### **Texas Protector**

After her father receives a large promotion at work, 21-year old Makenzie Adams is forced to move with her family from Oklahoma to Texas to finish her last year of college. She quickly falls in love and finds her soul mate in Caleb, one of her family's new servants from the opposite side of the tracks. When her parents learn of the romance, the two are tragically forced apart. Both are tortured and tormented by the gut wrenching pain that only the truest form of love can cause, as memories and images of each other continuously and relentlessly haunt them. The tale that unfolds is an unforgettable story of love and heartache that demonstrates how love can be powerful enough to conquer all.

TEXAS POLITICS TODAY is the standard in its coverage of Texas institutions, policies, and politics. It combines a comparative approach with tightly integrated learning objectives and questions addressing the Texas GOVT2306 Core Objectives. The text closes the gap between theory and practice with its *Insiders and Politics in Practice* features. The text reveals the inner workings of Texas elites, interest groups, campaign megadonors, and policy makers. The authors tapped their resources among political activists and officeholders to provide students with exclusive essays written by essayists ranging from the governor to campaign consultants to marijuana advocates, showing students how real-world politics operates in Texas. Texas Politics Today stimulates critical thinking and civic participation with a special focus on current political issues ranging from

immigration, LGBT politics, gun control policies, abortion laws, and Latino politics to the culture wars in education. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

These are the chronicles of the trail drivers of Texas—those rugged men and, sometimes, women who drove cattle and horses up the trails from Texas to northern markets in the late 1800s. Gleaned from members of the Old Time Trail Drivers' Association, these hundreds of real-life stories—some humorous, some chilling, some rambling, all interesting—form an invaluable cornerstone to the literature, history, and folklore of Texas and the West. First published in the 1920s and reissued by the University of Texas Press in 1985, this classic work is now available in a handsome paperback edition that contains the full text, historical illustrations, and name index of the hardcover edition.

From its dusty Spanish legacy and struggle for independence to its vital place in the world's economy, Texas remains connected to its frontier roots. Crammed with fascinating facts, historical vignettes, and snappy anecdotes, this book gives the lowdown on this sprawling state and tells the story of its people - descendents of the first inhabitants, those who came in covered wagons or cars, and those who made it big or lost it all. A fun read and an entertaining resource, *Calling Texas Home* makes a great gift for those who love the Lone Star State.

Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to

make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers -- and why they often go wrong. How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to each other that isn't true? While tackling these questions, Malcolm Gladwell was not solely writing a book for the page. He was also producing for the ear. In the audiobook version of Talking to Strangers, you'll hear the voices of people he interviewed--scientists, criminologists, military psychologists. Court transcripts are brought to life with re-enactments. You actually hear the contentious arrest of Sandra Bland by the side of the road in Texas. As Gladwell revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, and the suicide of Sylvia Plath, you hear directly from many of the players in these real-life tragedies. There's even a theme song - Janelle Monae's "Hell You Talmbout." Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world.

## **Governing Texas**

English beauty Eva St. John is flown to Texas to shadow rugged billionaire oilman Jack McClaine for the magazine article she is writing. He has a reputation as a fast living, womanizing rogue, who has quite literally come from the wrong side of the tracks. A self-made man who always gets what he wants. Still nurturing a broken heart and a secret past she left behind her long ago, Eva intends to remain professional at all times. But will she be able to resist the inevitable sexual advances of the predatory Texan Jack McClaine? And will she really want to? As a rule, Jack McClaine never mixes business with pleasure, but for the beautiful and intriguing Eva St. John he will make an exception. Who is she really? And what is she running from? PUBLISHER NOTE: This book was previously published by best-selling author, Jan Bowles

