Have you ever had a dream and actually followed it through? That's what Larry Harcum did. He dreamed his dream - and then went for it! Imagine driving round trip from New York City to Los Angeles. That's more than 5,000 miles. But Harcum traveled a distance of 5,805 miles alone on a jet ski. To add to the challenge, he decided to make the trip in just one summer - 87 days! Despite months of agonizing planning and preparation, unforeseen challenges surfaced, often with comical results. Harcum circumnavigated the eastern United States on the route known as the Great American Loop. Starting in his hometown of Virginia Beach, Harcum went up the Eastern Seaboard, through the Great Lakes, down the Mississippi, out into the Gulf of Mexico, back around Florida and into the Atlantic to his home port. Despite fire, rain, hail, and a blown up jet ski, he relentlessly pursued his dream. His adventure on the waterways of America, the people he met, and the tests he faced will grab your attention and win your respect. Harcum enjoyed this dream ride, and you will too.

The Sales and Use Tax Answer Book is the key reference source for which practitioners have been searching. Not only is it comprehensive and clear; it also provides extensive citation to important case and statutory law. Forty-five states and the District of Columbia impose a sales tax on the retail sale of tangible personal property and selected services. In addition, there are 7,500 cities, municipalities, towns, school districts, counties, and other special taxing districts that levy sales and use taxes. The varying rates, the changing jurisdictional boundaries, the different tax bases, and the often inconsistent and contradictory interpretations of similarly worded statutes are all covered. The book also includes a chapter on sales tax reforms, particularly the Streamlined Sales Tax Project.
