her grandfather will somehow escape and return home to the rolling green hills of their farm. Calo and Cree Aryeh have been secured as the personal guards for Creon Reykill's mate, Carmen Walker. The twin brothers are a rare species of dragon known for their fierceness in battle. Born to the mystic dragon clan of the Northern Mountains, they have given their allegiance to the Dragon Lords vowing to serve and protect the royal family and their new true mates. The brothers know they will never be able to have a true mate of their own. Never in the history of their clan have twin dragons been able to find a mate capable of handling two male dragons. They can only hope that they die in battle so they are not destined to be caged when the loneliness eventually drives their dragons insane. The twin dragons are confused when two humans are discovered on an abandon asteroid mine. The old man and his grandson appear normal enough but their dragons and their symbiots are driving them crazy, insisting

the boy is their true mate. Neither know how to handle the other two parts of themselves or their need to remain close to the boy. On top of that, the young human male refuses to have anything to do with either of them. He hides and avoids them every time they get near him. Things become clearer when they discover Mel is really Melina. Unfortunately, finding out their true mate is really a woman does little to change her feelings toward them. She is even more determined to return to her world. When her wish comes true, the brothers know they have no choice but to kidnap her and hide her away. Can they convince her to give them a chance at happiness or will she seek protection from the royal family they have vowed to serve? If that is not bad enough, there is another who has his eye on their mate and will do whatever is necessary to keep her - including killing the twin dragons who have claimed her first.

### **Psychology 2e**

New York Times and USA TODAY Bestselling author of Science Fiction, Urban Fantasy, and Paranormal Romance brings another action, adventure, and suspense-filled story to transport readers out of this world. Ella is the last of a dying breed of humans that live hidden deep in the forests of Washington State. All of her life, she has heard horror stories about the Others, the beasts that live beyond the safety of the mountains. In ancient times, humans and the Others lived together in peace, but a great battle divided them and the shape-shifting species won the war. Ty Bearclaw, a grizzly shifter, is the

curator at the Washington State Animal Sanctuary, Research, and Observation Center (WSASROC). A call from a rancher about an unusual animal causing havoc along the borders of the National Forest brings him to the Olympic Mountain National Park. Ty is furious when he discovers that the rancher has placed a trap to capture the creature on government-protected property. His shock soon turns to horror and confusion when he locates the wounded 'animal.' Ty finds more than he expects when a human, thought to be extinct, turns up in the trap. What is even more confusing is his bear's reaction to the female. When word escapes about his discovery, Ty must fight to protect the unusual woman who is more than an oddity - she is his mate! Can Ty keep Ella alive and safe from a shifter obsessed with adding her to his private collection? Not only that, can he protect her when his own government threatens to take her away from him? ### **The Martyrdom of Madeline**

An astonishingly rich oral epic that chronicles the early history of a Bedouin tribe, the Sirat Bani Hilal has been performed for almost a thousand years. In this ethnography of a contemporary community of professional poet-singers, Dwight F. Reynolds reveals how the epic tradition continues to provide a context for social interaction and commentary. Reynolds's account is based on performances in the northern Egyptian village in which he studied as an apprentice to a master epic-singer. Reynolds explains in detail the narrative structure of the Sirat Bani Hilal as well as the tradition of epic singing. He sees both living epic poets and fictional epic heroes as figures engaged in an ongoing dialogue with audiences concerning such vital issues as ethnicity, religious orientation, codes of behavior, gender roles, and social hierarchies.

The book provides a comprehensive reference on the neurobiological understanding of behaviour, how behaviour is

regulated by the brain, and how such behaviours in turn influence the brain. The work offers an introduction to neural systems and genetics/epigenetics, followed by detailed study of a wide range of behaviours – temperament and personality, instincts and drives, memory and cognitive function, sex and sexual differentiation, ethology and evolutionary biology, aging, drug abuse and other problematic behaviors, psychophysiology and ultimately the links to biological psychiatry and psychopharmacology. Research findings on the neural basis of social behaviour are integrated across different levels of analysis, from molecular neurobiology and neural systems/behavioural neuroscience to fMRI imaging data on human social behaviour. The content covers research on both normal and abnormal behaviours, as well as developmental aspects. The target audience includes psychiatrists, neurologists, nurses, psychologists and all researchers and advanced students in behavioural, social and developmental neuroscience, as well as clinical neuroscientists.

### **Abducting Abby**

The creation and utilization of the International Space Station (ISS) is a milestone in space exploration. But without the Space Shuttle, it would have remained an impossible dream. Assembling and Supplying the ISS is the story of how, between 1998 and 2011, the Shuttle became the platform which enabled the construction and continued operation of the primary scientific research facility in Earth orbit. Fulfilling an objective it had been designed to complete decades before, 37 Shuttle missions carried the majority of the hardware needed to build the ISS and then acted as a ferry and supply train for early resident crews to the station. Building upon the decades of development and experience described in the companion volume Linking the Space Shuttle and Space Stations: Early Docking Technologies from Concept to Implementation, this book explores • a purpose-built hardware processing facility • challenging spacewalking objectives • extensive robotic operations • undocking a unmanned orbiter The experience and expertise gained through these missions allows space planners to improve space construction skills in advance of even more ambitious plans in the future.