A detective forever haunted by the night when he couldn't save a young girl from trauma—now she's a cop herself and he has to send her undercover to lure a murderer. "Tight suspense and great chemistry between the lead characters make Jean Brashear's [book] a page-turner." ~RTBookclub 4 ½ of 5 stars Book three in New York Times bestselling Texas romance author Jean Brashear's Lone Star Lovers series about three brothers, this story a uniquely powerful reunion romance between a haunted detective and the woman whose life he once saved. FBI agent Alex Sandoval has never forgiven himself for not protecting a young girl who was gravely injured and her mother killed before her eyes during his first hostage negotiation twelve years ago. Now Jade Butler is a cop herself, assigned to a prestigious multi-agency task force hunting for the killer of several young girls in Austin, Texas—and Alex is the agent in charge of the case. They never met all those years ago, but Jade recognizes his voice as the one she still hears in her dreams, the voice that has comforted her through many a terrifying flashback. Her role on the task force is undercover, serving as bait for a madman, yet Alex cannot stop trying to protect her as he was unable to do years ago. Tensions ratchet between them as old memories vie with a powerful new attraction, and when Jade is taken hostage by the killer, it's Alex's worst nightmare as he must negotiate once again—only this time, it's to save the woman he loves.

## The Trail Drivers of Texas

\*Includes pictures\*Includes accounts of battles like the Alamo and Goliad\*Includes online resources and a bibliography for further reading

What part of the United States has been under the rule of six different countries? The answer, given the title of this book, is obvious, and perhaps that's why few places in America have citizens with such an inflamed pride for their homeland. As John Steinbeck famously wrote in *Travels with Charley: In Search of America*, "Texas is a state of mind, but I think it is more than that. It is a mystique closely approximating a religion. For all its enormous range of space, climate, and physical appearance, and for all the internal squabbles, contentions, and strivings, Texas has a tight cohesiveness perhaps stronger than any other section of America." It's not uncommon for the average Texan to feel great pride for the mere fact of being a Texan, and even if also a proud American, he she can even play with the notion that the Lone Star State can (and perhaps should) be a big nation itself. To say that something is "The size of Texas" expresses grandeur and impressiveness, and its inhabitants have certainly displayed enough industriousness to make this part of North America one of the states that contribute most to the country's gross domestic product. When various revolutions mostly forced the Europeans out of the continent, Texas ceased to belong to Spain and France to become a part of the Mexican Empire; later it was an independent country, and currently one of the 50 states of the United States. During a short period, rebellious Texas again separated from the U.S. to join the Confederate States of America with other secessionist states. Of course, the most important war of all for Texas came in the early 19th century, and the common story heard in America is about rebellion against intolerance, oppression and Mexican cruelty. The Battle of the Alamo in particular, surrounded by legend and testimonies of heroism, is a textbook example of the fight for freedom, comparable to the Jewish defenders during the Roman siege at Masada. The words "martyrs" and "Mexican tyranny" are almost always present in

the recounts, and "Remember the Alamo!" is both a slogan of self-glorification and martyrdom that remains one of the most famous phrases in America. Naturally, this typical account is portrayed through rose-colored glasses. As in every story, everything depends on which side readers are positioned and whose histories they're reading. The Texas Revolution certainly pursued freedom, but not for the tired, poor and huddled masses yearning to breathe free, the homeless or the wretched refuse of alien shores; it was rather the freedom to suck in land from a weak country and to preserve slavery in the cotton fields, added to enthusiasm for cheap land and inexhaustible natural resources. Texians did not live under a tyranny, and the settlers were not enslaved by anyone - on the contrary, they had been given cheap or free land and every assistance to settle. Nor was the Mexican army the evil force whose sole purpose was, in the words of the time, to enforce "barbarism and despotism () of the Hispanic-American hybrid race and the black race against civilization" (Pacheco, 1997). As Arnaldo de León noted, "The Texans never experienced oppression like that of the others who have risen in rebellion. The Mexican government was thousands of miles away, unable to pay attention to what was transpiring in Texas." Texan settlers, most of them peaceful and hard-working families, did what any human group in search of better opportunities would have done at the sight of uninhabited and unsupervised territories: enter, settle in them, work and defend what they achieved. For its part, Mexico reacted as any country would if foreign armed rebels invaded its territory: expel them or appease them.
